

Chapter 1 : Miller's Rustic Furniture – Rustic Log Furniture - Ohio

Welcome to Miller's Furniture, offering Amish and American-made furniture from convenient locations in Plain City and Lancaster! All of the furniture we sell is solid, hardwood furniture, custom-made by a select few Amish and Mennonite craftsmen we chose personally.

Turn right and go a little over one mile The Miller Brothers are continuing the family tradition of 40 years by providing the best possible Amish baked goods, Amish-made furniture and Amish bulk foods. This Amish family-owned business attracts folks from hundreds of miles away to their southwest Ohio location. The furniture store alone has 34, square feet under one roof and more outside, not to mention the separate building for the bakery and another for the bulk foods. Together, the Millers have acres of Amish country! As a client, we are their online liaison. They were farmers raising hogs, cattle, and sheep. On the weekends, Harry, Lydia and their six children baked. Then, Gerold Miller and his wife Becky took over baking and carted the goods to a tiny 10x16 building to sell the baked goods. The 10x16 building grew to 24x36, and then 32x The more they brought back the more that sold. Finally, a separate building was dedicated to this side business. They converted what used to be a barn near the store and used it for many years. They started selling bulk foods, spices, cheese, jellies, lunchmeat and more. Soon, they outgrew another building. It was about this time, Gerold started selling lawn furniture and the business continued to boom so Gerold brought in his siblings to help manage everything. Daniel and his wife Mary helped with the furniture store. Larry purchased the baking equipment from Gerold since he and his wife Esther had been the lead bakers for the past several years. In , Larry built the present day bakery building. The bulk foods store became the responsibility of Harry Jr and his wife Leah. Recently, the furniture store expanded, adding on another 12, square feet. Across the parking lot are the bakery and bulk food buildings. To show appreciation for the employees and customers that have been so kind to them over the decades, they plan to give back in the form of numerous sales planned throughout the year. Although Harry Miller has since passed, his legacy lives through this close-knit Amish family.
