*Anne of Green Gables By L. M. Montgomery Suggestions and Expectations This curriculum unit can be used in a variety of ways. Each chapter of the novel study.*

Montgomery finished *Anne* in 1907, and it took her six tries to find the novel a publisher. That sixth publisher, the Page Company of Boston, Mass. The original book was a runaway bestseller, selling 19,000 copies in the first five months and sprinting through 10 printings in its first year alone. The following year, it was translated into Swedish, the first of at least 20 different languages *Anne* would be published in. More than 50 million copies of the book have been sold worldwide, and it is probably still the most widely read Canadian novel in the world. Even now, the books retain the charm that first set young imaginations alight, as evidenced by how much people continue to celebrate them, more than years after their first printing. *Anne* has fans—and many of them are writers. *Anne* is big in Japan. Muraoka secretly translated the book into Japanese, renaming it *Akage No Anne Anne of the Red Hair*, but held on to it through the war. In 1945, when Japanese officials were looking for translations of enriching, inspirational Western literature to teach in schools, she brought out her translation and *Anne of Green Gables* became part of the Japanese curriculum. Japan fell in love with *Anne* overnight, finding her red hair exotic, her hardworking attitude and kind nature endearing, and her story of winning over the town—not to mention Marilla Cuthbert, the seemingly hard-hearted matron—inspirational. National obsession might not even begin to cover it: There is an *Anne Academy* in Fukuoka, which teaches Japanese students how to speak English with a Prince Edward Island accent; a nursing school called the *School of Green Gables* that tries to instill *Anne*-like qualities in its students; and several national fan clubs. People get married in *Anne*-themed weddings, thousands of Japanese tourists—many of them adult women with their hair dyed red and tied up in pigtails—visit Prince Edward Island each year, and surveys consistently find that the character is still one of the most beloved of young women across Japan. In 1980, the Canadian and Japanese post jointly sold a sheet of stamps featuring scenes from the Nippon Animation *Anne* cartoon; the stamps proved so popular in Japan that they sold 10 million of the 15 million run in the first month of their release. *Anne* was a hero of the Polish Resistance. *Anne of Green Gables* was translated, although not officially, into Polish in 1945. During World War II, the Polish resistance issued copies of *Anne of Green Gables* to its fighters as a reminder of what they were fighting for and to emphasize the values of family, loyalty, and selflessness—all of the things that plucky *Anne* seemed to embody. After the War and during the Communist occupation, the book was suppressed as subversive, largely due to its themes of resisting authority and the importance and value of the individual. Just as *Anne* herself became a kind of emblem of individualism and hope, so too did the author, whose works were celebrated well beyond the *Anne* canon. *Anne* is big business. While the sales of the books may have slowed somewhat with age, *Anne* is still big business to all those kindred spirits who love her so. *Anne* fans can buy *Anne* tea sets and *Anne* candies; *Anne* tea towels and potholders, cookbooks and aprons; *Anne* note cards and pencils; CDs featuring music from the several *Anne* musicals; and *Anne* light switches. There are *Anne* buttons and magnets, *Anne* bookmarks, *Anne* puzzles, *Anne* stained glass night lights; for the kids, an *Anne* straw hat to wear just like their favorite heroine, *Anne* porcelain dolls to be creeped out by, and *Anne* plush dolls to cuddle. Carry it all home in your new *Anne* tote bags, just because you can. Virtually anything that you could put *Anne* on, someone has. *Anne* is who LM wished she could be. In some senses, Montgomery was rewriting her own past in *Anne of Green Gables*. But she felt like one in the spiritual, emotional sense: When she died in 1942, her family gave it out that it was heart failure that killed her. In 1985, however, her granddaughter disclosed that the year-old writer had deliberately overdosed on drugs, leaving behind a note asking for forgiveness. Montgomery dreaded the *Anne* sequels. The success of *Anne of Green Gables* was, as they say, a blessing and a curse for Montgomery. The idea makes me sick. *Anne Shirley* played *Anne Shirley*. *Anne* has been reinvented dozens of times over. Funnily enough, her name had already been changed once before, by her stage parents: More *Annes* on screen. *Anne of Green Gables* has been adapted for the screen—both small and large—many other times since 1919, including the Nippon Animation anime version of *Anne of Green Gables*, hugely popular in its

own right. The Musical "Anne" was first staged in 1966, as part of the very first Charlottetown Festival, and has been every year since. Now in its 51st season, the producers claim that the musical is the longest running annual musical in the world; at least 2. Anne with an e "but without the red hair? Straw-hatted child or Gibson girl young woman. In 2015, a self-publishing firm, taking advantage of the fact that the books are in the public domain, put out a boxed set of the first three Anne books. Fans are, understandably, not pleased.

She drew upon her own childhood experiences in rural Prince Edward Island , Canada. She said she wrote the novel in the twilight of the day, while sitting at her window and overlooking the fields of Cavendish. Marilla and Matthew had originally decided to adopt a boy from the orphanage to help Matthew run their farm at Green Gables , which is set in the fictional town of Avonlea. Through a misunderstanding, the orphanage sends Anne instead. Anne is highly imaginative, eager to please and, at times, quite a dramatic individual. However, she is defensive about her appearance, despising her red hair and pale, thin frame. She is often quite talkative, especially when it comes to describing her fantasies and dreams. As a child of imagination, Anne takes much joy in life and adapts quickly, thriving in the close-knit farming village. Her imagination and talkativeness soon brighten up Green Gables. For that, he earns her instant hatred, although he apologizes many times. As time passes, Anne realizes she no longer hates Gilbert but cannot bring herself to speak to him. Episodes include her play-time with her friends Diana, a calm girl named Jane Andrews and a good-natured but often hysterical girl called Ruby Gillis, and her run-ins with the unpleasant Pye sisters Gertie and Josie; and domestic mishaps such as dyeing her hair green while intending to dye it black, and accidentally getting Diana drunk by giving her what she thought was raspberry cordial but turned out to be currant wine. She obtains her license in one year instead of the usual two and wins the Avery Scholarship for the top student in English. This scholarship would allow her to pursue a Bachelor of Arts B. Out of devotion to Marilla and Green Gables, Anne gives up the scholarship to stay at home and help Marilla, whose eyesight is failing. She plans to teach at the Carmody school, the nearest school available, and return to Green Gables on weekends. An imaginative, talkative, red-headed orphan who comes to live with Matthew Cuthbert and Marilla Cuthbert. Anne is very sensitive and dislikes the colour of her hair. She exhibits categorical interest in everything romantic. Although conservative and austere, she is fond of Anne and has the glimmerings of a sense of humor. Matthew takes a liking to Anne from the start and the two become fast friends. As Marilla has primary responsibility for rearing the girl, he has no qualms about "spoiling" her and indulging her in pretty clothes and other frivolities. Anne and Diana become best friends from the moment they meet. Anne admires Diana for being pretty and for her amiable disposition. A handsome, smart, witty and chivalrous classmate who has a crush on Anne the moment he sees her. He makes several attempts to apologize, the failure of all of which do not seem to mar his admiration. He attempts to apologize one last time when he saves Anne from drowning; Anne crassly rebuffs this attempt, only to regret it almost immediately. Years later, he gives up his job offer of teaching at the Avonlea school so that Anne may live at Green Gables, upon which the two reconcile and become good friends and eventually marry. Having several "grown up" sisters, Ruby loves to share her knowledge of beaux with her friends. Ruby is portrayed as traditionally beautiful with long golden hair. She is hysterical and suffers from consumption tuberculosis. A neighbour of Matthew and Marilla, Mrs. Lynde is an amalgamation of vices and virtues. Lynde is industrious and helpful, and does work for the church, yet she is famous for being nosy and condescending. Although she and Anne start off on the wrong foot, owing to Mrs. Lynde is married and has raised ten children, although her husband, Thomas Lynde, is mentioned briefly and never speaks. Phillips is unpopular with students, because of his boring and crude ways. He is described as lacking discipline, and "courts" one of his pupils openly. She forms a special relationship with Anne, who views her as a mentor. The minister and his wife also befriend Anne, with Mrs. Allan becoming particularly close. She is described as pretty. Barry has a severe personality, expecting her children to follow strict rules. After Anne accidentally gets Diana drunk, Mrs. Barry rejects the girl, forbidding Diana to have anything to do with Anne. This sanction is repealed after Anne saves Minnie May. Others[ edit ] Miss Josephine Barry: She refers to Anne as "the Anne-girl" and even sends Anne beaded slippers as a Christmas

present. Anne had lived with her for a portion of her pre-Green-Gables life. Anne was treated more as a maid in her home than as a daughter or friend. Related works[ edit ] Based on the popularity of her first book, Montgomery wrote a series of sequels to continue the story of her heroine Anne Shirley.

Anne of Green Gables features Anne Shirley, an orphan who shows up at a small railway station in Prince Edward Island, was meant to be a boy. But the adoption agency sent a twelve-year-old girl instead. And, while Matthew and Marilla are kind-hearted people, the whole point in the adoption was to get a helper for Matthew who is getting too old to handle the farm at their home of Green Gables. And so they mean to send her back. The book is all about Anne and her many adventures, with each chapter almost telling a separate story of Anne and her new family and friends. Many young girls find themselves looking up to her as a hero for her courage and spirit. And even boys will enjoy the hilarity of some of the scrapes Anne finds herself in. Throughout the unit study I have students keep a notebook where they can put any notes they take as well as anything I print out from online. I like to have them note the main events in each chapter as well as a list of main characters as they are introduced in the story. Anne has led a very difficult life. Anne has long looked for a kindred spirit, and she is sure that Diana Barry will be that even before she meets her. Do you have a kindred spirit? What do you think Anne means when she says that? Talk about reasons why Matthew and Marilla wanted to send Anne back and reasons why they wanted to keep her. *Anne of Green Gables Movie Unit Homeschool Printables for FREE uses affiliate links. Anne of Green Gables is a classic novel and movie that is a favorite of many.*

The story begins with a middle-aged brother and sister in search of a young orphanage boy to help around their farm, Green Gables. As the result of a misunderstanding, they get a ferociously talkative, red-haired, plain little girl. Matthew, however, takes an immediate liking to her, and Marilla is also sufficiently sorry for her not to send her back. To Anne, the farmhouse, with its little east gable room as her bedroom, is like paradise. Her imagination, already highly trained to overcome the harsh, unadorned realities of her previous existence, is kept busy as she absorbs new sights and situations. Her upbringing proceeds along two domestic channelsâ€”school and home. Marilla, a spinster, has severe and old-fashioned notions of rearing a child as austere as possible, with little encouragement or praise. All requests for nice clothes or bedroom decoration are turned down. Fortunately, Marilla, under her crusty exterior, is good-hearted, willing to admit to her own mistakes. Both brother and sister encourage Anne academically and make no attempt to tie her to the farm. At school, Anne is shown to be an apt pupil, soon making up for an indifferent start to her education. Her greatest rival at school is Gilbert Blytheâ€”who, unfortunately, offends her early on by teasing her about her red hair, about which she is desperately sensitive. In a typically dramatic gesture, Anne declares undying enmity with Gilbert, and despite all of his best efforts, and even a melodramatic rescue from a sinking boat, she maintains that stance until almost the end of the book. If her enmity runs deep, though, so does her friendship. On the next farm lives a large, prosperous family, the Barrys. Anne is a popular girl at school; her imagination makes life interesting. Phillips, is inexperienced and at times treats Anne quite unfairly. Allan, Anne sees a paradigm of moral excellence, of unselfish sympathy, that counters the rigid legalism of much of church life as Anne experiences it. Gradually, Anne emerges into a more rounded adolescent; her need for a compensatory fantasy world drops away, and she is able to find the inner discipline and resources to make the most of her abilities. The book closes with two contrasting events. She can break free of the usual village school-college-village school cycle to which most of her academically gifted but poor contemporaries are consigned. At the same time, however, Matthew dies from overwork and the shock of losing his life savings in a bank failure. Anne sees it as her clear duty to support Marilla by taking over from Miss Stacy at the Avonlea school. Anne accepts this cheerfully, as she has accepted so many other vicissitudes. Her compensations are the continuing friendship of Diana and the new one of a now-acceptable Gilbert.
