Course Summary Check out our middle school world history textbook replacement course to engage your students and help make learning more fun.

Middle school students are usually mature enough, and their reading skills are sufficient to read books well beyond their grade level. They should be encouraged to read college texts and books intended for adults on this subject. They should also be encouraged to do extensive online research, and create term papers similar to college term papers. Urge students to go beyond their current thinking and explore all aspects of a topic. Approach controversial topics and encourage students to research both sides, to gain an understanding of multifaceted issues. Unfortunately public school Social Studies curriculum has moved into a direction which many feel compromises academic standards. This is forcing interested parents to teach at home as a supplement to modern curriculum. There is a debate raging about what should be taught in Social Studies and many feel academic interests are being compromised. Parents and students must compensate as necessary in order to attain a full education in this subject. American History, Geography and Government American schools teach American History at least half as much as any other social studies subject matter. It is important for middle school students to explore the Constitution and fully understand the Bill of Rights, as well as the Declaration of Independence. It is also important to ensure students understand the geography of the U. A and be aware of the locations of all the states. They should have at least an overview of all important historical periods and events not only in isolation, but also in the context of world history. A good American History World Studies and Global Studies Middle School Students should be students of world history, culture and current events, as well as American history and culture. Ancient History Understanding ancient history and culture is vital to understanding history. Ignoring ancient history is like reading only the last one hundred pages of a long book. Current events and American history make no sense without this important preface. A large part of ancient history is learning how and why different cultures developed in different ways, and yet all had certain common elements. Discussing such topics as the development of currency, the evolution of government, and the elements a society needed to grow and flourish are vital to understanding how modern society came to exist, and continues to thrive. Students should also be introduced to the art and architecture of ancient cultures such as Mesopotamia, Egypt, China, and India. They should be well versed in Greek and Roman culture and history. European History European history is vastly ignored by the American public school system, yet only in light of European history does American history even make sense. Students should understand the religious persecution that drove their ancestors out of Europe, the connections between France and our Revolutionary and Civil War and Westward Expansion. Students should also be made aware of the evolution of art, architecture and culture in western society. Contemporary Studies to Present Students should have a firm understanding of the background of current events. They should always be able to research the reasons why things occur, going back as many years as necessary to determine the cause and effect of world events and conditions. The art of online research is a powerful tool, and one that should be taught as early as possible. Teach children to reason out the various aspects of every issue and to be able to take an objective look at all sides of an issue. Social Studies is a powerful tool in teaching thinking skills, logic, and human behavior. It can also aid in proficiency of other subjects, especially different writing styles, including objective journalism, creative writing, editorials, and especially research papers. The following resources will provide many online text books, and helpful information, however students should be encouraged to explore the web, and do online research in order to gain understanding on specific issues that concern them. National Council for the Social Studies: Outlines the public school goals and agenda for middle school education. This is long but every parent should read it, and compensate accordingly at home if they choose. Parents should at least skim this entire site. A complete resource for online middle school educational resources OER Commons: All levels of textbooks and resources in many different subjects free online. A complete, objective and accurate history of the United States is offered online and could easily be used as a US history textbook. Digital History brings a complete US History Text book, which is objective informative and interactive. It would be suitable

for middle school aged children, and is available free to read online. Holt Social Studies Books Online: Holt offers a great selection of interactive U. History books, which can be read online for free. Online Books about US History: A long list of History related books and textbooks online. There are also activist books about the right to learn. These make for great additional reading and resources. Great for enrichment of any US History or World Studies class, these books offer history from many different countries, as well as other subjects. Articles, activities and information about many social studies related topics. This is a great research resource for term papers. The National Archives presents, the Constitution, Bill of Rights, Declaration of Independence and many other documents which framed and changed our nation. The site features a transcript, photo of the original, and background information on all documents. Library of Congress offers the complete book online. Definitely a good read for interested students. World History Resources History Sourcebooks: History Sourcebooks to cover ancient to current issues, topics, and all areas of the world. Great resource but parents should be aware that gender issue topics are also covered. Hanover Historical Texts Project: Historic texts from around the world, both ancient and modern. The Library of Congress offers studies of each country in the world completely free and online. Federal Resources for Educational Excellence: An exhaustive resource of world history, world studies and global information. International World History Project: A long list of essays covering a vast array of world history topics. Great as reading material and example pieces for class assignment essays. A college level course with a great overview, and many links to great sites on all topics covered. Most of this material is easy to understand, and fun. Teaching materials and resources for Western European studies for middle school students. African History African Timelines: A great overview for African History, with links to more information. Be sure to keep clicking links Issues in African History: Beautiful pictorial site about Ancient Chinese artifacts. Timeline of Chinese Dynasties: Timeline with links to articles about each of the dynasties Discovering Ancient Egypt by Mark Millmore: A kid friendly site about ancient Egypt with beautiful illustrations and a wealth of information Ancient Mesopotamia by University of Chicago: A comprehensive and artistic site about Ancient Mesopotamia. This educational site for young students and their teachers is an extensive overview. Ancient India by Minnesota State University: A great resource for illustrated information on ancient India Monuments of India: Pictorial guide to art and architecture in India, with links. Not too educational, but a fun site Kids.

Chapter 3 : Online Textbooks / Middle School Online Textbook Resources

The Stanford History Education Group, located at Stanford University's School of Education, engages in projects on how students learn history in high school, middle school, and elementary school classrooms.

Teachers kept giving him what they considered classics, but those middle school books had nothing to do with who he was and what he saw each day. So he never touched them. Middle school kids today are coming of age in a time when they will have more access to information than ever before but lack the tools for integration. Giving them the tools to build a reading identity first will give them what they need to grow into whom they really want to be. Every one of these books offers a path to identity. Be sure to read the books you plan to put in the hands of a person who is developing a reading identity. Read some aloud to your students, give them some audiobooks to listen to, or let them read one chapter at a time to each other. At the far edge of age nine, Palmer not only abhors the tradition, but he is also hiding a pigeon in his room, causing a moral dilemma. Gino does a masterful job of taking us into what it feels like to be assigned the wrong gender. *Counting by 7s* by Holly Goldberg Sloan This is the story of an odd girl who is a genius. Her name is Willow Chance. Both of her parents were killed in a car crash, but she is able to make her life better. When middle schoolers read books where tragedy can be survived, they take note and feel stronger. Born with extraordinary physical deformities, Auggie finally braves going to an actual school. He is stared at and tormented, but he also finds friendship. Middle schoolers will cheer for him and cry for him. This Newbery Award-winning book gets high marks for wit and making a complex sociopolitical era accessible for present-day middle schoolers. *Ghost* by Jason Reynolds Castle Crenshaw, known as Ghost, has been running ever since his father threatened him and his mother with a gun. This book shows middle schoolers their value and worth. First and foremost, Ghost is a person who is scared and wants friends and to feel like he matters, just like many middle school students. Throughout the book, Junior struggles with his decision. This is a story that all kids can relate to regardless of the specific details. *Paperboy* by Vince Vawter Little Man is an amazing ball player, but he can barely say a word—not even his own name—without stuttering. This book changed the way I understood stuttering. The author is a stutterer and, because of that, we get the full experience of what it feels like to be unable to speak words as easily as others. But it is the entire quartet that helps us understand that the art we create during our lifetimes is what matters most to our society. All four are worthy of sharing with middle schoolers because they add so much context to why we learn many different subjects. This reading passion inspires people to want to read the book you adored. So, here are some books that you might want to use to bridge the gap between you and your students. *The Outsiders* by S. Hinton Ponyboy and his brothers, Darry and Sodapop have a tough life. They know they can count on their friends—true friends who will do anything for them. Unfortunately, the Socs, a vicious gang of rich kids, make them prove their loyalties after a night of fighting goes too far. She lives with her grandparents who tell her stories about where she comes from. *Tuck Everlasting* by Natalie Babbitt Is eternal life really that wonderful? The Tuck family wanders about trying to live as inconspicuously and comfortably as they can. When ten-year-old Winnie Foster stumbles on their secret, the Tucks take her home and explain why living forever at one age is not so great. Complications arise when Winnie is followed by a stranger who wants to market the spring water for a fortune. What do you think are the best middle school books?
