History[edit] The developments started before originally as Swatch car of Nicolas Hayek in co-operation with Volkswagen. The idea was to design a modern microcar with an electric or hybrid drive. VW, however, could not decide to production, which led to disputes with Hayek. Hayek then turned to Mercedes. When MCC abandoned the original concept and the planned electric or hybrid drive, both Hayek and senior development team members left the project. The rear engine and forward cooling system locations in the Smart Fortwo. Generations are internally designated as the W build series, introduced at the Paris Motor Show , and the W build series, introduced at the Bologna Motor Show. With the second generation, Smart introduced a version with automatic start-stop , marketed as the MHD, or Micro-Hybrid Driveâ€”offered only in certain markets. A sport model, marketed as the Brabus model, has been available in both generations, and Daimler introduced the Smart electric drive , an all-electric version, in Auto, Motor und Sport cites a drag coefficient Cd of. The W and W series each have a frontal area of 1. Transmissions[edit] The first and second generation Fortwo models employ an automated manual transmission , designed and manufactured by Getrag , where the clutch is computer controlled, eliminating the clutch pedal. The first generation used a six-speed version, and the second generation uses a five-speed version, model 5AMT Input from floor-mounted shifter or optional steering-wheel-mounted paddles controls a servo-operated clutch and sequential automated gearbox. The vehicle may be driven in automatic mode early models had the option of full automatic mode, or standard "soft-tip" which was manual mode indicated by no button on the gear lever or via paddle shifters, where the operator controls the shift points but cannot feather or adjust the speed of the clutch. From , revised transmission software enabled smoother and faster gear changes. The software, available via an ECU upgrade, was also made available for second generation cars, with a new battery as required. Parking[edit] With an overall length first generation: Austria, New Zealand and California [23]. First generation Build series W, â€” [edit] First generation W
