However, the change order also indicates the goals and deliverables of the project must remain unchanged. Which of the following is the MOST logical impact to the project? The reduced budget will result in reduced resources, which will lead to a strong matrix organizational structure being used. The reduced timeline will decrease risk, resulting in an increased contingency reserve. The reduced timeline will impact the quality of the deliverables because the amount of time to test will be reduced. The reduced budget will cause the project manager to reject the change order. The sponsor wants to do a massive product release, while the CIO wants to be extremely cautious and add more time for testing and defect resolution. The project manager works with both parties and determines the best solution is to roll the product out in a pilot release to see how it tests, and then use customer feedback to determine next steps. Which of the following conflict resolution techniques is the project manager using?
