

## Chapter 1 : More Mad For Miley: An Unauthorized Biography by Lauren Alexander

*There is no "More" information than that in "Mad for Miley". That notwithstanding, this is a chirpy book, written in a lingo and tempo for kids, and enjoyable nonetheless. As an `unauthorized' biography, Alexander has combed magazines and online resources to put together every least little bit of information about Miley Cyrus.*

Her engagement to Liam Hemsworth had been called off, bringing a temporary end to their four-year relationship. And then, on October 4, , Bangerz, her fourth studio album, dropped and things really got weird. I want to keep people guessing. MTV named her its Artist of the Year. There were thinkpieces galore about her provocations, her alleged cultural appropriation and exploitation of black culture. It was the very portrait of a girl becoming a woman, exploring who she was, what she stood for, who she was attracted to, the whole nine yards; only it was happening for the whole world to see. After a year spent touring, the experimentation continued into By September, the fun had stopped. The album, a psychedelic collaboration with the Flaming Lips, left fans wondering what was going on; the tour, complete with her strap-on dildo, even more so. And so a retreat from this particular spotlight began. She moved to Malibu and adopted some pigs. She immersed herself in her philanthropy. She got back together with Liam. And, perhaps most importantly, she did some reflecting. It was a Miley who was no longer looking to provoke, a Miley who had changed once more. Girls should be able to have this freedom or whatever. And as tends to happen for trendsetting provocateur, the shtick had been co-opted by way too many copycats. Outside of professional obligations, she pulled out of the spotlight, taking several self-imposed "media blackouts" and making sure her personal life was no longer part of the story. After all, the engagement was back on. What else was there to report? And changing with someone else not changing like that is too hard," she said of the time apart in a Billboard interview. Here Are The Craziest Fan Theories RCA Records With the release of first single "Malibu," followed by "Younger Now," the title track off her sixth studio album, a softer Miley arrived, a more accessible one, one you might encounter on a hike up in Laurel Canyon, gathering wildflowers. Younger Now failed to return Miley to her Bangerz chart glory, debuting at No. Naturally, there would be no tour. And when it had? The focus was more on her activism than her artistry, which makes sense considering the biggest lesson she learned from the whole Bangerz era. It inspired me to use my platform for something much bigger," she told Wonderland earlier this year. That remains to be seen.

## Chapter 2 : The Last Song () - IMDb

*More Mad For Miley has 4 ratings and 0 reviews. This follow-up to Mad for Miley is packed with all the latest on pop sensation and actress Miley Cyrus! M.*
