Best of all products of skoda. Rapid is the best. It ride quality is efficient. Skoda has always been a brand associated with value, and although prices of cars like its Fabia supermini have steadily Skoda cars penetrated the European market with Fabia and Rapid only to be teamed with Octavia. Under Volkswagen, Skoda regained its velour, and the partnership has been symbiotic. Style, performance, and safety- namesake for Skoda cars Every now and then, one spots the Skoda Fabia and wishes to own one someday if not already. With their unique styling and powerful features, Skoda cars have come a long way ever since their emergence in One recognizes a Skoda car by its logo which resembles speed, progress, and freedom, Skoda has been able to spread across Europe including the UK where Mini Coopers prevail. Beginning of the glorious years: Lauren and Klint acquired Skoda Works in , and within a very short period, their business was booming. After one failed attempt, they finally made a motor vehicle which was, in a year made exportable. Claimed as the makers of the first motor vehicle and second oldest only after Tatra. The Voiturette A was built with much vigour and shortly after , Skoda established itself in Austria and Hungary. With the advent of war in Europe for the first time, Skoda started producing trucks and under a new partner, started producing bigger vehicles. With workshops in Prague, Skoda cars had a strong base of intelligent workers. Skoda survived a fire explosion in one of their workshops and still managed to get them out from economic depression. Skoda Standard struggled to improve its engine capabilities, and finally, it came with even powerful vehicles like rapid, Favorit and Superb. Post War global reach: Subsequently, after World War II, Skoda Motors suffered a steep decline only to be rejuvenated by an updated engine configuration. By , US became an important importer of Skoda vehicles. The Felicia equipped V8 engines with comfortable inside. By s Skoda successfully made its market in the European space especially in the UK. Favorit became an absolute favourite and its partnership with Volkswagen, it grew in leaps and bounds with dealerships all across the UK and later to China. Korea and Iran are the next to get Skoda cars dealerships. Good looking family vehicle status: After its merger with Volkswagen, Skoda Motors spread all across Europe with vigour, and by now its advertisements were common sights in families. Rapid and Favorit gained a considerable portion of the front wheel hatchbacks of the s. With the improvement in quality and interior designing, Octavia and Fabia finally entered the European market. Octavia was an immediate favourite of the people, and it came under the influence of Volkswagen Golf, some say. By , their 3rd generation Octavia and 2nd generation Rapid and with this, they made 14 million cars since their foundation. Skoda Auto India Limited and Indian scenario: By Skoda finally entered the Indian market with a manufacturing unit in Maharashtra. In 10 years, the establishment opened up manifold, and Octavia became the style statement. Although the company shut down its production of Fabia, it launched the Octavia with improved features like stronger engine and body structure. Skoda cars are popular for their durability, and Skoda Rapid saw its launch. The company has more than 60 dealerships all over India. More Cars for you.

Skoda Works was established as an arms manufacturer in , but did not develop automobiles. The company started off by manufacturing bicycles. The fall of communism with the Velvet Revolution brought great changes to Czechoslovakia, and most industries were subject to privatisation. In the case of Skoda Automobile the government brought in a strong foreign partner. Volkswagen was chosen in and, in April, , Skoda became the fourth brand of the Volkswagen Group. Backed by Volkswagen Group expertise and investments, the design - both style and engineering - has improved greatly. Skoda has been in India for almost a decade and enjoys a premium position among its competitors. Skoda came to India with Octavia in For the first time in its UK history, a waiting list developed for deliveries by the company. Skoda owners in the UK have consistently ranked the brand at or near the top of the J. Power customer satisfaction survey during the s. As of , Skoda has several manufacturing and assembly plants, including one in Sarajevo, Bosnia and Herzegovina. Skoda also has an assembly plant in the city of Aurangabad, in the western Indian state of Maharashtra which was established in as Skoda India Private Ltd. In Skoda presented its brand new model Roomster, which is a small MPV with a unique design, which reflects future trends. At the end of December Skoda released the first official pictures of the new Fabia, a model that would replace the Fabia in Later in , the company released the first pictures of the face-lifted Octavia with new headlights, front grille and bumper, as well as a slightly restyled rear and interior. The revised car also features a new selection of engines including the 1. A new concept car was presented at the Paris Auto Show in September The concept was called Joyster, a three-door compact car intended especially for young people. As of the Octavia, Roomster and Superb are available in Australia. Skoda brought in its flagship car, Superb in Skoda launched the Laura in and it too got a fresh look in It launched a hatchback, Fabia, at the Auto Expo in Delhi which is well appreciated for its ride quality. The automaker sells its cars through around 70 dealers in 50 cities in India. Skoda cars are known for their world-class build quality and safety features. The company currently manufactures its cars in the Aurangabad plant.
