Chapter 1 : Oxford History of the United States - Wikipedia

The Illustrated History of the World is a lavishly illustrated edition of J. M. Roberts's bestselling History of the World. The series is completely revised and updated, each volume of this comprehensive reference work traces the tumultuous story of humankind from prehistory to the end of the 20th century.

Woodward editorship[edit] The series originated in the 1960s with a plan laid out by historians C. Vann Woodward and Richard Hofstadter for a multi-volume history of the United States, one that would provide a summary of the political, social, and cultural history of the nation for a general audience. New fields of historical study emerged in the 1960s, and personal issues intervened for some of the authors. Though some of these historians completed books as a result of their respective assignments, none of them was published as part of the series. Included on the rear dust jacket flap to the original hardcover edition was a projected outline for the series at that point: Colonial America by T. Early National America, " by Gordon S. The Civil War by James M. Reconstruction and Industrial America by George M. Early 20th Century America, " by William H. The New Deal, " by David M. Postwar America, " by William E. American Diplomacy by Norman A. The Civil War Era. Volume 10, Grand Expectations: The United States, " by James T. Creatures[edit] Zombies: Zombies are the primary servants of the Zombie Priest. Very few seem to be capable of speaking or performing other complex tasks. Raised by necromancy , they are capable of following orders, though only from the Zombie Priest himself. Referred to by Franky and the Goon as "slackjaws. Hobos are the cannibal overlords of the dark forested region known as the "Hobo Jungul. An army of deadly robots designed by Dr. Hieronymous Alloy, all inexplicably sharing the name "Bruno". These drones have a distinctly retro sci-fi aesthetic, and are equipped with weaponry ranging from lasers to boxing gloves. A race of ogre -like creatures that inhabit the swamps outside of town. The ghosts of a perverse inbred family who haunted an old mansion on the outskirts of the city. The Skunk Ape is a large, sasquatch -like monster with a hideous odor. The Skunk Ape is driven to homicidal enthusiasm by the scent of pies especially blueberry. Communist Airborne Mollusk Militia: A squadron of immense octopuses who achieve flight via personal zeppelins. While apparently intelligent enough to speak French and operate aircraft, they made the mistake of allying with the Zombie Priest. The Militia was last seen being blown sky high by the Goon and Hellboy. Another cephalopod nuisance for the Goon, the Giant Squid have a tendency to crawl onto land and attack cars along Crestwood Avenue. A coven of preening, pretentious bloodsuckers who continually find themselves beaten senseless by the Goon. It is later revealed that they are a diluted form of vampires, fairly disgraceful in their current state. Man-eating rodents the size of St. Bernards, these monsters prowl a lonely stretch known as Rat Alley. Products of Mother Corpse, they are small, dwarf-like creatures with large, potato-shaped heads. Unlike zombies, they are capable of merging into one another to create a larger, more deadly monster. Miscellaneous characters[edit] Dwight T. Albatross is never afraid to speak his mind and often keeps the Machiavellian madness of Eric Powell in check. Dwight had been arrested for destroying issues of The Goon in retribution for his unjust termination at the hands of Powell. Photographs of Albatross appeared in The Goon: Noir, a miniseries done by various creators while Powell worked on Chinatown and other projects. The Greatest Hero of the Golden Age! Sporting a fiery hole in the center of his forehead, this classic-style superhero is known for his foul language and his radioactive and incredibly angry brain. He wrote that Dark Horse, while supporting both him and the issue completely, feared public backlash from its publication, but would eventually put out the issue. She claimed that the comic was morally reprehensible and contacted local area retailers telling them that even allowing the comic to be stocked on their shelves could lead to their ever-lasting damnation. Some listened to her and threatened to stop carrying The Goon altogether because of this single issue. Four pages of the book reprinted several fan letters in support of the struggle against Snodgrass. There has never been any evidence of a real boycott, no retailers have ever spoken out on the issue, and there is no evidence of Mrs. It will be called SSB2 to avoid the same issues with the title of the first story. The 3-part series simply entitled "Buzzard" was later published in The Goon: Noir is a series of original short stories by various artists and authors not including Eric Powell himself , which take place within the world of The Goon. Not necessarily a spin-off, but maintaining a similar tone while being appropriate for all ages, is another recently published comic by Powell called Chimichanga. Chimichanga is about a bearded girl, a gorilla monster and a witch. Originally a self-published graphic novel, in September it was published in hardcover format by Dark Horse Comics, with colours by Dave Stewart. Prepping the design and script while searching for funding. We created "proof of concept" footage to show Hollywood the incredible potential of a Goon movie. As of July , Blur Studios and Tim Miller teased an upcoming announcement regarding the film and said it "would happen".
