Have a nice trip. You hung up on me. I guess I missed the part where you invited me to come along. I have a business to run. End of year inventory. But, hey, telling you that would have involved a discussion. Not that I need to know why of course. And, even mad, I felt my stomach turn just thinking about Jerry flying alone across an ocean. Me, I prefer something with a seat belt and air bags. I left it in the alley for you. My own car was currently DOA. Lily could be anywhere. My first stop will be Paris to see if Mara has found out a more specific location. I do love Jerry, and I hated the fact that he was going to have to cross the Atlantic and land in the middle of a bunch of vampires who thought stirring up mortals against us was good, clean fun. I hoped this "daughter" was worth it. My funds were always pretty limited. And not just me naked on satin sheets either. Call me every night. I love you, Gloriana. I looked down at Valdez. We were getting pretty mushy there. I took a moment to rub my cheek on the midnight blue velvet, which matched my eyes. I figured Jerry would have had it off me long before midnight. The red was made for dancing: As for the black I liked the way it slimmed my hips, enough said. I thought about putting on my flannel jammies and really vegging out, but my roommate might drop in. He had a thing for the shape-shifter who served as bodyguard for another vamp in Austin, a rock star who was turned recently in a pretty nasty trick. Typical rock-star blowout apparently. Caine is routinely hounded by paparazzi and girl groupies. Turned by another vampire. Alcohol can make us really, really sick. So Ray could be knocking back shots and think he was okay for a while. The mortals thought he was just falling off the wagon. Valdez and I will be right over. I kept my spare set in a kitchen drawer. Valdez already had his leash in his mouth and was sitting by the door when I grabbed my coat and purse. I wished I could change clothes. Put on one of those sexy dresses. Besides, I was on a mission here. For a badass vampire, I was turning into a real wuss. As usual, Valdez checked out the alley before we ran to the car and jumped in. I felt a real urgency. Vampires can heal from a lot of things, but a broken neck? I drove through the Austin hills to the area where Ray rented a house on top of a cliff, complete with elevator down to a boat dock. I pulled up to a circular driveway filled with cars. Brittany met us at the door. A two-story wall of windows framed a view of Lake Travis, the twinkling lights of houses outlining the water. Music pounded from large speakers, and a drummer used his sticks on a black lacquered coffee table. Three couples danced across the tile floor until one of them broke off and headed for the stairs, brushing past me with barely a nod. They were clearly into each other and looking for a bedroom. I turned to say something to Valdez, but he and Brittany were still by the front door, whispering. I guess I was on my own. I spotted Ray standing on the balcony. I took a moment to just look at him. The sexy heartthrob whose poster had stopped me dead in the middle of an Austin mall one night was not a happy camper if the way he was tossing back the Jack straight from the bottle was any indication. I stepped off the stairs and headed for him when a hand shot out and grabbed me around the waist. He was clearly drunk. Tell it to Brittany. I dropped my coat and purse on a chair, then stepped out into the cold night air. I closed the French door and stood beside Ray.

Real readers love this series and its "vampire to die for"(Kimberly Raye, USA Today bestselling author of Dead End Dating)-from the author of Real Vampires Get Lucky. Gloriana St. Claire-curved, stylish, and undead-is spending New Year's Eve alone.

Sadly most of her books are normally However I found a couple were discounted on Amazon recently and I purchased 4 books at books again friends of the library bookstore so I am set for my summer vamp fix. Their chemistry is amazing. Almost makes me want Glory to end up with Ray, but she is totally meant to be with Blade. Even though he hurts her pretty bad in this book and he had good reason to react the way he did to her being half naked with Ray, although nothing happened their "make-up" sex is pretty hot and she truly does love Blade. My only beef with these books is that the storylines are pretty lame. But at least the good characters make up for it. However, once again, the ending was kinda ho hum. There is all this build up and then nothing happens. And then important things, like Glory killing Westwood, is sort of tossed aside as an after thought. I would love to see this turned into a series and see who they would cast for the roles. As the evening progresses, Glory finds herself alone with Ray on his boat in the middle of the lake. Things only go downhill for them from there because they have an encounter with a powerful creature that needs help and has no problem coercing Glory and Ray to help. It moves fairly quickly leaving no room to get bored, but not so fast as to feel rushed. I enjoyed how Bartlett weaves in humor throughout the novel. This book delivered on that front because a significant portion of the plot involves him, so the reader will get a nice glimpse of his lifestyle post-vampire transformation. Glory is as delightful as ever. There are a few potential love interests that I would like to see Bartlett pursue for Glory. The romance in this novel was a bit predictable and familiar as a result. Despite my small complaint, I still plan to read upcoming novels in the series because the potential for some new and exciting romantic changes are there. Also, the ending of this novel makes me think that Gerry Bartlett has some very fun things planned for the next novel. Summed up in 3 words: I love Valdez he is my favorite by far. His quirky attitude makes him so hilarious. I love that Bartlett made her a thick woman too! This has become one of my favorite vampire series. Bartlett does a great job in summarizing some of the backgrounds between the characters. Amber I like the book. Claire is back and, as always, in trouble. Jerry has left to search for his presumed daughter, Lily, in England. Glory is left in the care of Labrador shifter, Valdez, and newly made vamp, Ray Caine. This book was light and funny, typical of the writing style the author has used in the previous books. Ray and Glory are captured by a siren turned sea monster and forc In the fourth book of the series, Gloriana St. She still cannot recognize that she has two, sometimes three, hot male vamps after her affections. One, Jeremy Blade, long life lover and maker of Glory. Two, Israel Caine, rock star socialite who is infatuated with Glory for reasons she cannot understand at the moment. And sometimes three, Damian Sabitini, who is just in love with women and general and will hit on practically anything with a skirt. In my opinion, Jeremy Blade is good for Glory, but he can be overly controlling much of the time. If he would learn to let Glory be an independent woman he would be a perfect match. Israel Caine is to die for. She is devilishly attracted to him. I would have dropped Blade long ago. All I can say about Damian is to stay very far away. I would avoid him at all costs and that is exactly what Glory does. The story line for this book was great. The introduction of the goddess, the god, and the siren was an interesting twist. Above all it was a fun and light read. Solace Winter Major question that goes unanswered ever If it bothers her soooooo much that people make fun of her weight constantly, then make yourself skinnier. Jerry should have stayed in town and kept a better eye on her. She is such a hypocritical two-timer in this one I almost hate her. And she was so nice in the first books. I was hoping Jerry would punish her for a least a hundred years. Even though he has a Scottish temper, you can tell that Jerry really loves Glory, just by the fact that he keeps getting her out of jams and forgiving her. Now if Ray would just get out of the picture. Especially since she hates water and loves to dress fashionably. And her boyfriend, Dracula, and his two buddies are loose cannon, but very cool. But it was hilarious. And in such an electrically flamboyant way. Not sure how I feel about that. Besides how many blueberry muffins, etc. I kept expecting something to happen

with that. Cocktails and Books Okay I read the first book in the series a while ago and truly enjoyed it. Glory used to be a character that I admired. But as time has gone on, she annoyingly harps on herself. They always write them to have self-doubt and low self-esteem and spend chapters of an otherwise worthy story using it as an excuse to constantly drone on with fat shaming jokes and comments. It is inconceivable to believe that she can live a normal life like anyone else regardless of her size? Aside from that, the book was okay. It had a lot going on in it, which was at times a little overwhelming, but the core of the story was solid. The author created a lot of scenarios that kept me wanting to read on, and I did enjoy that aspect of the book. Reviewed by Marie for Cocktails and Books Sophia This was the fourth installment of the series and several times it felt more like the Perfect Storm instead of the usual fare of Glory St. I enjoyed parts of it and other parts I found tedious. I thought we had moved away from that in the last few stories, but yet, here we were again. Glory spent most of the book d This was the fourth installment of the series and several times it felt more like the Perfect Storm instead of the usual fare of Glory St. Glory spent most of the book doing the double-standard thing between Jerry and Ray. It was okay for her to string along Ray because it was all in his best interest and it was okay to force Jerry to accept it for same best interest while all along she resents even a whiff of anything between Jerry and Mara and she admits that she has some interest in Ray. Glory had help getting into trouble in this one, but her decisions complicated things. This was a whole lot of have your cake and eat it too. And as I said, she had a lot of help getting into trouble in this one with the encounter with a Siren who forces their cooperation to help her or they die. Things got exciting and it took some juggling and some luck for the gang to all sail through only slightly singed. There were some fun reveals in this one and one major story arc was completed. Finally Glory gets to see Valdez in the flesh and get the truth on if Jerry fathered a child. Oh, and for those of us who need our Jerry fix, he and Glory get a couple of really steamy scenes. So, all in all, this was a good installment and I look forward to further adventures with Glory and the gang. Urban Fantasy fans who like things on the lighter, more humorous side should give these a try.

Clair 4 59 Author: Your skirt looks stretchy. So pull it up. Damn, but that water was cold. And I swear something slimy crawled up my leg. Then Ray had me, his arm around my waist as he swam us along the shoreline. We saw strobe lights at his house and I realized the fire trucks had finally arrived just in time to watch the second floor collapse in a shower of sparks and with a roar that could probably be heard for miles. Or, even better, the firemen dragging our charred bodies from the rubble. Even the boat can be replaced. And, look, we can get out of the water now. You beat Westwood again. I should be singing. Maybe write a new song about this. After some healing sleep. Valdez walked on my other side and, when Brittany appeared, we were all glad to stop for a breather. What time is it anyway? He had it aimed at my heart of course. Because Brent Westwood had had me on his most-wanted list for a long time. I sent Ray and Valdez mental messages. Twin growls of rage. I put out my hands to try to physically restrain them. Yeah, like that would work. They did stay put temporarily. Too bad all you managed to do is start a very expensive bonfire. I was just flushing them out anyway. I want my trophies, you know. Let me see your pretty fangs, vampire. My fangs only come down when I smell mortal blood. Bet his blood would get you going. I guess they realized this was my fight. Just kill a mortal in cold blood like that. Westwood obviously sensed it and suddenly tried to grab my hand. I heard Drac, Benny and Luke talking about the reward Blade had offered. Yes, I needed to see him. The smell of fresh blood did have my fangs down, but my stomach heaved. Instead, my legs felt limp and I stumbled. Ray swung me up and into his arms. I heard splashing and realized he was wading through water. I finally opened my eyes and saw the SUV and Jerry standing there. Lily stood beside him. I guess I was in shock. That whole thing was pretty intense. I turned and Jerry was right there. Valdez, would you take Lily back to the scene? You scared the hell out of me. It grew on me. Lily gave me a searching look, then hurried after him. He cursed, gathered me into his arms, and I think I even saw his eyes gleam. My Scotsman close to tears? Must have been the moonlight. You can shift for yourself. Come to my house. I have spare rooms. All of you come to my house. Get in the car. Have him call your parents. And get him to call Barry too. To prepare a press release. The tabloids will have a field day. You get Sienna home okay? Bad news" I tuned out the rest of the conversation and turned to Jerry as he headed home. It should wait a while.

Clair 4 34 Author: Gerry Bartlett "You could have tried. Valdez stopped pacing around the room. An EV visit is not going to happen. I go where I please. He planted himself between Ray and me. Put your foot down. Blade would never allow it if he were here. I threw myself between them and took a hard hit on the forearm. I landed on the coffee table and reduced it to a pile of sticks. I closed my eyes when I heard glass shatter and actually hoped it was one of my Israel Caine collectibles. Damn them both and their excess testosterone. The action seemed to be dying down when I pulled a table leg out from under me and a crumpled copy of Cosmo. Finally I lifted my sweater and watched blood ooze from a cut on my side. Would someone get me a towel? I might lose my security deposit. And, insano, but your blood smells squisito. Flo must really be worried about me. I just fed before I came up. Totally fallen off the synthetic wagon. Where are the guys? He and Valdez have done enough hurt to you. Ricardo took them to the roof to kick their butts into some sense. Let me help you up and into the bathroom. You can clean up. Why you wear such things? Damp, tight and ripped in the back. Blame Valdez for the rip. I was too battered to even care that she saw my thighs. Anyway, a hot shower did me a lot of good. By the time I got out, the men were back in the living room, the remains of the coffee table had disappeared and things were, on the surface at least, back to normal. He II probably fire my ass. I turned to Ray. How are you feeling? But you and Valdez owe me a coffee table and a new copy of Cosmo. I guess it was bound to come to a head sometime. Vampires have delivery and takeout? My shoes, my clothes, reorganizing my closet or my inventory. Simon would expect it of me. Because of the shop if nothing else. It still stung, but was already better. I remember your music videos when you sang on your island in the Caribbean or on your boat. You loved the sun. Were really going to get to see the sun out there? Flo, did you see the rooms? I just follow orders. It was too far away for their mental link to work. Very golden and warm, ready for a picnic in a meadow. Simon bragged about them. One will be perfect for you, Israel. Let him in, Glory. Okay, so at least he was taking this seriously. I threw the dead bolts and let him in. You are too pretty. Now" She sniffled and Richard pressed a white handkerchief into her hand. Surely we can figure something out! Even from out by the lake. This goddess wants Casanova. I bring ruin on my family.
