Biography[edit] Morrow, of Irish descent, was born in but is not a native of Charming, California. He is one of the original "First 9" members of the Sons of Anarchy Motorcycle Club , formed in , but was not a founding member. Of the first nine, he was the youngest and one of only three who were not war veterans. He did later go on to serve in the military, however, joining the US Army as an Airborne qualified Infantryman in and was deployed to Vietnam until commemorated by a tattoo on his left arm and the paratrooper pin on his vest. When he returned from service, he remained a member of the club and opened the Teller-Morrow Automotive Repair shop with John Teller , the club President and his best friend. He suffers from osteoarthritis degenerative arthritis in his hands, which is slowly worsening as the series progresses. Season One[edit] Season One begins with the Sons of Anarchy finding their weapon storage warehouse being burned down. The SOA rush to the scene, where local police officers are already investigating. Clay talks to Sheriff Vic Trammel about the blaze, who claims that propane tanks inside the building blew up, and that he suspects arson due to the bootprints inside. Trammel then shows Clay the burned corpses of the people hidden beneath the building, who were illegal immigrants. He is due to sell guns to the gang, but as they were destroyed, he must explain what happened at the warehouse. Laroy needs the guns to protect their heroin trade from another motorcycle club, the Mayans , and eventually lets Clay have some more time to get more guns together for him. The Sons of Anarchy then work out that it was the Mayans who stole the guns and destroyed the storage warehouse, and decide to get some payback. When they arrive at the industrial storage warehouse and find the guns, three Mayans turn up in a car outside. Clay and Tig then shoot and kill the Mayans. Jax is shot by another man, who has a number of Nazi and White supremacist tattoos. He was a member of the Nordics , a local skinhead gang who are allied with the Mayans, and it later emerges that his name is Whistler. Jax turns around and shoots Whistler twice, killing him. They escape with the weapons and destroy the building using explosives. However, he is dying from cancer and will retire at the end of the month, handing power over to his Deputy, David Hale , who is overtly suspicious of the SOA and will almost definitely begin an investigation into the club. As a goodwill gesture, they give the contents of the truck to the local Italian American Mafia , as their gun delivery is late. Meanwhile, Tig comes forth and tells Clay that he has been having sex with both of the women found at the warehouse and that his DNA is in the police database. Clay orders Tig and Bobby to get rid of the bodies. The pair then retrieve the corpses from the police site and burn them in a furnace. Hale is enraged when he discovers that the bodies are missing, and he threatens Clay that he will close the SOA down for good. Clay refuses the money but insists that if they catch him, he must carry out the punishment himself. Juice and Gemma discover that the rapist is one of the carnies and the gang capture him and bring him to Oswald, who tries to castrate him but cannot bring himself to do it. Clay then carries the punishment out, but wears gloves whilst doing it. Jax is unhappy that Clay did not tell him of the plan, however, and tells him to always inform him on his future motives. Clay also travels to Indian Hills to perform the patch-over ceremony and brings a number of SOA Washington members as protection in case the Mayans retaliate for an earlier conflict involving Jax, Bobby and five Mayans. He is wanted by the Triads because he stole money from them, then informed on a number of their members when he was arrested. When Clay and Jax visit Otto in prison, he tells them that if they protect Chuck when he is released, he will inform them where the money that he has skimmed from the Asian Triads gang is located. They agree and pick him up from prison and bring him to the clubhouse. However, just after they steal the money and some counterfeiting plates, the Triads turn up. Jax accepts and invites him to the clubhouse that night. This was a setup , however, to punish him for not having his SOA tattoo removed after being disowned by the club. At the clubhouse, they tie him up and Tig uses a blowtorch to burn off the tattoo. They then use these guns to ambush a prison convoy and free one of their members, Frank Cison. Three police officers are killed during the assault. Meineke drops his cell phone at the scene, and his last calls have been to Clay Morrow. When the ATF finds the phone, they arrest Clay and

raid the clubhouse. Clay is later released because no evidence is found, meaning he can no longer be kept in custody. Meanwhile, Jax, Piney and Opie Winston decide to kill Meineke and his gang to keep them from snitching if they are apprehended by the authorities. They pretend to sell them more weapons. The "boxes of guns" are actually filled with explosives, however, and the militia load their trucks with them. All of the militia are killed when the bombs are detonated. The other was Lowell Harland, Sr. He was killed for being a "junkie rat". To stop the bodies from being identified, Clay, Jax and Tig break into the local morgue, prepared to steal the bones. However, the corpses have already been identified. When Clay tells Lowell, Jr. Clay tracks him down and eventually brings him back to town. The two Mayan soldiers are gunned down by Tig and the shotgun-toting barman, however. Clay is taken to the local police station for questioning about the recent shootings, by Wayne Unser. He meets with Darby first, and tells him not to retaliate because it would start a war on the streets of Charming. It was another person, however. When Opie turns up at the clubhouse, Tig checks his car for bugs and finds a microphone. Clay and Tig then decide to kill him. They agree that the Sons would meet the Mayans for an arms deal and when they left, the Niners would eliminate the Mayans and take the guns as payment. The group escapes, but a number of Mayans and Niners are killed in the shootout. Tig attempts to kill Opie during the havoc, but finds himself unable to do so. Clay tries to phone Tig to tell him, but Tig is not carrying his phone. Clay, Tig and Juice then meet with Vic Trammel and offer him money to reveal the location of the witness. Trammell does not know, however, so they go to Elliot Oswald. Jax goes to the safe house and stops the trio from killing the witness, but threatens her into leaving the state. At Church, Jax confronts Clay and asks if he killed Donna. There, Jax and Clay stare at each other and it is plain to see that the club is coming apart from inside. We see him giving Opie a fake story of how a Mayan MC member killed Donna and he throws a welcome back party for Bobby. When Ethan Zobelle and the L. Season Three[edit] In the first episodes we see that Clay is still saddened by the loss of Abel, and is willing to help Jax at all costs. Also, his arthritis continues to worsen. In the episode "Firinne", Clay kills McGee, member of the First 9 and President of the Belfast Chapter, for his treachery against the club by pushing him off a roof after taking his cut. He later burns the cut after expressing remorse for the killing. When the plan is done, Clay and the others share a laugh, much to the confusion of the ATF agents. Also in the end of the episode, as Tara is reading the letters John Teller wrote to Maureen Ashby, Teller says he fears that Clay and Gemma will kill him because of his betraying Gemma by having an affair and attempting to alter the clubs focus on criminal activity, leading to much speculation that Clay and Gemma might have killed John Teller. Also, while in prison, he set up a deal to run cocaine for the Gallindo Cartel, but this does not sit well with the other members of the club, as SOA avoids drugs. This request is denied, as selling generates too much money for the club to give up. Clay discusses the threat with Gemma, revealing that Clay did kill Teller. Clay later meets Unser and obtains the letters from him, unaware that Gemma has the same plan. After Unser gets a copy of the letters, he confronts Clay. Clay replies he does not regret doing what he did because it protected the Club and Charming. When he visits a tied Georgie Caruso, he claims that he has connections with millionaire Japanese families. Clay immediately sees an opportunity to make Jacob Hale believe he has investors in time. His idea is that he will have the investors pull out at the last minute, which will put an end to Charming Heights. After retrieving the last brick of cocaine that Juice had stolen, framing Miles for it, Clay asks Romeo for help killing Tara, to keep the secret of the letters hidden. After discussing trust issues and differences in the cabin, Clay leaves, only to break down the door, knocking Piney off his feet. Piney begs Clay not to get Tara involved in the letters from JT. Clay shoots Piney in the chest with a shotgun, killing him. This makes Piney the 3rd member of the First 9, and the 2nd and final co-founding member of the Sons of Anarchy to be killed at the hands of Clay. Clay leaves the markings of the cartel to implicate them for the murder. He later learns that the One Niners have been dealing with the Sonora and the Sons plan an attack using the Niners to lure them. Jax confronts Clay when he hears from Bobby that Clay wanted Bobby, instead of Opie, as president as was the deal. Gemma tells Clay that Tara will not reveal the letters to Jax for fear that Jax will get deeper into the club out of guilt. After finding out that Jax and the babies are with her, Clay desperately tries to stop the hit, but is unsuccessful and Tara has her hand broken by a car door while struggling to escape. Clay meets Romeo and gets a refund, with Romeo taking the matter into his hands personally, and Clay reluctantly agrees that Tara is

best dead. That night he decides to sleep in the clubhouse. Opie later finds out that Clay was behind the death of Piney and seeks revenge, ending up shooting Clay in the torso twice. Clay survives the shooting but is shown to be in intensive care. After reading the letters, and realizing Clay is responsible for the death of John Teller, Jax vows to kill Clay.

Vanita Oelschlager is a wonderful woman for writing this book. Although the book is about a porcupette finding a new family it really is a story about adoption. The themes and issues raised by the book were loss, fear of rejection, unrequited love and acceptance. Although these are daunting topics, the porcupette provided a gentle way to explore them. I highly recommend purchasing this book. All the net profits will Thank you to Netgalley for supplying me with a free copy of this book for review. I will now be writing blabbering, lost-for-words praise for the artwork. I really wish I could write my praise more elegantly, but my eyes are popping with joy and I am lost for words. The artwork - wow! It was so beautiful. I would love to see more artwork by the artist, Mike Blanc. I would actually really love to buy a piece from him. Mike, seriously, you are so talented. The only small issue I had with this book was with the paragraphing. I felt the book could have been perfect if a few of the more meaty paragraphs were seperated. This would have added to the emotional impact and allow the reader to digest what had just happened. What a wonderful and important book, thank you very much to both the author and artist. Upon being discovered by the little family she found them very accepting and inviting of her being a part of their family unit. Although Porcupette was very grateful she at times tested them and tried their level of acceptance for her by hurting them with her quills and pushing them away and being mean. She soon learned that nothing could have been farther from the truth. She was about to experience a very valuable lesson about being nurtured and cared for unconditionally This sweet book is indeed heartwarming and full of love and hope. Adoption can be and is a beautiful thing to embrace.

Chapter 5 : Piney Winston - Works | Archive of Our Own

Ronald Rood, a naturalist and childrens' book author, finds an orphaned porcupine while taking a forest walk with friends and family. This book is his documentation of how he raised the porcupine, as well as many trials and tribulations of raising an animal one can't easily punish (hence the title).

She finally finds a good place to have her cubs. It is a small cave above a stream that flows into the Mackenzie in the summer; the stream is now frozen. The she-wolf settles into the cave while One Eye keeps watch at the entrance. Hungry, he goes hunting and stays out for eight hours without any success. He returns to find a litter of cubs, which the she-wolf is carefully guarding, for fear that One Eye will devour them. One Eye, instead, feels a strong paternal instinct. He goes hunting again and catches a ptarmigan grouse ; he does not eat it, but saves it for his family. Then he comes across a porcupine that has been injured by a lynx. Notes This chapter contains an interesting description of how the she-wolf and One Eye start a family and dutifully play their respective roles of mother and father. The she-wolf finds the right place to have her cubs, inspecting both the inside and outside of the cave thoroughly before settling in. One Eye guards the entrance. He also goes in search of food for himself and his family. The introduction of the female lynx is also important, for she later plays a role in the lives of the she-wolf and White Fang. Although ravenous himself, he does not eat his first prey, the grouse, until he has found something else, the porcupine, to take home to feed his family. The gray, male cub is the most striking of the new wolves. This cub is also a smart creature, more inquisitive than the others. The gray cub soon learns to distinguish between nudges that are rebukes and crushing paws that serve to hurt. He also learns how to inflict hurt and how to avoid being hurt. He also watches as all his siblings are lost to starvation. When his father stops visiting them, the she-wolf knows he has been killed by the lynx in a fight. In turn, she carefully avoids the territory where the lynx is taking care of her litter of kittens, for the she-wolf is powerless to fight her and win by herself. Notes Although unstated, the reader realizes that the gray cub is to grow and become White Fang, the central character and protagonist of the story. His parents sense that he is born to be a leader and nurture him over the other four cubs, who eventually starve to death. The thoroughness of the description is quite striking, as the author explores the mind-set of the gray cub, his inquisitive nature, his way of learning, his intelligence, and his reaction to losing his siblings and his father. On his way to exploring the entrance to the cave, the cub learns a few things from his mother. Her sharp nudges are meant to hurt him, and so he quickly learns to avoid hurt by not taking such risks. He is the also the first to learn how to overpower the other cubs. Moreover, his growl is the most impressive of them all.

Chapter 8 : Always Reading: Review: Porcupette Finds a Family

One cannot leave a tiny orphan stranded, particularly in front of a United Church choir, so the Rood family acquired the last word in pets--Piney, the porcupine. This is a pleasant little account that missed its destiny as a magazine article about how they nursed and fed and finally got to pet their prickly subject and how they exhibited him in.
