

Chapter 1 : Services - by Moscow Guide and Driver

Moscow: The McConnell House - on the National Register and the Headquarters and Museum for the Latah County Historical Society Moscow: Looking over Moscow from the Southeast - Church steeples peeking thru the fall colors and the hills behind.

This tour helps tourists to see Moscow not as a bustling hive, but as a majestic Empress full of ceremonial glory. The tour lasts nearly for three hours, but at the end of the walk it seems to be gone only an hour. Moscow by Night is full of magic. It is fascinating and enigmatic. It is amazing how the city can change in the glow of night illumination. The incredible beauty of the city at night fascinates. A wonderful excursion begins with perhaps the most famous places in the whole Moscow - Red Square, located at the north-eastern wall of the Kremlin. Nowadays, parades and celebrations of important events in the life of the Russian Federation are held at this famous square. At night Red Square stuns with its magnificent illuminations. Solemn and austere in daylight, it looks elegant and festive in the glow of night lights. Its white silhouette stands out brightly against the night sky. It seems that the walls of the Cathedral lit from within by the divine light. It is really a stunning effect. Next place that deserves special attention are the Sparrow Hills. Looking at the capital full of illumination, lit by millions of lights, stretching out at the feet, you feel on top of the world. It seems that you are a magician, surveying your luxurious land. You will have the opportunity to see a spectacular view of the Luzhniki stadium - the largest one in Russia and one of the largest stadiums in the world. This stadium was built in years. It was here the Olympic Games took place and a lot of sport competitions and concerts of well-known artists and bands were conducted. At night the stadium is light up along the whole circular length at night. It seems that the stadium is a great shining pearl in the illumination of thousands of lights. Some buildings are ready; some are in the process of erection. Completion is planned for We all look forward to completion to enjoy the magnificent view of monumental modern buildings at night in the rays of illumination. Each skyscraper has a unique lighting. Panorama from Sparrow Hills is sure to impress guests: Magic night in Moscow fascinates. My guests are particularly impressed by the panorama of Novodevichy Convent. There are a lot of stories and legends of Moscow connected with the monastery. It played a prominent role in the cultural life of Russia. Night walk along the pond will fully appreciate the beauty of the Novodevichy convent at night. Rising above the dark surface of the water, it seems to be full of shining, light and peace. The lights of the five-headed Smolensky Cathedral and the monumental bell tower of the monastery illuminate the dark sky solemnly, cutting through the darkness and giving hope. Victory Park was opened in Moscow in and is coincided to 50 years of victory over the fascist invaders. The original nighttime illumination of Victory Monument will not leave any spectator indifferent. Excellent coverage of the Arch of Triumph on Kutuzov Avenue, built in honor of the victory over Napoleon in , will complement this impression. Moscow at night is a truly fascinating spectacle. City Lights beckon and create a holiday atmosphere. If you have seen Moscow at night - you looked into her very heart, saw her real - a beautiful, bright, exotic queen.
