

Chapter 1 : Books Archive - Jennifer L. Armentrout

*Obsidian A USA TODAY AND NEW YORK TIMES BESTSELLING SERIES STARTING OVER SUCKS. When we moved to West Virginia right before my senior year, I'd pretty much resigned myself to thick accents, dodgy internet access, and a whole lot of boring. until I spotted my hot neighbor, with his looming height and eerie green eyes.*

She has been an author since to date. Living in West Virginia with her husband, his partner in K-9 known as Diesel and Jack Russell who is her hyper. Most of her time is spent, reading, exercise, watching movies especially the zombie movies. Some false rumors about her state are moving around. She is used to hanging out with her husband and her Jack Russell Loki. At this level is where her writing career started to shape. In her writing career; she has wrote the young adult contemporary and also in the pen name J. Amongst other novels she has written are the adult paranormal and the science fiction. The covenant series The covenant series is a fiction story with supernaturalism. The story revolves around two different classes of people considered to have supernatural powers and others were Hematoi who were as a result of union between pure-bloods- have godlike powers and the mortals. Half-bloods used to leave under fear since they had only two options. The first one was either to volunteer and train to hunt the daimons or become slaves in pures home. The series revolves around a character known as Alex. For three years she lived with mortals pretending to be like them. Later on she realizes that she could not take the duties of demi gods since they freaked her. Being a child of a mortal and a demigod; she could not fulfill the duties trained to her in covenant. To her mother that was good though in later development; fate rears her ugly head since she was a descendant. She tries to find her way back to covenant though she is being hunted by daimons and her mother is worried about her. Half blood Half-blood is a hotchpotch of currently popular characters. They range from supernatural romance, demigods, superpowers, sucking vampires and Daimon hunters. This book is just perfect since it would not be of value if supernatural romance would go without forbidden love between demigod and an offspring of a demigod and a mortal. The Hematoi run down from the combination of gods and mortals. The children of two Hematois referred to as pure bloods; develops godlike powers. Being a student in covenant is inbound to following several rules. One of them is that it is forbidden to get into a relationship with pures. Alex is in profound trouble after falling hard on a totally pure "blood known as Aiden. As it turns out; even falling for Aiden was not the biggest problem; the problem was to live long enough to graduate and become a sentinel. She was mercilessly punished by getting extra martial arts from Aiden who is a kind Hearted pure blood. If under any circumstance she was going to fail her duties; this would mean facing something bad than death or becoming a slave. It would mean conversion to a daimon. Everything is made harder by the presence of Seth who is her other half and keeps showing up everywhere she goes. Even her training room and bed room. However her connection to Seth has some benefits such as staving off her nightmares of the tragic showdown. Her supernatural connection with Seth has nothing to do with forbidden pure-blooded Aiden. Deity covenant Alexandria was not sure if she would make it to her eighteenth birthday. She realized that a long forgotten fanatical was out to kill her. As her birthday draws near; she is caught up between love and fate. One was willing to do anything to protect her though he knew that if the gods were to reveal themselves unleashing their wrath would change lives dramatically. Elixir covenant This book presents the team Aiden through. Aiden had to make the choice of putting Alex on the Elixir to temporarily break the connection between her and Seth. Armentrout had been carved into the cement polarizing some of her newly discovered abilities. At this point she posed no danger to no one even herself. Her blood boiled to the memory of what happened when she awakened. It was obvious that she would start by locating Seth who would lead her to Alex. This was the reason why Alex needed to be moved so first she did not agree with how Apollo did it. Sentinel Covenant At last the mortal world went to chaos of godly kind. Alexandria had to overcome a stunning defeat that had left her shaken and doubted if they had any power to stop the war. She accompanied her happily ever Aiden st Delphi to trust a deadly foe and travel deep in to underworld to release the most dangerous gods of all time. Alex had to face one terrible choice of destroying everything and everyone she held dearly or herself would end Jennifer L. In addition her covenant series has succeeded consideration by Herrick entertainment for

television adaptation. Jack Reacher is back! Family secrets come back to haunt Reacher when he decides to visit the town his father was born in. ### Chapter 2 : Obsidian by Jennifer L. Armentrout -

I loved reading it so much! Armentrout has created her own world and wonderful, unique characters. There are no vampires in the book, and there is really refreshing! The author has done a very good job with this book. There are a lot of twists and action scenes, but the highlight of the story is the relationship between the two main characters. They both have strong personalities and their conversations are so entertaining. She runs a book blog and naturally I felt close to her. She could eventually be my best friend! What can I say about Daemon? He was insulting so often that I wanted hate him and beat him most of time. But as the story progressed, he improves his behavior. I knew a good guy was hiding under his hurtful attitude! She is the total opposite of her brother, she is very sweet and friendly. I really liked her friendship with Katy. In short, I loved everything about this novel. The plot, the characters, and the writing style, they are all perfect! So I only have one piece of advice: In the land of the dead, apparently. I just never got around to reading her before. I got a good response of yes! So, I read it. I must now acquire all things Armentrout for my personal reading library! She is amazing with a capital zing! I loved them both!!! He was a bit, um, overbearing? But, as I read through the story and realized the connection they would have, I could look back and understand their attitudes. Armentrout incorporated them perfectly together for the story! Daemon was tall, dark, sexy. Katie was the book blogger yea! She totally rocked, though I will forever out do her in my love of books! And the paranormal aspect to the story was beyond incredible! Definitely not your sappy werewolf vamp novels. The plotline that Ms. Armentrout chose was interesting and hooked me instantly. I was turning the pages long into the night I want more and I want more now! I thought that to myself and immediately went to the library site and checked out Onyx! Definitely recommending this to everyone. If I could give it more than 5 stars I most definitely would. I found it to be a refreshing change to the oh-so-popular vampires, werewolves etc etc. With more than enough sarcasm and snarky remarks coming from the main two, there were a lot of loving, gentle moments too. I loved awaiting what was going to happen next between the involved characters. I am odering them for my very own as well. The characters were 3D and very realistic. Now I know why almost everyone liked this book. But in a way is very similar with other YA books: Ignoring that details, I really liked the writing. It was what got me from the beginning. It was easy to read, and it turned interesting very fast. There were some hot scenes, but for me it just made the relationship more realistic. Then I loved her because of her personality, she was witty, sarcastic, and funny. She was an awesome main character. But overall I really did love him. The novel was fast paced, with a lot of funny moments and witty dialogue. So I definitely recommend guys!!! Close X Follow us.

Things were looking up. And then he opened his mouth. We do not get along. But when a stranger attacks me and Daemon literally freezes time with a wave of his hand, well, something The hot alien living next door marks me. Oh my God, I freaking loved this book. It was like the most epic, amazing book ever. I could seriously gush over Daemon all day long. Thank you Darian for pushing me to read this book. Daemon was freaking hot. I mean from the moment he first appeared on the page I wanted to wrap him up and bring him home with me. I seriously consider driving to WV to search for Daemon. Screw Katy, she can find herself another hot Daemon. He is a total douchebag though, but I love him anyway. Her mother thought they needed a change of scenery. Katy is one of us. I do this all the time! I love the feeling of getting a book in the mail. Dee is excited to meet Katy and become friends with her, but Daemon on the other hand is not excited to meet Katy. He just sort of blows her off a little. I tend to hate it when the guys are jerks right off the bat, but there was just something about Daemon that made me like him. He just had this presence about him. I loved Dee, I want a friend like Dee. West Virginia, what can I say about West Virginia. I like places that are warm and have beaches. This is my forte not So to wrap up this nice little blog post I am going to say: It is freaking amazing and you need to read it. It should be next on your to-read-list.
