

Chapter 1 : Cozy Spotlight on Magick Run Amok by Sharon Pape – The Cozy Pages

Julie Hyzy began her work career as hot dog stand "chef" making hot dogs, burgers, and chopping up tear-rendering onions. However, wanting to showcase her potential as a singer, she moved from hot dogs and onions to become a singing waitress at her local Farrell's Ice Cream parlor.

A new story with a new murder: But here, after solving three murder cases, people are all too eager to provide their opinions and suspicions. That last line But here, after solving three murder cases, people are all too eager to provide their opinions and suspicions to Grace. But finally some romance in the air. Moral of the story: Money can be your salvation or your death. As one has come to expect, another well plotted and told story from Julie Hyzy. In this book, the somewhat secretive Frances is able to take center stage and the reader will learn more of her past. Grace and Bennett Marshfield are about to head off and view some of the hidden rooms of Marshfield Manor when their fun is interrupted by phone call from Frances. She asks that Grace comes immediately to the Indwell Nursing facility in nearby Rosette. Frances asks Grace for help in finding out who did kill Westburg. What turns out to be a complete surprise, is the reason Frances had been at the facility. Surprisingly, Grace even gets help from Emberstowne detectives, Rodriguez and Flynn. In A subplot, Bruce and Scott, are having to look for a site for their wine store. Grace is hoping she can come up some way to help them obtain a new location. Another truly wonderful visit the folks at Marshfield Manor. Looking forward to the next exciting adventure of Grace Wheaton. With every new book in this delightful series, author Hyzy adds new layers to her characters, giving us a new peek into their lives. This serves to keep each new story fresh, and enticing. Each new chapter so well written, I was encouraged to keep turning page after page until I found myself at t Author Julie Hyzy has penned another fantastic installment in the Manor House Mysteries! Each new chapter so well written, I was encouraged to keep turning page after page until I found myself at the exciting reveal!

Chapter 2 : Writer's Wednesday: An Interview with NYT Best-selling Author, Julie Hyzy - Written Dreams

Julie Hyzy is 58 years old and was born on 11/18/ Currently, she lives in Tinley Park, IL; and previously lived in Orland Hills, IL and Chicago, calendrierdelascience.commes Julie goes by various nicknames including julie a hyzy and julie a garbarczyk.

She came home from out of state to help her ailing mother and then stayed on to make a life in the town she was born in. Grace gets a job as an assistant curator at Marshfield Manor and is settling in and very happy to be working with Abe, Mr. Her position has her learning all the nuts and bolts of the Manor, and getting involved in many of the day to day events that take place there. The story opens at an afternoon Tea in the Manor. One of the patrons is giving the staff and guests a hard time, and making them all uncomfortable. It is during this little episode that Mr. Marshfield comes in to see what the ruckus is all about. He approaches the young man and speaks sharply to him. This is when the security people manage to grab him and take him into custody. Just then the staff radios put an alert to go to private channel and report that there have been shots fired on the fourth floor. Marshfield head to the site of this new incident and our real mystery begins. How will this affect her job, and how can she help Mr. This and other interesting questions will be answered as you delve into Ms. The Manor House Mysteries. The author sent this book as a gift and I chose to review it. Hyzy gives us a detective cozy in the traditional English manor house setting but with less conventional characters. There are plots and subplots -- romances, fraud, petty rivalries and family intrigues. I look forward to the next installment in the Manor House Mysteries. Berkley June 1, , pages. Chapter 3 : Julie Hyzy - Book Series In Order

Grace Under Pressure (Manor House Mystery #1) by Julie Hyzy (Goodreads Author) From the author of the successful White House Chef mysteries. Everyone wants a piece of millionaire Bennett Marshfield, owner of Marshfield Manor, but now it's up to a new curator Grace Wheaton and handsome groundskeeper Jack Embers to protect dear old Marshfield.

She has also written smaller works under two pseudonyms: Despite her lack of any personal experience as an investigator or executive chef, she focuses the majority of her writing around three female main characters: As a little girl, Julie wrote her own mystery stories and made up her own newspaper, which her dad helped her to sell around the neighborhood. Julie fell in love with science fiction when her eighth-grade teacher gave her a copy of *The October Country* by Ray Bradbury. As an adult, she then tried her hand at writing science fiction but rekindled her love of mysteries becoming the mainstay of her writing career. She continued her love of the stage appearing in community theater projects and television commercials. Attending college at Loyola University in Chicago, she was accepted into the Delta Sigma Pi Chapter at Loyola University as a female brother making her one of the first women to achieve this honor. However, her love of and passion for writing took over full time at the turn of this millennium. She began with short stories, earning praise from her publisher and having several of her short Star Trek science fiction stories published. After that success, a friend suggested she try writing a novel which turned into her first manuscript and novel, *Artistic License*. Her experiences and travels provide her literary talent with exceptional material earning her several literary awards including two Anthony Awards, a Barry Award, and two Lovey Awards. Julie Hyzy and her family have remained living in the Chicago area. Julie caught the novel writing bug and embarked on the Alex St James mystery series. She personifies the main character in this series, Olivia Paras known as Ollie , as a confident, smart-alecky, and fast quipping chef with an improvingly optimistic view of the world. Motivated and driven, Ollie works hard at her job and competes with her nemesis for promotion. Distracting her from her focus, a highly trained assassin infiltrates the White House through the kitchen. Luckily, Ollie hits the intruder with a frying pan doing something not even the Secret Service nor the White House sniper guards could do. A plot to assassinate the President unveils from the captured intruder and Ollie becomes witness to a murder. She then feels conflicted among working hard to attain her dream job, maintain her romantic relationship with her Secret Service boyfriend, and help solve the mysterious assassination plot. Seemingly an irresponsible character, Ollie appears an unlikeable person making the reader feel more sympathetic to her opposing assassination characters. *State of the Onion* remains a well-written first novel with a believable and intriguing plot. Grace Wheaton, the newly appointed curator and manager of Marshfield Manor and amateur sleuth, finds herself embroiled in a murder mystery during a Civil War reenactment occurring on the Manor grounds. One of the reenactors, who had just left his wife at the altar, earns the wrath of two angry women and he also starts a brawl with Davey Embers, a groundskeeper for the Manor and brother of Jack Embers who Grace fancies. Grace must find out all she can, with the help of her nosy assistant Frances, to keep her man out of jail before the campers finish their reenactment. The story starts out slow but gradually picks up speed to the point where the reader will not want to put it down. Despite the book not having too many plot twists, the number of potential suspects makes guessing the identity of the murderer challenging. Julie Hyzy has written all her characters from a believable perspective so the reader can picture them fully and understand what they do and why they do it. While not a literary award earner, *Grace Interrupted* presents a likable story well worthy of the time to read it. Jack Reacher is back! Family secrets come back to haunt Reacher when he decides to visit the town his father was born in. Because when he visits there he finds out no-one with the last name of Reacher has ever lived there. It leaves him wondering - did his father ever live there? Featured Author Our author of the month is Canadian author Opal Carew who writes erotic romance novels. Opal has written over novels with multiple book series such as the Dirty Talk series and the Abducted series.

Chapter 4 : How It Happened by Julie Hyzy | The Thrill Begins

After five years in a bad marriage she filed for divorce, began to pursue her dreams of being a full-time artist, and quit her job to work for herself. Now, well on her way to a brand-new start with her fledgling mural painting business and her handsome new client, life finally holds promise again.

I dreamed of being an author since I was six years old andâ€™ with a mad desire to be published by the time I was twelveâ€™ wrote bunches of novels and short stories, some of which I even illustrated myself. Missed it by a long shot. But mostly it was lack of know-how. Fast forward to around or At that point, the TV show had been off the air for about five years and America Online AOL was still a dial-up service that charged by the hour. Chat rooms provided new and exciting opportunities to connect and maybe even learn. That is, until I figured out that most were troll-infested. Others were boring or, worse, useless. But then I stumbled across a little piece of internet heaven. A message board that embraced two of my favorite topics: Star Trek and writing. Are you kidding me? Lucky for me, they did. Every year, Pocket Books in cooperation with Paramount produced an anthology of Trek short stories written byâ€™wait for itâ€™ Amateurs! Was this perfect, or what? Here was the opportunity I needed. There were rules to follow. I studied every single post on that message board in an effort to understand what the editor, Dean Wesley Smith , was looking for in submissions. Additionally, this strange new community provided support from real writers, both accomplished and wannabe. A group of us started a private chat room of our ownâ€™the Queue Q, get it? Flush with confidence and determined to make my mark on the Trek universe, I popped my story into the mail for SNW III and then waited for my phone to ring. As we all know, rejection stinks. In this case, however, I decided to embrace my disappointment. I could deal with that. I vowed to create a short story so vastly different from a typical submission that Dean would be blown away. Although scenes were set aboard the Enterprise-D, the bulk of the story took place in the heart and mind of an eleven-year-old girl. I poured everything I had into this short story. I mailed it last minute and had to pay extra for overnight delivery to make the deadline. Again, I waited for my phone to ring. I hoped to find out, though. Dean had promised to give feedback via form-letter checklist to anyone who enclosed a self-addressed, stamped envelope with their submission. Dejected, I waited for the mail. Weeks later, however, my phone rang. It was Dean Wesley Smith. In the few seconds it took for me to process this unexpected incoming transmission, my klaxon-clanging brain took the opportunity to remind me that the winners had already been announced and that I was not among them. He loved my story? Did he really just say that? Excited to the point of embarrassment, I did my best to not make a fool of myself. But my voice shot up to happy-dolphin levels and I squeaked with joy and thanks. It was too dark, too unsettling. But it was so good he wanted to tell me so himself. How could anyone take such a compliment the wrong way? Still squeaking, I thanked him for risking the call. And then we hung up. For the first time, I began to believe I might have some talent. Liked my work enough to call me! That boost came exactly when I needed it. The next yearâ€™still unpublishedâ€™I submitted again to SNW and this time, a story of mine made it in. Another made it in the year after that. Those three professional publishing credits gave me real bona fides. Editors began to personalize my rejection letters. And every additional publication strengthened my growing resume. Little by little, other editors decided to take a chance on me. That phone call came at a critical moment for me, one I reflect on whenever rejection rears its ugly head. A Chicago native and graduate of Loyola University, she lives in the Chicagoland area with her husband.

Chapter 5 : Grace Under Pressure : Julie Hyzy :

Julie Hyzy is a writer of Science fiction and mystery. She has published three stories in the Strange New Worlds series, two as "Julie A. Hyzy." " Efflorescence " - a TNG short story in Strange New Worlds V.

We are so happy for her success! Please help us welcome Julie to The Editing Essentials! A relentless snoop since childhood, Julie Hyzy gets to play detective these days by writing amateur sleuth adventures. She writes two series for Berkley Prime Crime: She also has several backlist and original titles available as e-books. How old were you when you began writing? I wrote my first book at about age six or seven. Right about the time I realized I had the capability of recording the stories I made up in my head. Back then I even drew pictures, too. Did your family support your writing habit when you started? My parents were supportive of everything I did. They read and gently critiqued all my early novels Mary King Mysteries and when I hand printed my weekly eight page neighborhood newspaper, my dad would take it to work to make copies for me to distribute sell to indulgent neighbors. How many rejection letters did you receive before selling your first novel? I have no idea. I queried agents for the most part, and those rejections came in quickly and in bulk. Rejections became the norm, which in a way was good. After a while you get used to them. In fact, I trained myself to embrace rejection. So they became a good thing. What was your reaction when you sold your first novel? I may slow down. I may not get any good words done for a couple of days, but I never stop wanting to do it. Your relationship with Michael A. Black has led to a collaboration of characters. Could you share how you two decided to put your characters together in Dead Ringer? Mike and I were critique partners for a very long time. After that, just for fun, we decided to end our next respective books my Deadly Interest, his A Final Judgment with last chapters that dovetailed. James met up with his Ron Shade at a gas station. That was fun, too. Then we wondered, could we write an entire novel together? It became a challenge. And so we decided to try. At this point, Mike and I are super busy with other projects. What are your current writing habits? How often do you write? I try to write every day, Monday through Friday. If I can write solidly until 3: What made you want to write the Manor House mysteries? I love mansionsâ€”the kind you tour on vacationâ€”with rooms that number in the hundreds. Like Downton Abbey â€¦ The stories those rooms could tell! Ever since I was a little girl, I wanted to live in such a house. I used to dream up floor plans and design rooms. My next challenge, honestly, is to always write a better book than the one before. Which of your stories was the most difficult to research? I promise not to make a mess. You think I have a chance? I think I should have started submitting work sooner. But I think I could have been. You edited for a while before writing full-time. Actually, I edited while writing full time. As an editor, I become an objective reader. What a wonderful experience. What is the best thing about being a writer, in your opinion? I have the best job in the world. I spend the day making up stories and bringing characters to life. What does your family think of your success? So far, they seem pretty pleased. What do you have lined up for ? Both of these manuscripts are due this year, with WHChef 7 due in just about six weeks insert panicked shriek. You inspire writers and readers everywhere. Inspire writers and readers? Not sure about that. But I do have advice. There is so much rejection out there, whether it be from agents, editors, reviewers on Amazon and BN. They say that writers need a thick skin. If to be able to do that I have to risk myself, then so be it. Rarely does success come without rejection. Part of the deal. Read in your genre. Read outside your genre. Read fiction and non-fiction. Read books and blogs by experts in the business. There is so much knowledge out there at our fingertips. Learn, be hungry, be thirsty. Oh, and most importantly: Thank you, Julie, for being our guest today! If you have questions or comments for Julie, please feel free to post a comment to the blog.

Chapter 6 : Author Work Spaces: Julie Hyzy | Crimespree Magazine

Julie Hyzy is a New York Times bestselling and Anthony Award-winning author. Her novels include the standalone techno-thriller, VIRTUAL SABOTAGE (October 23, ; Calexia Press), the White House Chef mystery series, the Manor of Murder mystery series and the Alex St. James mystery series.

May 18, Bird rated it did not like it Recommended to Bird by: This threw me off a bit in the beginning, and it took me awhile to get adjusted. Cozies usually have a strong sense of place, which I found lacking in this book. I browsed through some of the reviews, and no other readers seemed to have the same issues that I did. So either I really missed the boat on this one, or I just spent too much time dissecting the storyline. Is it just so that Grace can find his name while going through the Ponzi scheme files? And why was she so sure that one of those people was responsible anyway, since Bennett had nothing to do with all of that lost money? Or did he shoot Abe to scare Bennett into taking the threatening letters more seriously? Or was he just trying to steal that very valuable egg-thing, and Abe happened to be in the room, thus resulting in him being shot inadvertently? None of this is explained, and I find that frustrating and confusing. Finally, why is Bennett being sent threatening letters in the first place? Again, this is never explained. It can be pretty formulaic, but it at least clears up any lingering questions about the crime. This is a one-star read for me. The first pages or so of this book are sooooo slow and boring. I only forged ahead because I hate quitting on books. The second half of the book picked up and was much better but it took a lot of effort to make myself get there. I also thought that the main character, Grace, was somewhat unlikeable- her boss is murdered in cold blood and basically the very next day she is appointing herself as his replacement and taking over his office. Meanwhile no one has told her I wish I could give a 2. Other than that the book was decent, but it has nothing on the White House series from this same author.

Chapter 7 : Julie Hyzy | Memory Beta, non-canon Star Trek Wiki | FANDOM powered by Wikia

Julie A. Hyzy is a Chicago-based New York Times bestselling author whose first published short story, "Efflorescence," appeared in Strange New Worlds V in May Since then, she has written and published numerous books, short stories, and articles, including the White House Chef series and the Manor House mysteries.

Chapter 9 : Julie A. Hyzy | Memory Alpha | FANDOM powered by Wikia

from Ms. Hyzy, whom I've just discovered thru "State of the Onion". Although I have to say this wasn't a surprise ending for me, especially given the book's title, I greatly appreciated the writing, the development of the plot, the heroine's personality, and her "life".
