

Chapter 1 : Great Wolf Road - Lake Delton | Taco Bell

Presentation about the early days of Lake Delton, Wisconsin, and the history of the lake. And about the men and women who had the dream that some day the Lake Delton area would become a major tourist attraction. Includes scenes of the

Streams of people are continually walking down to the Hwy 12 bridge that goes over the part of the lake where the Tommy Bartlett Show was performed. This is the view of Lake Delton from the Hwy 12 bridge. In this shot you can see the ski jumps that were used by the Tommy Bartlett Show. This motel is right on Lake Delton near the Tommy Bartlett show. Empty Lake Delton means an empty Motel. This picture was taken from the East Adams Street Bridge. Here is a view of the Adams Street Boat Launch, from the bridge. This is the view from the opposite side of the East Adams Street Bridge. This picture of Lake Delton was taken from Canyon Road. This picture shows the breach in Lake Delton as it washed away Highway A. This is taken from Hwy A on the South side. There is a series of pictures as the camera pans from West to East. The picture below shows one of the houses destroyed by the flood waters. This was one of the houses that did not have flood insurance because of the decisions of the City of Lake Delton. A temporary dam project will redirect the water flow to the original channel. The temporary dam will divert the water now flowing through the breach and into the Wisconsin River. Once this is done, workers will be able to start stabilizing the and filling in the breach. Catastrophe hit Lake Delton on June 9th, Record heavy rains caused the lake level to rise many feet over normal. The sandy soil that formed the eastern edge of the manmade lake gave out as the water overflowed into the Wisconsin River just across Highway A. The popular Tommy Bartlett show is on hold. No water means no boats, no skiers and no skiing portion for the show. Who could escape the Ski Show without a bumper sticker on the back of your car? Diehl says that they are working on re-opening the show on Friday the 13th with extra stage shows to replace the skiing portions. Many resorts along Lake Delton are reporting heavy cancellations as people realize that they are no longer on a lake that they can go boating on or fishing. It is just plain gone. Fortunately for many people, Lake Delton the city and Wisconsin Dells is still here. While the beautiful lake is gone, temporarily, the attractions that lure tourists to the area are still up and running. Water parks, amusement parks, cheese stores, Go-Carts and etc. They are still available for your pleasure and you should not put off your trip to the Dells because of this disaster with Lake Delton. The breach along highway A will have to be repaired first. The DNR says that about 85, cubic yards of sand was washed away. Dell Creek will take about 45 to 60 days to fill the lake again once the breach is fixed. What is really devastating is the fact that the home owners along the lake did not have flood insurance. Apparently the village board made a decision a few years ago and the Village of Lake Delton had suspended its participation in the National Flood Insurance Program. So the village had its eligibility canceled. They did not adopt the new floodplain map, so they lost their eligibility to continue to participate in NFIP. The program is voluntary and any community can participate and sign up at any time. If a new map comes out, local officials have to formally adopt that new map within six months. Well, it was certainly more costly to those that lost their houses and did not have insurance because of this decision. Why is it that government officials can make such disastrous decisions that destroy lives and then just walk away untouched? Five homes were washed away. One was told, when he protested the lack of insurance that a flood would never happen.

DOWNLOAD PDF PUTTING THE LAKE IN LAKE DELTON

Chapter 2 : Lake Delton - Wikipedia

When Lake Delton was filled for the first time in , it marked the end of a construction project that had lasted for over a year and cost over \$, at the time. The creation of a lake for.

Lake Delton Boat Ramp Take-out: Newport Park Wisconsin River Distance: The Spring Brook creek area where this feeds from is a cool kayaking area when it has enough water which is rarely , although Blass Lake is always kayakable. You can read more about the Spring Brook area here. That is a very cool paddle trip that you can read about here. West of here is a small creek that flows out from the Canyon Creek Riding Stables. Fisherman are allowed to park at the park, walk through the fence, and go down to a fishing trail below the dam and you should be able to use the same trail. It is VERY steep you might need rope to get your kayak down. Immediately after this new park and on your right is the Rivers Edge Resort private ramp. You do have to pay money to use either landings last I checked they both costs the same. Newport Park should now be free for paddlers as long as you park in the non-trailer parking lot. Alternate Dell Creek Trips: Upstream of South Ave: I think the Creek is too small to run. South Ave to Briar Bluff Road: Nice stretch, but there are probably too many log jams. Probably a lot of jams unfortunately. It is on my to-do list. Coon Bluff Road to Hwy Nice open wetgrass paddle. Most jams should be gone. Hwy 23 to the E. This is Mirror Lake which has multiple intermediary options and is reviewed here. Adams Boat Ramp to Newport Park: This is Lake Delton which is reviewed here.
