If the wall outlet does not accommodate a 3-prong plug, have a qualified electrician replace your outlet and check the associated wiring. Handling the power supply cord Insert the power plug fully into the socket outlet. If the power plug is loose, it could generate heat and cause fire. Ensure that the power plug is easily accessible. Ensure the earth pin on the power plug is securely connected to prevent electrical shock. Do not touch the power plug with a wet hand. This may cause electrical shock. Do not use any power cord other than that provided with this TV. This may cause fire or electrical shock. Do not damage the power cord. A damaged cord may cause fire or electrical shock. Hold onto the power plug body when disconnecting cord. If a problem occurs such as no picture or no sound , or if smoke or an abnormal odor is detected from the Plasma TV, unplug the power supply cord immediately. Continued use of the TV under these conditions might cause a fire or permanent damage to the TV. Servicing of the TV by unauthorized personnel is strongly discouraged due to its high voltage. If water or an object gets inside the Plasma TV, if the Plasma TV is dropped, or if the enclosure becomes damaged, unplug the power supply cord immediately. A may occur, which could cause a fire. Contact an Authorized Service Center for an evaluation. When using the pedestal, keep the space between the bottom of the TV and the pedestal or stand surface clear from objects that may obstruct ventilation. Moving the TV with its cables attached might damage the cables which, in turn, can cause fire or electric shock To prevent an electric shock, disconnect the power plug from the wall outlet as a safety precaution before carrying out any cleaning. Transport only in upright position Transporting the unit with its display panel facing upward or downward may cause damage to the internal circuitry. Using a dry cloth, clean any dust from the power supply cord and plug regularly. Build-up of dust on the power cord plug can increase humidity, which might damage the insulation and cause a fire. This Plasma TV radiates infrared rays; therefore, it may affect other infrared communication equipment. Install your infrared sensor in a place away from direct or reflected light from your Plasma TV. The TV will still consume some power as long as the power supply cord is connected to the wall outlet. Display panel is made of glass. Do not apply strong force or impact to the display panel. This may cause damage resulting in injury. The TV is heavy. TV should be handled by 2 or more people. Support as shown to avoid injury by the TV tipping or falling. Flat panel displays that are inappropriately situated on dressers, bookcases, shelves, desks, speakers, chests or carts may fall over and may cause personal injury or even death. The consumer electronics industry of which Panasonic is a member is committed to making home entertainment enjoyable and safe. To prevent personal injury or death, be sure to follow the following safety guidelines: Care should be taken to install the display where it cannot be pushed, pulled over, or knocked down. Some wall mounts are not designed to be mounted to walls with steel studs or old cinder block construction. If you are unsure, contact a professional installer. Flat panel displays can be heavy. Panasonic recommends that a qualified installer perform the wall-mount installation. The American Academy of Pediatrics discourages television viewing for children younger than two years of age. This product incorporates the following software: Please refer to the copyright notice of those individuals at [http:](http://) Contact Information [cdrequest@am-linux](mailto:cdrequest@am-linux). These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: To assure continued compliance, follow the attached installation instructions and use only shielded interface cables when connecting to peripheral devices. Any changes or modifications not expressly approved by Panasonic Corp.
