Chapter 2 : Simi Valley, California - Wikipedia

Simi Valley is an incorporated city located in a valley of the same name in the southeast corner of Ventura County, California, bordering the San Fernando Valley of Los Angeles in the Greater Los Angeles Area.

Pictographs in the Burro Flats Painted Cave , which was a winter solstice observatory for the Chumash. Chumash pictographs possibly dating to AD. Roughly 2, years later, as hunting and fishing techniques improved, the population increased significantly. Harrington , whose brother, Robert E. Harrington lived in Simi Valley. Robert Harrington later explained the name: The word Simiji was constructed by whites to the word Simi. There are other explanations about the name Simi, but this one was given to me by my brother who worked over 40 years for the Smithsonian Institution and it seems most plausible to me". The cave is located on private land owned by Boeing , formerly operated by Rocketdyne for testing rocket engines and nuclear research. It is now a California Historical Landmark and on the U. National Register of Historic Places. They camped near a native village in the valley on the 14th. The name derives from Shimiji, the name of the Chumash Native American village here before the Spanish. Strathearn, served as the headquarters of the rancho. When no great amount of oil was discovered, Scott began to sell the rancho. In , a portion of the rancho was bought by a newly formed company, the Simi Land and Water Company. For a brief time, its postal address was known as Simiopolis, though it was soon shortened again to Simi by The first public school was built in in the northeast but was torn down in There was also a great deal of destruction caused by a flood in The city incorporated as Simi Valley in , when the area had only 10, residents. The site was operated by Atomics International and Rocketdyne originally both divisions of the North American Aviation company. The Rocketdyne division developed a variety of liquid rocket engines. Rocket engine tests were frequently heard in Simi Valley. The Atomics International division of North American Aviation designed, built and operated the Sodium Reactor Experiment, the first United States nuclear reactor to supply electricity to a public power system. They proved that the boiling water concept was a feasible design for an electricity-producing nuclear reactor. The SSFL has been closed to development and testing. The site is undergoing investigation and removal of the nuclear facilities and cleanup of the soil and groundwater. The reactor was repaired and returned to operation in September, The incident at the Sodium Reactor Experiment has been a source of controversy in the community. Technical analysis of the incident intended to support a lawsuit against the current landowner The Boeing Company asserts the incident caused the much greater release of radioactivity than the accident at Three Mile Island. In September , The U. Department of Energy sponsored a public workshop where three nuclear reactor experts shared their independent analysis of the July, incident. The center performed the design, development and testing of liquid metal reactor components for the United States Department of Energy from until The drawings within the cave have been termed "the best preserved Indian pictograph in Southern California. The case known as the Rodney King Trials was based on footage recorded on home video by a bystander George Holliday. The now-famous video was broadcast nationally and globally and caused tremendous response because the beating was believed to be racially motivated. Many believed that the unexpected outcome was a result of the racial and social make-up of the jury, which included ten whites, one Filipino, and one Hispanic. Among the jury were three who had been security guards or in military service. Geography[edit] Simi Valley aerial from west. The City of Simi Valley basically consists of the eponymous valley itself. Our Mission Our Mission is simple: To provide you with the finest endodontic treatment available anywhere - delivered in a compassionate and caring environment. Practice Profile We are an endodontic root canal specialty office. All of our doctors are specialists - each completing two additional years of specialized training beyond their dental degrees. All of our equipment is state-of-the-art, reflecting the most current in endodontic technology. Surgical microscopes in each treatment room help facilitate the most precise results possible. Our goal is to provide you with the best, most accurate, and thorough diagnosis possible. Fortunately, recent technological breakthroughs have allowed us to make major advances in our ability to achieve that goal. Our digital x-rays minimize radiation exposure and allow instant consultation and reporting with your general dentist and other specialists. In keeping with the current direction of health care record keeping, all of our records are electronic, assuring that our doctors have access to your records should you have any problems when the office is not open. Physical and electronic security measures assure the privacy of your personal data. If you have dental insurance, your insurance claim can even be billed electronically the day of your visit assuring timely and accurate claims processing. You can even complete your patient history and insurance registration information online prior to your appointment and check account balance payment information there as well as updating any information down the road. While having the latest technology is great, we are most proud of our wonderful, compassionate staff. For many people endodontic therapy can be an anxious experience. We can even schedule to have an anesthesiologist come in to put our most anxious patients completely asleep for the procedure. Having multiple doctors in the practice assures you of the most experience and the most available appointment times. So, if you need an endodontic specialist, give us a call. We would love to meet you. The nature of my dental trouble has been traumatizing after two major car accidents and several kicks in the teeth by young horses. Plastic surgery and orthopedic surgery seemed like a priority and I put my teeth on the back burner That being said, the staff has been truly amazing and my my experience with the doctors and staff on every visit was thorough, well explained, calming and professional. I run operating centers for a living, and I know it is not easy to accommodate troubled patients and late patients like myself, and I am so great full for this team!
