

Chapter 1 : Edge of Sanity () - IMDb

"On The Edge of Insanity" is a courageous account of the author's struggles with obsessive thoughts, bipolar disorder, anxiety and depressive episodes. Candidly sharing what many people won't discuss, Watson allows her readers a realistic view of living with mental illness.

Or maybe I doâ€¦maybe I am insane? But these days I am not sureâ€¦ I am sitting in my office, crying hysterically. I had used it the day before and put it in my pocket afterwards. I have a little melt-down. OK, no, I lie, I have a massive melt-down. One of my colleagues takes the purse and looks properly, finding the errant licence in another spot in my purse. I am now ugly-crying; Heaving shoulders, snot everywhere and my face puce. A bit of an over reaction you may think. And you would be correct. Anyone who knows me will tell you I am not very good in high-stress situations, but this is a little extreme. The problem is, I have been over-reacting like this for what seems like forever now, but is probably only the last eight months or so. The nine months before that were not exactly a picnic either. There has been a LOT of shit happening in my little life the past 18 months or so. I went through one rather acrimonious divorce, moved twice, had my house burgled, my phone stolen and my brother-in-law died. I have only recently started paying my year bond and have no spare money lying around anywhere. My income will soon be further diminished as my ex-husband only agreed to keep me on his medical aid for a year. Yes, so that was a little bit of a precursor to that latest melt-down there in the office. I have mental health issues. This has been well established. I suffer from anxiety and depression. No-one has ever been able to decide or figure out whether the depression is the cause or the effect of the anxiety. I have tried many drugs and about just as many different mental health practitioners. I have a deep-seated distrust and even deeper dislike of the medical profession. I always have had and in my life have only met one or two doctors that have shown me that they are actually doing the work because they want to help people and not just for the money. In fact, there is more guessing going on than anything else. No-one can honestly tell you they know what they are doing and what is going to work! So why on earth they get paid such ridiculous amounts of money is something I simply do not understand. But back to medical aid. I was introduced to a psychiatrist actually, by one of the two doctors I do like and trust at the beginning of my divorce. The previous one I had to fire. I have so many pills in my kitchen cupboard, I could open a pharmacy! Strangers, even less so. So I have kicked against being hospitalised and drugged to vegetative state with all of my being. But there you have it. So two days before above-mentioned meltdown, I had an appointment with my drug pusher. She suggested yet more drugs. Even a normal person would struggle! I need to sit on the beach and watch the waves. I need to sit in a field and watch my horse and have the breeze play with my hair. I need to weed my gardenâ€¦no, really, I do need to do that. Not time sharing a bedroom with some stranger and building mozaic arts and crafts and talking to a psychologist who in the past year has managed to help me exactly FUCKALL. More drugs were prescribed in spite of my protestation. The real problem was that a day later they called to inform me that the medical aid will not cover my appointment. Who in fact threatened to force me into hospital if I did not go by free will. She did not even bother to reply to me. She had her secretary phone me to tell me I could come by and pick up the script for my old drugs which I was taking when I first started going to see her. And you still wonder why I hate doctors?

V As soon as Lockwood collapses, Lucy freezes. I snap out of it and yank Lockwood towards me by one leg. Now Lucy starts thrashing, breath coming in gasps. A trickle of blood comes out of her nose. I push it aside. Enca is still coming, hair lashing at the barrier of the chains, sparking and fizzing. Except her hair, whirling around her head and fanning out like flames. And then, as I grab Lucy under an arm, she starts rising. Hair still scything through the air. I slowly back away, and then run past her. Half a sob comes from Lucy, and her nose starts to bleed more heavily. We make out of the house. She groans and covers her eyes. And not dropping me when I started flailing and whacking you or when I bled all over your shoes, George! She starts walking down the steps. I reach to catch her if she falls. She recovers and shakes her head, pushing away my hand. She takes a careful breath and continues. But what if something goes wrong? I try not to imagine that possibility. I focus more on getting a cab. By waving money around. One pulls up and we get in, Lucy in front with Lockwood. Five minutes later, we arrive at the hospital. Lucy pays the driver, and we head outside. V I felt the spectral hand suddenly retract from my back. Where had that come from? I manage to open my eyes a crack. I see blues, rushing through my field of vision. They make my head hurt. I close my eyes again, only to hear a sharp beep beep beep. Something taps my forehead. I force my eyes all the way open. Her eyes sparkle in the light. I can see the little metallic flecks in them. Her hair is tickling my nose. I thought you were going to die. I thought I had lost you. Everything is going to be alright. I almost got all of us killed when I blacked out and broke the chain circle. Or I land on the ghost? We will not die. You gave me an idea.

However, the unnecessary rivalry between her mom and her best friend's mom is pushing things rather uncomfortably to the edge. As a matter of fact, Chiamaka's mom, bad mouthing her best friend.

Thank you for your support! Books Is Davis a Traitor? Albert Taylor Bledsoe, author, Brion McClanahan and Mike Church, editors Published a year after the war, it provides the best argument every assembled in one book for the constitutional right of secession. Everyone interested in the overall design of the Constitution ratified by the several States in should read this book. Essays in Southern History and Culture Clyde Wilson A Collection of insightful essays on how Southerners think of themselves in the light of how they are perceived by outside cultural elites. The Enduring Relevance of Robert E. The Founding Fathers Guide to the Constitution Brion McClanahan An article by article and clause by clause analysis of the Constitution ratified by the founding generation of and , a Constitution quite different from what the political class in Washington understands. The Morality of Everyday Life: Rediscovering An Ancient Alternative to the Liberal Tradition Thomas Fleming Fleming editor of Chronicles, A Magazine of American Culture explains how the morality embedded in the ideology of liberalism leads to the decadence of morality in contemporary American society. In Search of the City on a Hill: The Making and Unmaking of an American Myth Richard Gamble A history of the "city on a hill" metaphor from its Puritan beginnings to its role in American "civil religion" today. How to Resist Federal Tyranny in the 21st Century Thomas Woods A readable, comprehensive treatment of the constitutionality of State interposition and nullification. Should be in the hands of every State legislator. A Constitutional History, James Madison and the Constitutionality of Nullification, W. And he explains how and why republicanism has been suppressed. Rethinking the American Union for the 21st Century Donald Livingston Essays raising the question of whether the United States has become simply too large for self-government and should be divided into a number of Unions of States as Jefferson thought it should. The book is signed by Livingston who wrote the "Introduction" and contributed an essay. Classically educated, deeply religious, and preparing for a career in medicine when his country was invaded, he reluctantly became a fierce warrior. He was wounded several times fighting from the very beginning to the end, in 71 battles. Smith Smith shows how Evangelical revivalism in the colonial South Carolina low country had origins in Roman Catholic mysticism, Huguenot Calvinists and German pietism. This disposition, usually identified only with Evangelicals, touched even high Anglicans and Catholics making possible a bond of low country patriotism in the Revolutionary era. The fiddler is a figure of the traditionalist southern-agrarian artist. DVDs Bourbon and Kentucky: Magnificent portraits and landscapes adorn the production. The hand-stitched silk flag with gold painted stars was borne by the Fifth Company of the Washington Artillery of New Orleans through the Battles of Shiloh and Perryville. The flag was designed and made for the army after the first battle of Manassas as a military necessity and wholly without the authority or even the knowledge of the Confederate government. Beauregard and Joseph E. An American President The first and definitive documentary film on the entire life of patriot and president, Jefferson Davis.
