Sweet Valley High was the backbone of the collection, and was made into a popular television series. Although most of these books were published in the 1980s and 1990s, they have remained popular such that several titles have been re-released in recent years. It was there that she first met author and journalist John Pascal and, in 1985, they were married the second marriage for each. Francine often credited John as her writing mentor, and they collaborated on several projects, including writing scripts for the ABC soap opera *The Young Marrieds*, which aired from 1985 - 1987. John died of cancer in 1988, at 49 years old. Francine, her husband John, and her brother Michael worked together writing the book to the Broadway musical *George M!* A television version of *George M!* Michael Stewart died in 1991. A TV series was also planned for *Fearless*, but for several reasons it never aired. *The Ruling Class*, a teen novel about a clique of spectacularly cruel girls who essentially run a high school in a wealthy Dallas suburb, has been described as "a magnetic tour de force created by a master storyteller at the top of her form. Jamie, Laurie, and Susan. John had a son from his first marriage, Matthew, who lived with his mother. After John died, Francine and her daughters remained in Manhattan, and Francine has often said that much of the inspiration for her young adult novels came from watching her own three daughters grow up. Francine now divides her time between homes in New York and the south of France. She maintains a rigorous professional schedule, but spends as much time as she can with her children and grandchildren. Since John died, she has never remarried. Her daughter Susan now lives in Shanghai, with two daughters Anna and Nicole, both working in the modeling area.

The series of Sweet Valley High has a book named Love Letters, a book by Francine Pascal. This book is for girls and can be compared like a labyrinth you need to way for get out of it in this case the lie of Caroline.

A to episodic series featuring teenaged twins Elizabeth the good one and Jessica the naughty one Wakefield, the thinly-bound soap opera narratives created and supervised by author Francine Pascal sold over million copies worldwide. Take a look at these 14 facts about the series that rewrote the book on high school angst. A former journalist, Pascal had shopped a teen-oriented television soap opera in the s but had no takers. In the early s, she decided the serialized format might lend itself to an ongoing line of books. The tribulations of the Sweet Valley gangâ€”stolen boyfriends, social cliques, irritating parentsâ€”so resonated with her readership that some assumed Pascal was roughly their age. The author was in her late 40s when the series debuted and 66 when it ended in Bantam signed her to a book deal. The series grew to roughly entries in total, not including spin-off titles like Sweet Valley Twins that de-aged the girls to grade school and a thriller line where they solved murders. According to ghostwriter Ryan Nerz, the SVH protocol allowed for only three semi-profane words to appear in the titles: Nerz peppered his manuscripts with them, then let editors pare down the expletives to an acceptable number. In just a few short years, SVH took up permanent residence on nightstands in teen bedrooms across the country. Perfect Summer, released in , became the first paperback young-adult fiction title to crack the venerable New York Times Bestseller List. The following year, 18 of the top 20 young adult spots in Waldenbooks and B. Dalton were Sweet Valley titles. Book cover artist James Mathewuse was highly sought after by the New York publishing houses: For teen-lit, he skipped symbolism and went for light colors. When Random House re-issued the series in , they circulated a letter to journalists indicating certain dated references would be updated for contemporary readers. In Sweet Valley High: You might also land on a space that lets you give your maid the day off. Though Pascal was initially reluctant to explore more taboo topics like teen pregnancy and drug use, she eventually warmed to the idea: Unbeknownst to her, she had a heart defect. Natural disasters are not typical teen-lit fodder, but Pascal wanted to go out with a bang: The final books in the main Sweet Valley franchise revolved around an earthquake that demolished the township. Tragically, classmate Olivia Davidson perished when a refrigerator fell on her. It was the first installment she wrote entirely by herself, motivated in part after getting letters asking what happened to the Wakefield sisters after the conclusion of the series. While the novel was not critically embraced, it sold well enough for Pascal to follow it up with an e-book serial, The Sweet Life. Nothing escapes the cultural recycling bin, and Sweet Valley High is no exception.
