Travel Time: Flight time between San Diego and Los Angeles is less than 50 minutes. If you could hop on and hop off the plane with no waiting, it would be the fastest way to go.

Cabazon Dinosaurs is a roadside attraction at the Main Street exit in Cabazon. I intersects with the northern end of State Route , whereas I bypasses the town and connects to State Route 62 , a major east-west route through the Mojave Desert. I then has an interchange in Coachella with the northern end of the State Route 86 freeway, which also leads to SR Past Coachella, I traverses the Mojave Desert, with few junctions and no cities. Several miles east and roughly halfway between Indio and Blythe , in the community of Desert Center , I intersects with State Route , a turnoff that connects to SR Near the Arizona state line, I meets the terminus of State Route In the city of Blythe, I runs concurrently with U. Route 95 as both routes cross the Colorado River into Arizona. By , when the United States Numbered Highways were assigned, the road across the desert east of Indio was unimproved , while the road from Indio west to San Bernardino as well as various roads west to Los Angeles was paved. Route 99 was designated along the section of road from San Bernardino to Indio, where it turned south along present State Route 86 on the west side of the Salton Sea. Route 66 via Pasadena before turning north; this route to Los Angeles is north of the later alignment of Interstate Route 99 and State Route 86 for details. A extension took it south to Calexico on present State Route Later extensions took LR 64 west along present State Route 74 ; a cutoff bypassed Mecca to the north. The original alignment of LR 26 ran roughly where State Route 60 now is west of Pomona, but an alignment close to present I opened around Route 70 was extended west from Arizona ca. Interstate 10 eastbound near Indio I holds the distinction of being the first freeway in Los Angeles. The roadway, which opened on April 20, , was dubbed the "Air Line route," and was seen as a major achievement in traffic design. It was assigned the I number on August 14, , and the short piece west of I-5 was approved as I on November 10, Those three routes were all removed in the renumbering , leaving only I It too was assigned the I number on August 14, Portions of the Santa Monica Freeway going over La Cienega Boulevard collapsed after the Northridge earthquake on January 17, , and were rebuilt using new Seismic-Resistant bridge designs.

Woolsey Fire jumps freeway, entire City of Malibu ordered to evacuate Posted: MALIBU CNS - Driven by howling winds and dangerously low humidity, a brush fire that began in Ventura County but raced over the Los Angeles County line continued a relentless march toward the Pacific Ocean today, forcing thousands of people from their homes as evacuation orders were imposed for the entirety of Malibu. The Woolsey Fire exploded to more than 10, acres overnight, then was estimated at 14, by midday Friday, with zero containment. Driven by to mph winds, the flames jumped the south across the Ventura Freeway in the Liberty Canyon area early Friday. The flames devoured homes as it continued to chew through brush, but there was no immediate word on how many structures had been affected. By early Friday, authorities indicated there had been significant property losses. Fire crews in one area of Malibu alone reported as many as 30 homes being consumed by flames, with the blaze advancing on dozens of others. There were sporadic reports of people being unable to escape burning homes in remote areas, but as of mid-morning Friday, there had been no reports of any injuries to firefighters or residents. Evacuation orders were imposed overnight affecting tens of thousands of residents in both counties, and at 10 a. Friday, mandatory evacuation orders were expanded to include the entire city of Malibu. Residents were advised to use Pacific Coast Highway to evacuate, and to avoid using canyon roads. Evacuating residents were being directed south of PCH toward Santa Monica, creating a snarl of vehicles along the normally scenic coastal route. Complicating matters were the traffic signals that were knocked out of service, and motorists were advised to expect lengthy delays. And a large animal evacuation center was established at the Zuma Beach parking lot in Malibu. With the fire jumping the freeway overnight, the California Highway Patrol shut down a four-mile stretch of the Freeway between Las Virgenes to Kanan roads. The Woolsey Fire broke out about 2: Early Friday, the whipping winds prevented fire commanders from ordering aerial assaults in the early morning hours, but some flights began at 5: But winds quickly began picking up again as dawn broke. High winds were expected to continue until 10 p. Fire authorities estimated Friday morning that at least 75, homes in Los Angeles and Ventura counties were under evacuation orders, but with the orders spreading along with the flames, thousands more were likely affected. Heavy smoke and strong winds hampered visibility for crews on the fire lines and residents trying to evacuate fire zones. The Los Angeles Police Department was placed on a citywide tactical alert about The tactical alert was lifted about 7: Calabasas city officials advised residents not under mandatory evacuation orders to prepare to leave by gathering their IDs, medications, important documents, emergency supplies and a change of clothes.
