

Chapter 1 : La gloire de mon père de Marcel Pagnol | Pas ce soir, je lis

Marcel Pagnol (auteur et narrateur), La Gloire de mon père, Vincennes, Frères Meaux & Associés, 17 octobre (EAN , notice BnF n o Enregistrement Révisé vers le milieu des années par Marcel Pagnol à son domicile et retrouvé une trentaine d'années après sa mort.

I used to use it just for looking up places and find my whereabouts. The satellite mode and the homunculus are also fun. But what I love doing now is customise My Maps and keep track of places I have been or want to go. For each recent trip I am now keeping track of the restaurants or shops or less well known places that I visited. I know that no matter how vivid my experience was, with time I will forget the names of the bars, the hotels, Recently I discovered what one can do with Google Maps. I know that no matter how vivid my experience was, with time I will forget the names of the bars, the hotels, the monuments For my recent journey to Provence, we were going to visit so many places, small and bigger towns, museums, Roman ruins, restaurants, that to keep track of the busy agenda, and what were we doing each day, I created My Provence Map. When opening this novel and reading the first pages, I immediately realized the importance of the places where the story takes place, literally. Those memories are entrenched in the Aubagne region as much as in his mind and in the pages he has written, and so I proceeded to signal them in My Provence: Cassis, St Loup, La Ciotat, and The Garlaban mountain, which tops this review, and with which Pagnol begins his tale " even though I would not visit them, with the exception of the Sainte-Victoire mountain. In the pages they became as real as the places on which I was walking, so they also belonged to My Provence. This was not the first time I read the book. As I had tackled it in my youth, during a summer, since Summers were for reading French. I use to think of this series as early samples of what we now call YA literature, and have given them to the girl of a friend of mine not long ago. But in this second reading I no longer conceive of them as particularly fit for youth. No, they are for adults with a nostalgic past. For this is a glorious read. The sweetness and the humour are balanced and condensed as if in a flask one could bottle the fragrance of fresh lavender plunged into the brightness of a joyful sky. For the recollection of past memories, and filial love, retains the ingeniousness of childhood with the clarity of a clairvoyant adult. My reading continues with the following volumes.
