

Chapter 1 : Piaggio MP3 â€¹ Vespa Portland

Page 1. SERVICE STATION MANUAL 1Q EN MP3 i.e. SPORT Business_LT_ ABS- ASR_EU_USA () Page 2. Not all versions/models shown in this publication are available in all countries.

In its patented suspension and ultra modern engine Piaggio MP3 embodies all the experience and research that make it the most advanced scooter ever. The articulated quadrilateral front suspension, with two independent and tilting front wheels, is the heart of the Piaggio MP3: The ASR guarantees safety by preventing the slippage of the rear wheel on slippery or wet roads and uneven surfaces, for excellent rear tyre grip and roadholding in all conditions. The ABS system maximizes active safety preventing wheel blockage under braking and providing full control of the vehicle at all times. The Style Centre of the Piaggio Group has completely redesigned the distinctive features, modernizing them and making them even more individualistic. The front shield recalls the original model but has a totally new form. The rear zone of the Piaggio Mp3 is very different from the earlier model, with a new body. The tail is more streamlined and dynamic, elegantly truncated, highlighting the sports character of the Piaggio Mp3, reflected in its exceptional roadholding and tilt while turning. Piaggio MP3 is the answer because it was conceived and designed with a specific goal: And to provide maximum fun, just like a motorbike. But with an extra wheel. Those of a traditional scooter. Piaggio MP3 is compact despite the two front wheels so it get you through traffic as quickly as you need it to. Without the risk of being trapped between cars. Distant memories, from before Piaggio MP3 became a reality. Quick and agile, the most advanced three-wheeler ever takes never before possible lines, shooting out lightly and quickly. Beyond obstacles, stress and traffic. On wet roads and in turns, on pavement or any other road surface, Piaggio MP3 makes the difference thanks to its articulated quadrilateral front suspension and its intrinsic stability. Because Piaggio MP3 knows how to take care of those who choose it. The large shield, ample leg room and the ergonomic shape of the saddle for rider and passenger: Piaggio MP3 is designed to provide an exciting riding experience in maximum comfort. And its extraordinary cargo carrying capacity also makes the difference. Need to stow two helmets? They will conveniently fit in the helmet compartment. And your gym bag? That will fit too, along with a spare jacket. By the personality, gestures and messages. And just like a true leader, Piaggio MP3 also conquers thanks to its strong character, exclusive riding dynamic and the safety and technology values that it represents. Piaggio MP3 is always at the centre of attention thanks to its familiar shape, painstakingly detailed finishings, unique technology and wealth of equipment. Revolutionary by vocation, Piaggio MP3 is a protagonist. On every day roads. In the city the three wheels are a guarantee of stability on any surface, from bumpy asphalt to pavement. On mountain roads, on the other hand, Piaggio MP3 is the ideal travelling companion, completely devoted to fun: In fact, it allows you to take on turns and hairpins at a pace that other scooters can only dream of, enjoying the scenic view!
