Where is Arabic spoken? Arabic is the official language of the 22 countries which form the Arab League: This Classical form of Arabic remains widely used by religious scholars and is taught in schools around the world. However, it is considered today more of a written language than a spoken one. In terms of "spoken" Arabic, there are many different dialects. An Arabic speaker from Iraq, for example, can find it almost impossible to understand a local Algerian, and vice versa - even though both individuals are speaking a particular form of Arabic dialect. However, both will be able to communicate in Modern Standard Arabic. This has no impact on the intonation, though. How hard is it to learn? In Arabic word order, the verb comes first, so to say "the boy eats the apple" you actually say "eat the boy the apple": Adjectives come after the noun, rather than before as in English: The Arabic language is written right to left and the front of an Arabic book is what would be considered the back by speakers of most western languages. When your apricots were ripe, our apricots were not ripe yet 5. Know any good Arabic jokes? Arabic jokes usually revolve around social issues, such as nagging wives, nosy in-laws, stingy neighbours, etc. Political jokes are also very common following big political events, such as elections. One of the jokes goes: If I learn Arabic, will it help me with any other languages? Arabic is a Semitic language and therefore shares similarities with other Semitic languages, such as Aramaic and Hebrew. What not to say and do Despite the many differences in pronunciation between English and Arabic words, be wary of some false friends, i. You should also avoid any public display of affection towards your partner, as this is also considered impolite or even illegal in some very conservative countries such as Saudi Arabia. Arabs are renowned for their hospitality and eagerness to honour their guests, which can sometimes put westerners in awkward situations. So express your admiration, but in a moderate way. This expression is usually said after giving a compliment, in the same way that you say bless or knock on wood in English. Some famous and common Arabic words of wisdom. You will either become one of them or flee them. First publication The Arabic language is believed to have started among nomadic tribes in the Arabian Peninsula, long before the birth of Islam. However, this ancient Semitic language remained predominantly spoken and had no major written records until the 7th century AD, when it started to develop into a written form. However, some historians consider the texts known as the Hasaeen inscriptions, which date back to the 8th century BC, to be the first Arabic scripts ever recorded. Those texts were written in what is known as the Epigraphic South Arabian Musnad. It was used for writing the Yemeni Old South Arabic languages and eventually developed into a pre-classical form of Arabic alphabet, the Nabataean.

Basic Arabic Course - Lesson 1: Here are some basic characteristics of the Arabic writing system: The Arabic alphabet contains 28 letters. Arabic is written from right to left. In Arabic short vowels are generally not written. Arabic letters change their shape according to their position in a word. This means that the Arabic alphabet contains only two more letters than the English alphabet 26 letters. However, unlike English, the Arabic letters are always pronounced in the same way. In English the letter "c" is sometimes pronounced like an "s" ceasar and sometimes like a "k" cucumber. Or, to take another example, "gh" is sometimes pronounced "f" enough and sometimes pronounced "g" ghost. In Arabic, the letters always retain their sound. English, of course, is written from left to right like this. There are three short vowels in Arabic: Usually these short vowels are simply omitted in writing. Long vowels such as the "ee" in "tree" are written. A sentence such as: As you learn more about Arabic grammar you will be able to "guess" the missing short vowels and pronounce unknown words. The Arabic script is essentially a cursive script, much like handwritten English. This necessitates certain changes in their shapes. If you write an English word cursively, then you will also make certain changes to the letters. For example, the letter "s" will be connected to the letter on the left with a diagonal stroke if that preceding letter is e. However, in Arabic these changes can be quite drastic. Take a look at the following table that summarizes the letters in the Arabic alphabet and their shapes according to whether they are: You should write the letters a few times each to get a feeling for them. To hear the pronunciation of the Arabic letters you should head over to the Arabic letters application. Easy In this group are all the letters that are more or less exactly pronounced as their English counterparts. Medium These letters are still somewhat similar to English sounds, but already more difficult to pronounce. Difficult These Arabic letters can prove tough to pronounce for beginners. Keep at it, though, and listen to recordings of native speakers. To write the word start from the right and connect all the letters: End of lesson 1:
