Brazil is considered to have the worst levels of child sex trafficking after Thailand , with an estimated , children involved. Most of them are full of corruption and sexual exploitation. A project that aims to regulate the sex worker profession and rights. The Gabriela Leite law also emphasizes the urgency to regulate brothels and makes a clear distinction between: In pressure by the sex worker organization Davida contributed to the Brazilian Ministry of Labor adding "sex worker" to an official list of occupations. The bill was defeated in Those offenses carry sentences from two to five years in prison. They demanded that they should pay social benefits and get all the privileges like any other worker. However, this is not the purpose of the site at all. Rather, the Ministry of Labor site simply lists all of the characteristics of prostitution as work: The site in no way encourages or "advises" about prostitution. The press reported at the end of that a government official has announced that the site would be "toned down" following criticism by the media. They act in different environments: In the exercise of some of their activities they can be exposed to vehicles gases, to bad weather, to sound pollution and to social discrimination. There are still risks of getting STD infections, bad-treatment, street violence and death. Other complementary courses of professional formation, such as, beauty courses, personal care, budget planning, as well as vocational courses for alternative sources of income also are offered by the associations, in several states. Access to the career is open to those who are 18 or older; the average education is between fourth and seventh grade. Full performance of activities occurs after two years of experience. The slaves also had to be sexually available to their owners, and also to their overseers , friends, relatives , visitors, traveling tradesmen , merchants and others. From there it was only a small step to prostitution with enslaved negroes and mulattoes women and girls. Since slaves were considered as things and not as persons , [22] similar to animals , they were not protected by any laws and could be exploited almost without restriction. There were also no restrictions on the use of minor slave girls in the brothels. Many slaveowners also sent their slaves to the streets to make money by selling homemade sweets, small products or services, and as if it were the most natural thing of the world they also used the opportunity to decorate girls with a few colorful and gold ribbons. If the stipulated minimum amount was not achieved, the usual punishments on the slaves were carried out. After the end of official slavery between Africa and America, the slave girl were delivered by the large farms in Minas Gerais and the northeastern Brazil to the brothels and pimps. Pimps, often poor " gypsies " or small criminals, came to great prosperity and lived "in the greatest lascivious behavior among their host of young, submissive black sex slaves. First, the negroes and mulattoes, who had to be prostitutes by orders of their owner. Often, they had to deliver the entire income , some others were allowed to keep part of the money for incentive , and others had to bring a minimum each day, otherwise they were beaten or tortured. The second category were poor free women, often ex-slaves or their daughters, who inhabited miserable huts, and there or on the street they prostituted themselves and their daughters. The third category were foreign girls who had been lured or sold to Brazil under false promises. The fourth category was made up of French and other courtesans who lived in their own large houses and possessed carriages and exquisite jewelery and frequented theaters and other sociological events. The Lei do Ventre Livre "Law of the free belly" , according to which children of slaves were no longer slaves themselves, also decided that slaves were allowed to save money, which their master could not arbitrarily take away from them, and with which they could free themselves. As a result, it became more interesting for slave girls to become prostitute, because this way they had a chance to earn a tip for themselves. The inhibition to prostitute themselves was usually low for the female slaves, because they had learned since childhood that they had no sexual self-determination and were accustomed to be raped. However, the custody and administration of the savings of a slave was the responsibility of the owner, and he could try to manipulate the savings and list cost and penalties like tricky pimps do. There have been even processes of female slaves against their masters,

where the women often had to prove with the help of clients that they had been "industrious" and diligent and had numerous customers, much more as listed in the wrong accounting of the master. Prostitutes were sometimes charged with being vagabonds and with provoking disorder. In addition, there were more and more imported girls from Europe, especially from the poorer regions in the East, Jewish girls, Albanians, women and girls from the Habsburg Monarchy, and for the higher demands French and Italians. About women followed them in the next years. Most were victims of the Jewish pimp mafia Zwi Migdal. Their members traveled to the impoverished towns of Eastern Europe and established themselves as rich businessmen from Latin America looking for brides. In truth, they were trafficking. The women who believed their promises became sex slaves. He described in his diary the misery of these women, but he also noted that these Eastern European Jewesses promised exciting and unusual perversion. The prostitutes founded a second Jewish community in Rio, with their own cemetery and their own synagogue, because the prostitutes were rejected by the other Jews. There the women celebrated the Jewish festivals, although there was no liturgy for women at the time. The pimps were important sponsors of the Jewish theater. At the premieres, Polacas, luxuriously dressed, sat in the front rows and were presented to the potential clientele. The Second World War ended this trafficking of women. The Jewish prostitutes influenced the cultural life and the artist scene of Rio. They inspired musicians to many compositions. On average the women became only forty years old. There are three cemeteries of Jewish prostitutes in Brazil. The celebration was held not in a synagogue, but in the cultural center of the district Lapa, but there are still prejudices against these women. The most important fighter for the rights of the prostitutes was the prostitute Gabriela Leite, who was the leading the campaign for to recognize the sex workers as a profession, so that they got the access to the system of pension. She is the founder of Davida, an organization for the rights of sex workers. There are several organizations like the "Rede brasileira de prostitutas" Network of Brazilian prostitutes, [39] Piranhas para Jesus, the Brazilian issue of Hookers for Jesus with the writer and hooker Petala Parreira [40] and others. By its initiative prostitutes working in the streets can be paid cashless, too. The Aprosmig has also a little sex-museum. Besides the classical survival sex, women and teenager offer sex to get a mobile or other product, to pay their or their parents debts or they are looking for immaterial advantages. Women and girls are selling themselves from time to time at the streets or the beach or are forced to by their partners, for to get the sum for to pay some extra expenses. Oral sex is not regarded as a real sex among the teenagers, and therefore it is not considered as a form of prostitution. While official estimates are based on one million Brazilian prostitutes, much higher numbers are mentioned by free associations. Other opportunity considered no prostitution is working as a cam-girl in the internet. In the Rua Guaicurus in Belo Horizonte, Capital of the Federal State Minas Gerais, [46] there are hundreds of naked or half-naked girls in small rooms or in front of them, where they can be seen and contacted by the men passing through the floors. Therefore, the houses are always teeming with slippery men who often do not even want to buy sex, but searching only the free visual stimuli. A prostitute needs between four and fifteen customers to pay the room rent. The rooms are small, poorly ventilated, dark and mostly without bathroom. Gabriela Silva Leite, the executive director of Prostitution Civil Rights, says that because of information campaigns, condom use among sex workers is high. They are our partners. How could we ask prostitutes to take a position against themselves? From the s to the s, brochures of travel agencies showed almost always a large picture of the bumpy butts of Brazilian mulattoes in front of picturesque beach scenes. However, the government is increasingly frustrated with the fact that a number of foreign tourists travel to Brazil for sex tourism, [52] including child prostitution. Sex tourism exists throughout the country, but it is most apparent in coastal resort towns in the Northeast, South, and Southeast, and in major tourist destinations such as Rio de Janeiro and Fortaleza, Ceara, as well as in the wildlife tourist areas of the Pantanal and Amazon. Human trafficking in Brazil Brazil is a source, transit, and destination country for women and children subjected to sex trafficking. Brazilian women and children are exploited in sex trafficking within the country. Brazilian women are subjected to sex trafficking abroad, especially in Western Europe and China. Women and girls from other South American countries, especially Paraguay, are exploited in sex trafficking in Brazil. Brazilian men and transgender Brazilians have been exploited in sex trafficking in Spain and Italy. The government reported that trafficking routes existed in all states and the Federal District.

Persons exploited in trafficking schemes typically come from low-income families and usually have not finished high school.

The connection between Pan and Pushan was first identified in by the German scholar Hermann Collitz. Arcadia was a district of mountain people, culturally separated from other Greeks. Arcadian hunters used to scourge the statue of the god if they had been disappointed in the chase. These are often referred to as the Cave of Pan. The only exceptions are the Temple of Pan on the Neda River gorge in the southwestern Peloponnese "the ruins of which survive to this day" and the Temple of Pan at Apollonopolis Magna in ancient Egypt. Parentage[edit] The parentage of Pan is unclear; [14] generally he is the son of Hermes , although occasionally in some myths he is the son of Zeus , or Dionysus , with whom his mother is said to be a wood nymph , sometimes Dryope or, even in the 5th-century AD source Dionysiaca by Nonnus In some early sources such as Pindar , his father is Apollo via Penelope , the wife of Odysseus. Like other nature spirits, Pan appears to be older than the Olympians , if it is true that he gave Artemis her hunting dogs and taught the secret of prophecy to Apollo. According to some traditions, Aegipan was the son of Pan, rather than his father. Nymphs[edit] One of the famous myths of Pan involves the origin of his pan flute , fashioned from lengths of hollow reed. Syrinx was a lovely wood- nymph of Arcadia, daughter of Landon, the river-god. As she was returning from the hunt one day, Pan met her. He pursued from Mount Lycaeum until she came to her sisters who immediately changed her into a reed. When the air blew through the reeds, it produced a plaintive melody. The god, still infatuated, took some of the reeds, because he could not identify which reed she became, and cut seven pieces or according to some versions, nine , joined them side by side in gradually decreasing lengths, and formed the musical instrument bearing the name of his beloved Syrinx. Henceforth Pan was seldom seen without it. Echo was a nymph who was a great singer and dancer and scorned the love of any man. This angered Pan, a lecherous god, and he instructed his followers to kill her. Echo was torn to pieces and spread all over earth. The goddess of the earth, Gaia , received the pieces of Echo, whose voice remains repeating the last words of others. In some versions, Echo and Pan had two children: In other versions, Pan had fallen in love with Echo, but she scorned the love of any man but was enraptured by Narcissus. As Echo was cursed by Hera to only be able to repeat words that had been said by someone else, she could not speak for herself. She followed Narcissus to a pool, where he fell in love with his own reflection and changed into a narcissus flower. Echo wasted away, but her voice could still be heard in caves and other such similar places. Pan also loved a nymph named Pitys , who was turned into a pine tree to escape him. Pan is famous for his sexual powers, and is often depicted with a phallus. Diogenes of Sinope , speaking in jest, related a myth of Pan learning masturbation from his father, Hermes , and teaching the habit to shepherds. He accomplished this by wrapping himself in a sheepskin [27] to hide his hairy black goat form, and drew her down from the sky into the forest where he seduced her. Pan once had the audacity to compare his music with that of Apollo , and to challenge Apollo, the god of the lyre , to a trial of skill. Tmolus , the mountain-god, was chosen to umpire. Pan blew on his pipes and gave great satisfaction with his rustic melody to himself and to his faithful follower, Midas , who happened to be present. Then Apollo struck the strings of his lyre. Tmolus at once awarded the victory to Apollo, and all but Midas agreed with the judgment. Midas dissented and questioned the justice of the award. In another version of the myth, the first round of the contest was a tie, so the competitors were forced to hold a second round. In this round, Apollo demanded that they play their instruments upside-down. Apollo, playing the lyre, was unaffected. Epithets[edit] Aegocerus "goat-horned" was an epithet of Pan descriptive of his figure with the horns of a goat. Two other Pans were Agreus and Nomios. Most of the mythological stories about Pan are actually about Nomios, not the god Pan. Although, Agreus and Nomios could have been two different aspects of the prime Pan, reflecting his dual nature as both a wise prophet and a lustful beast. Aegipan , literally "goat-Pan," was a Pan who was fully goatlike, rather than

half-goat and half-man. When the Olympians fled from the monstrous giant Typhoeus and hid themselves in animal form, Aegipan assumed the form of a fish-tailed goat. As a reward the king of the gods placed him amongst the stars as the Constellation Capricorn. The mother of Aegipan, Aix the goat, was perhaps associated with the constellation Capra. The Sybarite Pan was conceived when a Sybarite shepherd boy named Krathis copulated with a pretty she-goat amongst his herds. According to the Greek historian Plutarch in *De defectu oraculorum*, "The Obsolescence of Oracles", [33] Pan is the only Greek god other than Asclepius who actually dies. A divine voice hailed him across the salt water, "Thamus, are you there? When you reach Palodes, [34] take care to proclaim that the great god Pan is dead. Christian apologists such as G. Chesterton have repeated and amplified the significance of the "death" of Pan, suggesting that with the "death" of Pan came the advent of theology. To this effect, Chesterton once said, "It is said truly in a sense that Pan died because Christ was born. It is almost as true in another sense that men knew that Christ was born because Pan was already dead. A void was made by the vanishing world of the whole mythology of mankind, which would have asphyxiated like a vacuum if it had not been filled with theology. Van Teslaar [39] that the sailors actually heard the excited shouts of the worshipers of Tammuz, Thamus Panmegas tethneke, "All-great Tammuz is dead! However, a naturalistic explanation might not be needed. For example, William Hansen [41] has shown that the story is quite similar to a class of widely known tales known as Fairies Send a Message.
