

Chapter 1 : Naughty Bits by Joey W. Hill | calendrierdelascience.com

"Naughty Bits" the name of a unique woman's lingerie store and the new series of novella's by Joey W. Hill. the store was inherited by Madison from her sister. From investments in Boston the store owner in charlotte Madison is a submissive in her fantasies.

Hill is not only an RT Achievement Award recipient but also a widely recognized author of paranormal erotic romance. At the moment, Joey has over thirty titles under her name that makes her one of the most outstanding paranormal erotic romance authors. In all her works, her characters are either witches, mermaids, angels, or vampires. Nonetheless, nonparanormal characters such as cops, simple housemaids, and boardroom executives are also present. Despite the fact that most of her works are BDSM, Joey has still managed to build a reputation on paranormal romances and absorbing characters who not only lure fans of this genre but also readers who had never thought they were ever going to read BDSM romance. Some of the books that she has written include *Controlled response*, taken by the vampire, *Honor Bound* and standalone novels such as *Unrestrained*. Ever since she began writing, most of her works have received multiple reviewer picks from *Two ips*, *RT Book Reviews*, *Paranormal Romance Reviews* and many others. Hill is not only kinky and hot but also a portrayal of a more realistic relationship that most of these novels fail to portray. Additionally, the hero models good behavior with a sub-heroine and also pays considerable attention to her actions and body language something that usually lacks in a majority of erotic romance novels. All in all, this series is a contemporary romance series and sensual in every sense; Ms. Joey Hills version of erotic is never trite or base. It is usually a grasp of feelings and soul deep born experience of understanding. Additionally, one can also say it is a sense of being in the world as presented, which is usually in 3-D. The focus is usually on the characters, their resolutions and their journeys. The world presented is never a perfect world but an interesting one. In the *Lingerie shop*, the author introduces the reader to Madison, who is an unrealized submissive who has just inherited a Lingerie shop from her dead sister. Her day to day life becomes magnified with the drastic change to her professional life after she becomes the sole proprietor of the lingerie shop. Apart from her possible submissive tendencies, Madison finds herself in a face to face competition with her neighbor Logan. Logan knows Madison, through her sister Alice. Irrespective of the internal struggles, the reader never feels at any one point that the Hill character is weak. On the contrary, the inner struggles and strength of the heroines is not only interesting but also highly commendable and laudable. Logan begins to guide Madison gently through her journey of self-discovery. With that being said, the character has managed to make him dominant without consuming his character. The *Training Session* Training session begins where the first book left off. The way this story evolves is so intriguing. The great thing about this is that she is now able to identify the needs of customers. As a character, Logan not only radiates masculinity but also his side that makes him irresistible to Madison. In this book, Madison is still a little bit nervous about revealing her cravings, but Logan always has a way of putting her at ease and also at the same time encourage trust. From the word go, Madison and Logan had a connection and upon every meeting, the relationship seemed to get stronger and stronger. Apart from Madison and Logan, the author also introduces Troy. All in all, this installment is incredibly sexy and brings Madison and Logan closer physically and emotionally. It is very clear that Logan is v big on intimacy though he finds a way of building the intimacy at a slow pace. Conclusion As people, Logan and Madison are well portrayed by the author. However, Logan is a little bit too good to be true. He is an alpha male and not an alphole. He does not use it to push Madison away or anywhere she does not want to go. Logan is constantly balking as to whether she is scared or simply does not wish to go. As a character, Madison is a mess, and any person who has gone through a rough patch in their life can easily relate. She is capable of loving but too scared to love again and become vulnerable. She always feels that she has messed everything that she has touched, and the fact and idea that Logan would like to be with her is so strange. Learning how to let herself fall in love or be loved is not only scary but also a little bit terrifying for her. All in all, the naughty bit series is unquestionably an excellent read that will not only capture the attention of any BDSM reader or fanatic but will also leave them begging for more. From the first installment to the next, Madison is slowly
