Ridiculed and called names, she was told her only purpose was to bring in child benefit. Her mum treated her like a slave and would send her to her room, forbidding her from using the bathroom. She was beaten if she left a speck of dust or a pillow out of place, while her younger siblings were treated with affection and love. Yet when Collette, now 35, finally said goodbye to her mother, there was still a part of her that mourned. Collette as a child with her mum Maureen Batchelor Image: Shockingly, while it is illegal to psychologically abuse an adult, doing the same to a child is not a crime. Only physically neglecting a child – such as denying them food or clothes – is illegal. It is still waiting for its second hearing but if eventually passed it would allow police to step in if a child is abused emotionally. Collette, from Erdington, Birmingham, says: Three times before the age of four she was placed in care because Maureen, who was a prostitute, regularly left Collette by herself. The Murray Mints my foster parents gave us on the way back from Sunday school, or curled up with them watching the film ET. She said later it was for the child benefit. I would get myself dressed, make breakfast and play by myself. Or if they did visit, Maureen would persuade them everything was fine. The contrast between how Collette and her siblings were treated was heartbreaking. As they got older, I had to get them up and tidy their rooms. Mum sometimes grabbed my hair and bit me. They got cuddles and birthday parties. Collette and husband Scott Elliott Image: Daily Mirror And Collette says Maureen seemed to delight in humiliating her. My self-esteem was so low I thought I would never get on with anyone. If social services visited, Maureen convinced them everything was OK. At 15, I begged them to put me in care, but nothing came of it. I was leaving school anyway and going to college to study nursing. It made me question again how Mum could have treated me like that. Collette emotionally abused by her mum Maureen Batchelor. Every professional she has seen has said her childhood abuse was the root cause of her problems. I love them climbing into bed with me.

I loved the idea of talking animals and brave girls and boys who overcame cruel care takers. I also really loved Disney movies. I could watch "Beauty and the Beast" or "Aladdin" every single day. I was horrified to find that the origins of many of my favorite Disney movies had much more gruesome details that Disney completely left out. Read on only if you want to completely ruin your childhood. The prince is notified by little doves that there is blood on the shoe, and finally discovers that the true owner is Cinderella. Once the stepsisters realize that they should try to win favor with Cinderella after all, she will be queen , they attend her wedding, only to have their eyes pecked out by birds. Did they deserve it? She finds her dresses to wear to each ball under the tree there are three in the story, not one like in the movie. She is still helped by animals, though specifically birds, not mice. The clever prince covers the steps in pitch to make her stick to them, but she only loses a shoe in the process. She does see the prince from afar in his ship, and she does rescue him from drowning and fall in love with him. She does visit the sea witch who takes her tongue in exchange for legs and she does do it because the little mermaid has an amazing voice. The deal is the same: However, the penalty in the movie is only that Ariel will turn back into a mermaid if she fails. In the story, she will DIE if she fails. The Disney movie leaves out that the penalty the mermaid pays for having legs: The Fox and the Hound is based on a novel written by Daniel P. He occasionally returns to taunt the dogs, and flash his cunning fox skills. One of the dogs breaks his chain, and chases him. That dog ends up getting hit by a train. The hunter is devastated, and vows revenge on the fox. Copper the dog from "The Fox and the Hound" is so old that he needs to be shot, and that is the end of the book. Pretty different from the movie, where a puppy and a baby fox become BFFL. In the first believed version of the tale by Gabrielle-Suzanne Barbot de Villeneuve , Belle has two wicked sisters lots of wicked family members in fairy tales, unfortunately. The Beast allows Belle to travel home, as long as she is only gone for a week. Her sisters are extremely jealous to hear about her luxurious life, and try to persuade Belle to stay with them longer than a week, in the hopes that the Beast will be infuriated with Belle and eat her alive upon her return. In the book, he runs away as soon as he learns to walk. He is found by the police, who imprison Geppetto because they believe Pinocchio was abused. Pinocchio returns home, where he kills a talking cricket sorry, Jiminy who warns him of the dangers of hedonistic pleasures and obedience. Geppetto is released, and insists that Pinocchio goes to school. Pinocchio sells his school books for a ticket to the Great Marionette Theatre. He encounters a fox and a cat, who steal his money and unsuccessfully try to hang him. Luckily, after saving Geppetto from the terrible dogfish you might know it better as the gigantic, angry whale from the film , Pinocchio shapes up and eventually becomes a real boy and, you know, all that stuff about boys getting turned into donkeys and then sold to evil circuses did end up making it into the movie, surprisingly. When no one answers, he climbs up a ladder through a window. He finds the princess, and calls to her, but as she is unconscious, she does not wake up. Well, dear reader, he carries her to the bed and rapes her. Then he just leaves. She awakens after she gives birth because one of her twins sucks the flax from the spindle out of her finger. The king comes back, and despite him having raped her, they end up falling in love? However, another big problem: His wife finds out and not only tries to have the twins killed, cooked, and fed to the king, but also tries to burn the princess at the stake. Luckily, she is unsuccessful. The king and the princess get married and live happily ever after despite the fact that he raped her. I know, this is a pretty loose adaptation. In the Brothers Grimm version, Rapunzel gets knocked up by the prince before they escape, and the evil sorceress figures it out. He jumps out the window in despair and is blinded from the thorns below. He wanders around aimlessly he is blind. Rapunzel gives birth to twins. He is eventually guided back to her when he hears her voice. Her tears restore his sight. Some of these fairy tales actually DO have real happy endings, even when women have babies out of wedlock! A jealous brother kills the king, the son finds out about it and wants revenge. Rosencrantz and Guildenstern, I mean, Timon and Pumba, distract him. But finally, the son kills the evil jealous brother. In the

Brothers Grimm version, the evil queen stepmother asks a hunter to take Snow White into the forest and kill her this also happens in the Disney movie. In the book, the queen tries twice unsuccessfully to kill Snow White. She is placed in a glass coffin. A prince comes and wants to take her away even though she is still asleep, which is pretty weird. She and the prince, of course, get married. The evil queen is invited. As a punishment, she is forced to wear burning-hot iron shoes and dance until she drops dead.
