

Chapter 1 : Blog Tour: New Money by Lorraine Zago Rosenthal (+ Q&A)

In Lorraine Zago Rosenthal's New Money, Savannah Morgan goes from a modest Souther upbringing to Manhattan high society in a New York minute. This delightful coming-of-age story will touch you, make you laugh, and keep you turning the pages long into the night."

You guys, I have the honor of hosting Lorraine Zago Rosenthal on my blog today! Savannah Morgan had high hopes. She dreamed of becoming a writer and escaping her South Carolina town, where snooty debutantes have always looked down on her. Savannah must navigate a thrilling but dangerous city while trying to figure out what kind of man her father truly was. *New Money* is a keenly observed, exciting peek into a world of privilege and glamour with a spirited and charming heroine at its center. Quoting Kristin Hannah, "This book is the perfect summer beach read. Hello, Southern girl moves to the big city after inheriting quite a fortune? A relatable protagonist, romance, and enough drama to make your head spin. She has depth, and I truly appreciate that. It may be an adult novel but the pacing reads like a YA book. The author genuinely knows how to write believable characters and also knows how to tug at the human heart. Where do you draw inspiration for your books? When that story crystallized, I just wanted to tell it and share it with readers. Ari was my inspiration all along. Limerence plays a crucial role in the story. Was it difficult transitioning from writing a YA novel to an Adult Contemporary novel? I believed that both YA and adult readers could relate to the story"and based on the feedback I have received from readers of many ages, this is true. So the biggest transition was writing in a different style"but I really enjoyed it. Where is your favorite place to write and read? I always write in my home office, and I like to read on my couch. I admire and have been influenced by so many authors. One of my all-time favorite authors is Emily Bronte. Are there any snacks or drinks you like to have around while writing? What are you currently working on? The next step will be finalizing it for publication in I think she did a great job of explaining why this novel will appeal to readers. Here is a portion of her quote about the book: Thanks to the awesome people at St. All you have to do is fill out the Rafflecopter form below. Chapter 2 : Addicted 2 Novels: New Money Blog Tour With Lorraine Zago Rosenthal (And A Giveaway!)

Lorraine Zago Rosenthal's sophomore offering, New Money, is a departure from her first book, Other Words for Love, but both novels have the same sense of heart and feature a main character fighting to stay true to herself.

The main character is years old and out of college, trying to figure out her future. I loved this focus. So many NA books are all about sex or a bad boy and this one is really about a young girl making her way. Have you read a lot of NA? What influenced you to go in this direction? First of allâ€”thank you so much! I always want to challenge myself and write different types of stories. Savannah is in that NA age rangeâ€”and there definitely is romance in the novelâ€”but this is only part of the story. Savannah also deals with the typical issues of being a twenty-something: While it does deal with heartbreak, the book was more about these three generations of women mom, sister, main character making their way. What was the biggest difference in the transition of writing YA to writing adult fiction? Thanks again for your kind words! I believed that both YA and adult readers could relate to the storyâ€”and based on the feedback I have received from readers of many ages, this is true. Although NEW MONEY also has complex characters and emotional resonance, it is a more of a commercial work that is fast-moving and generally lighthearted. So the biggest transition was writing in a different styleâ€”but I really enjoyed it. Savannah definitely has a fiery personality. I adored that about her. But wow, did she make a lot of silly decisions. Are you worried readers might have trouble connecting with Savannah because she is so flawed? Even if her moves are totally something we might do. When I create characters, I always give them positive and negative qualitiesâ€”because all people have good and not-so-good personality traits. This is how fictitious characters become realistic and relatable. She has to move from Charleston to Manhattanâ€”where she has never been beforeâ€”and is forced to interact with people who dislike her through no fault of her own, constantly look down on her, and do everything they can to get rid of her. These people and their values are foreign to Savannah, so she struggles to understand them and to navigate their world. She has to fight to survive. She is down-to-earth and kind at heart, and she is also quite compassionate and generous with her newfound wealth. Although readers perceive characters in their own unique way, I think that most will connect with Savannah. I think everyone can relate to that! I have visited Charleston, and I also researched its history, landmarks, culture, etc. I agree that many of the characters behave in a villainous way. These characters deliberately come on strong as soon as they meet Savannah, because they are hoping to scare her away. Her newly-discovered existence has disrupted their lives, they believe she has cheated them out of what is rightfully theirs, and they want her to disappear. They are truly arrogant and condescendingâ€”which comes from a lifetime of privilegeâ€”but they crank up their superior attitudes to intimidate Savannah. This is their human side, which they want to hide from Savannahâ€”but she eventually finds it. While creating these characters, I viewed them in the same way I see all of my charactersâ€”as complex people with positive and negative traits. Like Ned and Caroline, other characters who are antagonistic toward Savannah also have reasons for their hostility. Sometimes Savannah has to look closely to find these reasons, but they are there! Even Fabianâ€”the sleazy celebrity-gossip bloggerâ€”has a painful past that causes him to act the way he does. Like real people, these characters are the products of their experiences. Okay, I need the dirt. What can we expect in book 2 of this series? Is it only going to be 2 books? Focus on another character? Currently, the series is just two books. But I can tell you that the second book will be filled with twists and turns just like the first.
