Tolkien in Bengali The National song and the national anthem of India, and the national anthem of Bangladesh were composed in Bengali. Today, literary form and dialects of Bengali constitute the primary language spoken in Bangladesh and the second most commonly spoken language in India. We all know in India there was released a Marathi translation of The Hobbit in Back then we knew that a translator, called Aniruddha, had been making a Bengali translation of The Hobbit, but has so far had not found a publication house to get his book released. The Fellowship of the Ring followed in , and received an illustrated edition. Concerning Bengalis Bengalis have been living in the four farthings of Bengal for many thousands of years. They are smallish people; bookish, and rather risk averse. A rather unfair observation as we have also developed a keen interest in living a simple yet intellectually stimulating life. So you see it is only natural for us to adore the incredible works of J. Afterall it is still in Bengal; according to the Shakabda, the Bengali calendar year that is. Curiously similar to the Great Years in the Shire-reckoning. Both books are a product of years of painstaking translations: I must pause to declare a natural bias- the illustrator, Santi Chatterjee is my father. So I hope you will forgive a daughter counting all the illustrations from the copy of the two books she now owns. Also few words about the weblinks. They seem to work best via Google Chrome or Firefox. And if you fancy, maybe treat yourself to a copy of the beautifully illustrated translations of J. The Two Towers was the most difficult of the Rings films to make, having neither a clear beginning nor end to focus the script. The most notable difference between the book and the film is the structure. This was done partly to fit more closely the timeline indicated by the book. In the book he rides out to war, only ending up besieged when he considers helping Erkenbrand. Erkenbrand does not exist in the films: The scene is possibly inspired by one in the book cut from The Fellowship of the Ring where it is the Fellowship who battle them. Here, a new subplot is created where Aragorn falls over a cliff, and is assumed to be dead; Jackson added it to create tension. A larger change was originally planned: During shooting, the script changed, both from writers coming up with better ideas to portray the romance between Aragorn and Arwen, as well as poor fan reaction. This adds to the tension, and Boyens describes it as making Merry and Pippin "more than luggage". This was explained in the book by Gandalf arriving at Isengard in the middle of the night to talk to Treebeard. In the film, Faramir first decides that the Ring shall go to Gondor and his father Denethor , as a way to prove his worth. Boyens contends these plot changes were needed to keep the Ring menacing. While Tolkien considered several possible sets of towers [17] he eventually created a final cover illustration [18] and wrote a note included at the end of The Fellowship of the Ring which identified them as Minas Morgul and Orthanc.

Post-production[edit] An example of Elvish armour from the films. Each film had the benefit of a full year of post-production time before its respective December release, often finishing in Octoberâ€”November, with the crew immediately going to work on the next film. He had a video link and 5. The extended editions also had a tight schedule at the start of each year to complete special effects and music. This was the final area of shaping of the films, when Jackson realised that sometimes the best scripting could be redundant on screen, as he picked apart scenes every day from multiple takes. The Two Towers was always acknowledged by the crew as the most difficult film to make, as "it had no beginning or end", and had the additional problem of inter-cutting storylines appropriately. The first time Jackson actually saw the completed film was at the Wellington premiere. Many filmed scenes remain unused, even in the Extended Editions. Also cut were scenes from the book, including Frodo seeing more of Middle-earth at Parth Galen and an extended Council of Elrond, [15] and new scenes with an attack upon Frodo and Sam at the river Anduin by an Uruk-hai. He was hired in August [40] and visited the set, and watched the assembly cuts of *The Fellowship of the Ring* and *The Return of the King*. In the music, Shore included many 85 leitmotifs to represent various characters, cultures, and places - the largest catalogue of leitmotives in the history of cinema, surpassing - for comparison - that of the entire *Star Wars* saga. For example, there are multiple leitmotifs just for the hobbits and the Shire. Jackson planned to advise the score for six weeks each year in London, though for *The Two Towers* he stayed for twelve. As a Beatles fan, Jackson had a photo tribute done there on the zebra crossing. Even actors Billy Boyd , Viggo Mortensen , Liv Tyler , Miranda Otto extended cuts only for the latter two , and Peter Jackson for a single gong sound in the second film contributed to the score. On top of that, individual themes were composed to represent different cultures. Infamously, the amount of music Shore had to write every day for the third film increased dramatically to around seven minutes. Some, such as animal sounds like those of tigers and walruses, were bought. Human voices were also used. Other sounds were unexpected: In addition, ADR was used for most of the dialogue. The technicians worked with New Zealand locals to get many of the sounds. They re-recorded sounds in abandoned tunnels for an echo-like effect in the Moria sequence. Mixing took place between August and November at "The Film Mix", before Jackson commissioned the building of a new studio in The building, however, had not yet been fully completed when they started mixing for *The Return of the King*. Special effects of *The Lord of the Rings* film series The first film has around effect shots, the second , and the third 1, 2, in total. The total increases to 3, with the extended editions. The crew, led by Jim Rygiel and Randy Cook, worked long hours, often overnight, to produce special effects within a short space of time. Home media[edit] The first two films were released on standard two-disc edition DVDs containing previews of the next film. The success of the theatrical cuts brought about four-disc Extended Editions, with new editing, added special effects and music. They have also played at cinemas, most notably for a 16 December marathon screening dubbed "Trilogy Tuesday" culminating in a late afternoon screening of the third film. Attendees of "Trilogy Tuesday" were given a limited edition keepsake from Sideshow Collectibles containing one random frame of film from each of the three movies. Both versions were put together in a Limited Edition " branching " version, plus a new feature-length documentary by Costa Botes. The complete series was released in a six-disc set on 14 November The first, *The Fellowship of the Ring*, was released on 24 March

Lord of the Rings Petition - extremely serious Last winter some dolt posted an on-line petition suggesting that the Name "The Lord of the Rings: There are currently about signatures, of which about are sarcastic When I learned that there apparently was to be a sequel, I was overjoyed. The title is clearly meant to refer to the attacks on the World Trade Center. In this post-September 11 world, it is unforgivable that this should be allowed to happen. The idea is both offensive and morally repugnant. Hopefully, when Peter Jackson and, more importantly, New Line Cinema see the number of signatures on this petition, the title will be changed to something a little more sensitive. Sincerely, The Undersigned Hart I think it would be best, in light of recent events, if the film was simply not shown at all. Sigmund Wonder Oh thank you so much for this. Those shameless money mongers care for nothing but themselves. Baby Jesus cries every day because of them. Could you please start a petition to stop those fascist police from using as their phone number too? That is also something that bothers me. Lionel Hutz I myself am a big Elvis fan and if they name the third film after the book title "Return of the King" I will start my own petition I mean why should he return, when he clearly never left in the first place?! He should be deported to New Zealand or Dudley. Melkor It is equally disrespectful that some people still have the nerve to use matching pairs of shoes. How about changing it to: John Boy Scene cut from the movie: Your ring is tight! When I put my finger in it, it smells funny! Go on smell it?! Hammna Hurabi I demand that the number two no longer be used! Leyton Stone I think we should congratulate our American cousins if this is true and not a hoax on achieving a higher level of stupidity. I say change the next movie to "honor" the event: And take your g y Hobbits with you! Every time I see it, I cry. Pass I believe Twins should be banned from entering Tower Records stores. Fred LummoX Mister, I think you need to loosen up those muscles around your ss! Try yoga and a high fibre diet. Two new buildings were recently constructed in my home town but we managed to have them demolished and the offenders removed from society. Do or die, yours is not to question why! Chuck, lube yourself up boy! Sartre is that much smarter The only comfort I have in this life is that sooner or later, due to all the in-breeding that is endemic in the US, Americans will no longer be able use keyboards as a result of extreme webbing of fingers and never again will you be able to post sh! Pardon me but you can - George Bush!
