*'The Secret Book of Secrets'), is a pseudoaristotelian treatise which purports to be a letter from Aristotle to his student Alexander the Great on an encyclopedic range of topics, including statecraft, ethics, physiognomy, astrology, alchemy, magic, and medicine.*

Origin[ edit ] The origin of the treatise remains uncertain. It contains supposed letters from Aristotle to his pupil Alexander the Great. No such texts have been discovered and it appears the work was actually composed in Arabic. The letters may thus derive from the Islamic and Persian legends surrounding Alexander. The Arabic treatise is preserved in two copies: Modern scholarship considers that the text must date to after the Encyclopedia of the Brethren of Purity and before the work of Ibn Juljul in the late 10th century. The Hebrew edition was also the basis for a translation into Russian. The first Latin translation was done for the Portuguese queen c. The second translation was done at Antioch c. Some 13th-century editions include additional sections. Contents[ edit ] The Secretum Secretorum claims to be a treatise written by Aristotle to Alexander during his conquest of Achaemenid Persia. Its topics range from ethical questions that face a ruler to astrology to the medical and magical properties of plants, gems, and numbers to an account of a unified science which is accessible only to a scholar with the proper moral and intellectual background. The enlarged 13th-century edition includes alchemical references and an early version of the Emerald Tablet. Legacy[ edit ] It was one of the most widely read texts of the High Middle Ages or even the most-read. It is particularly connected with the 13th-century English scholar Roger Bacon , who cited it more often than his contemporaries and even produced an edited manuscript with his own introduction and notes, an unusual honor. Scholarly attention to the Secretum Secretorum waned around but lay interest has continued to this day among students of the occult. Scholars today see it as a window onto medieval intellectual life: Liber Secretorum by Muhammad ibn Zakariya al-Razi , which appeared in Europe around the same time and has been often confused with the Secretum Secretorum. It deals more specifically with alchemy , providing practical recipes, classification of minerals, and descriptions of laboratory equipment and procedures. Kitab Fi al-Firasah which was also attributed to Aristotle and claimed to have been translated into Arabic by Hunayn ibn Ishaq in the 9th century. October 11, Post by Laura Light We usually try to give our blogs a catchy title. What could be more intriguing than a book called the Secret of Secrets in Latin Secretum secretorum? Everyone likes secrets, and this title also hints at something tremendously important. A cure for cancer? The perfect recipe for fried chicken? Knowledge is power, and this small guide promises to provide the key. A messenger from Aristotle kneels before Alexander the Great to present this book. TM , f. It was truly a medieval bestseller, surviving in many hundreds of manuscripts. But it was not a text read only by the learned; there are early translations into most of the vernacular languages, including French. Many different translations into French survive. The version in our manuscript is early and known in only four complete copies is a very faithful translation of the Latin that includes all the scientific advice, medical, alchemical, astrological, and so forth. This French translation follows in the tradition of one of the most fervent supporters of the Secret of Secrets, the Franciscan philosopher and scientist, Roger Bacon c. Charles V was a good king, and a learned one. And he was particularly interested in acquiring the learned works of his day in French. He commissioned Nicole Oresme, c. The Palace of the Louvre, home to the original French royal library. Scholars once thought he may have commissioned this translation as well it fits perfectly with his interests. Illuminated border, TM , f. It is small and personal measuring x mm. Was this the presentation copy made for someone of high rank and wealth who commissioned the translation early in the fourteenth century? It seems very likely. The exact identity of this mysterious person is one secret that has not yet been answered. TM is one of our newest additions to the Text Manuscripts site, one of thirty-one new manuscripts included in the recent September update. For more, see [www](http://www).

But these honest facts have been obscured by the fanciful legend of the Chamber of Secrets. The story goes that Slytherin had built a hidden chamber in the castle, of which the other founders knew nothing. Slytherin, according to the legend, sealed the Chamber of Secrets so that none would be able to open it until his own true heir arrived at the school. The heir alone would be able to unseal the Chamber of Secrets, unleash the horror within, and use it to purge the school of all who were unworthy to study magic. The Chamber of Secrets was home to an ancient Basilisk, which, according to legend, was intended to be used to purge the area of Muggle-born students. The Chamber was flanked with towering pillars that were entwined with carved wood, and the Statue of Slytherin was at the far end. Sometime before, the chamber flooded [2]. Contents [ show ] History Salazar Slytherin disagreed with the other Hogwarts founders about the importance of Blood Purity and the acceptance of Muggle-borns at Hogwarts. As the other Founders were against him in this matter, Slytherin left the school. According to legend, before he left, Slytherin created a secret chamber deep underground in Hogwarts Castle known as the Chamber of Secrets. That Chamber was home to a monster a Basilisk that was allegedly supposed to purge the school of all Muggle-borns. None, however, were successful, and the Chamber was dismissed as a mere legend by many. When the Chamber was opened in and, it was revealed to be real. Openings There was clear evidence that the Chamber had been opened more than once between its creation and the 20th Century. When it was first created, the Chamber was accessed through a concealed trapdoor and a series of magical tunnels. The presence in school at the time of a student called Corvinus Gaunt who was a direct descendant of Slytherin explained how the simple trapdoor was secretly protected, so that those who knew how could still access the entrance to the Chamber even after the newfangled plumbing had been placed on top of it. Through Merope Gaunt, his mother and a Witch, Riddle was the last remaining direct descendant of Slytherin, and he desired to see Muggle-borns driven from Hogwarts. In his Fifth year, Riddle located the secret entrance to the Chamber of Secrets during his research on his heritage and was able to control the Basilisk as he was the Heir of Slytherin. Riddle turned the Basilisk loose on the school and injured many. Hogwarts was due to be closed, which upset Riddle, who did not want to return to the Muggle Orphanage in which he was raised. He framed fellow student Rubeus Hagrid, who had concealed a pet Acromantula named Aragog. Riddle convinced the Headmaster at the time, Armando Dippet, that Aragog was the monster that had terrorised the school. Hagrid was wrongfully expelled, and Riddle received an engraved Trophy for Special Services to the School. Tom Riddle splitting his soul for the first time at the age of sixteen after the murder of Myrtle Albus Dumbledore, then Transfiguration Professor, distrusted Riddle and kept a close watch on him after that. The diary was also made a Horcrux an object that holds the user immortal with the murder of Myrtle. At some point between the death of Myrtle and the school year, the Chamber flooded under unknown circumstances. Towering stone pillars entwined with more serpents, rose to a ceiling lost in darkness, casting long, black shadows through the odd, greenish gloom that filled the place" Description of the Chamber [src] The Writing on the Wall The Chamber was re-opened in when the bewitched Diary of Tom Riddle manipulated and controlled Ginny Weasley, a Gryffindor First year who had got hold of the diary through Lucius Malfoy, who slipped it in her cauldron when he viewed her other spellbooks at Flourish and Blotts, and fell under its influence. The first message read: Enemies of the heir, beware. They were later restored to their proper states through the use of Mandrake Restorative Draught. Fortunately, that time, no one was killed. On 29 May, Ginny was taken down to the Chamber to die, while Riddle intended to feed off her life force in order to become fully alive again. A near-dead Ginny lay nearby, whose life force was slowly being drained. As Ginny grew weaker, Riddle grew stronger. Riddle then revealed that he was, in fact, Lord Voldemort rearranging the letters of his name from "Tom Marvolo Riddle" to "I am Lord Voldemort" and then summoned the Basilisk. As Harry impaled the Basilisk, a fang stabbed into his arm in the process. Near death, Harry used the fang to stab the diary, which spurting out black blood like ink, and

the memory of Riddle preserved in it was destroyed. Entrance "Next second, the sink began to move. A corridor may be entered by giving the command of: The engraved snake was on a tap over one of the sinks. The snake twisted, which made the other snakes go back. According to Myrtle, the tap had never worked. A passage opened from the sink that lead to a corridor, which Harry and Ron opened in and , respectively. Corridor of Secrets The Entrance to the Chamber of Secrets at the end of the Corridor That corridor was a passageway that lead to the door of the Chamber. She was unable to speak Parseltongue afterwards, but Riddle probably told her what to say. In the book, it said that Filch could not get the messages written by Ginny off the wall. It was unknown if he ever did, and it was not mentioned since. Tom Riddle opened the Chamber of Secrets in June , but it was unknown precisely which day, possibly the same day that he caught Hagrid from talking with Aragog 13th June or the day before. As Myrtle recalled, they took "hours and hours" to find her body. In Harry Potter and the Deathly Hallows: Also, Voldemort caused the Chamber to flood and nearly kill them, and that was the scene when they kissed. The Chamber had a green hue in the film adaptation of Harry Potter and the Chamber of Secrets , but in the second part of the film adaptation of Harry Potter and the Deathly Hallows , its hue was blue. In The Deathly Hallows: Part 2, the snake head statues in the Chamber appeared to be more worn than in The Chamber Of Secrets, and had slightly bigger eyes. Part 2 videogame , the Chamber was recreated inaccurately. It had miles of caves, tunnels, and doors inbetween the bone pit and the actual Chamber. The Chamber was also shown to be behind an ordinary metal door rather than the unique one in the films, and there was a ramp to get down into the Chamber rather than a ladder. In Harry Potter Page to Screen: The second door into the actual Chamber in the film The entrance to the Chamber was also different in the film, as the sinks were lined up in a circular formation, which all spread open when spoken in Parseltongue, and the sink with the engraved snake slides down, leading to a massive hole in the floor for the entrants to jump in. Bonnie Wright Ginny Weasley , said that when shooting for the scene in the Chamber of Secrets, the floor was so cold, there were hot water bottles in her clothes. In the PS1 Version , the Chamber was divided into several corridors, which lead to a penultimate chamber with four connecting chambers, two on either side. They contained small Trolls , animated Suits of armour , giant Slugs and Rats. Harry must also duel with Lockhart before he loses his memory.

## Chapter 4 : The Emerald Tablets of Thoth - Supplementary Tablet XV - Secret of Secrets

*When the Sultan of the Awliya writes a book titled "Secret of Secrets" its unsurprising that it might be a bit hard to understand for the uninitiated. So it's definitely not a book I would recommend for the beginner. I found the description of the relation between the Shari'a, Tariqa, and Haqiqa very enlightening.*

Buku pertama saya di Subhanallah membaca sebuah kitab benar-benar menampar diri. Betapa miskinnya saya, betapa tidak berilmunya saya. Selama ini saya hanyalah mengejar yang di permukaan dan tidaklah mengejar lapis tertinggi dari segala hal. Buku ini mengulas banyak ayat dengan tafsir seorang sufi dimana kecintaan kepada Allah membuatnya membuat al-Quran benar-benar selayaknya surat cinta, memberikan kesegaran jiwa. Segala macam ibadah ki Buku pertama saya di Segala macam ibadah kita dibahas satu demi satu mulai dari shalat, sedekah dan naik haji. Apa yang dilakukan para alim ulama dan orang-orang di tingkatan-tingkatan di bawahnya dalam ibadah tersebut. Buku ini juga berulang kali mengingatkan bahwa seorang kekasih Allah pun adalah manusia yang merupakan percampuran sifat yang berlawanan dari Allah. Sifat yang dimiliki syaitan dan juga malaikat sehingga tidaklah layak kita mengutamakan para kekasih Allah ini karena yang dituju hanyalah Allah satu. Buku ini memberitahukan pula bahwa kekasih Allah ini haruslah kita jadikan guru dan tauladan dalam mencari ilmu hakikat dan kedekatannya akan menularkan rasa cinta kepada Allah. Sungguh buku yang sangat baik untuk dibaca bagi yang ingin menyelami diri lebih dalam. Memaknai hakikat hidup dan menambahkan kedekatan dengan Allah. I persevered through his obfuscatory text and got some insight. But Jilani is so much more easier to comprehend. I was pleased to note points of similarity between his theosophy and that of Ibn Arabi. The similar points were: There are some interesting points of dissimilarity. Ibn Arabi and Abdul Qadir Jilani seem to differ in their own descriptions of the mystical realms. According to Ibn Arabi there are six and according to Jilani there are three. Interestinly, Jilani also stresses the point of having a link to the Holy Prophet PBUH when undertaking a spiritual journey, whereas Ibn Arabi does not lay the same emphasis on this aspect of mysticism. But other than that a very comprehensive and accessible read.
