Our photo retouchers are specialized in different photography genres, so you can trust us portrait retouching, wedding photo editing, glamour and nude retouching or photo restoration tasks. And the most pleasant benefit – our photo retouching prices are very affordable for any photographer with the quality still remain the highest. If your vocation is photographing and you have made it to be your professional occupation, the fact that shooting takes all time and energy must be familiar to you. From this statement we may conclude that a person is not eager to do anything else, for instance to get involved in image retouching. Still, I was sure that this challenge will be done by me. I promised one customer to return his pictures in time, after it I had another client, whom I also promised. Consequently, that turned out to be a closed circle of broken promises. Soon I became fed up with all this. The most brilliant decision that came to mind was to google an online Photoshop editing service. However, I was not eager to surrender so quickly. This photo editing service amazed me greatly. Retouching your photos became easier. Moreover, there was one thing that made me choose this photo retouching company. In comparison it takes me from 3 hours to do this type of wonderful retouching. Now I co-work with them on permanent base. Photo retouching services review by Regina, Boston who considers our photo editing service to be a brilliant solution for demanding perfectionists 5. Having connections with photography and retouching photos industry, professional photographers must take pictures and editors must enhance them. These occupations cannot be mixed. Being just a hobby-like beginner, I have a demand to improve my skills and style. That requires considerable amounts of time that could be devoted to mastering Photoshop. Unfortunately, Photoshop remains sophisticated for me. Close co-working with online photo editing service - FixThePhoto can be named as the first professional step in my, I hope, successful career. I want to express my gratitude to this service for undisputed following my style and through attention to details. Photo editing service review by Michael Gauthier from Ottawa, Canada, who is very pleased with our digital retouching work 3. That seemed to be quite simple and effortless, fast and cheap. But as soon as I discovered the world of photo industry, I began to understand that this type of cooperation did not suit me at all. In order to become sure for good and all, I started comparing my works with photos made by other professional photographers. Results were quite shocking for me. So, I found a recommended by friends freelance photo retouchers, but this co-working also did not satisfy me, that was rather slow and brought few benefits. After it, my choice was professional photo editing service - FixThePhoto. To make sure in their professionalism, I gave them one simple testing order with photo correction and then another one that was a little bit more difficult. I have been successfully working with them for half a year. No failure can be remembered by me. Retouching is quite wonderful. No hidden stones concerning pricing, no delays concerning returning photo outcomes. This touch up service can be recommended. Photo enhancement service review by Richard, who tries to compare FixThePhoto to freelances he worked with 4. But this cooperation brings too many disadvantages. Communication is almost impossible and deadlines are, as a rule, broken. Who can reconcile with it? So I came to the conclusion that co-working with retouching service was inevitable for me for the sake of my future career. At first I was quite skeptical about photo editing service FixThePhoto, but being offered a free trial I was able to estimate their quality. So, with little fear I sent one paid order. The result overcame my expectances. They have never ignored my deadlines and sometime I even can be presented with improved images before discussed time. Their photo retouching prices are so friendly that there are no changes concerning my standard package for customers. Undisputedly this wonderful photo editing service is commended by me. I tried to do it on the satisfactory level and my customers did not have claims. I was confident that it would remain without photo enhancement forever. But one case made me change my opinion. Once I was asked to provide an unusual photo editing. Actually that was more digital manipulation than ordinary photo retouching services. I had to change almost everything:
