Video games[edit] Sonya Blade is one of the main heroes of the Mortal Kombat series. Sonya has a long-standing feud with a thug known as Kano , who stands for everything Sonya despises. In the original Mortal Kombat , Lieutenant Sonya Blade and her team were pursuing Kano, the leader of the Black Dragon international crime organization. Shang Tsung, however, had no intention of fulfilling his end of the bargain and had her unit killed. During the battle, the island started to crumble and she and Kano were taken prisoner to Outworld by Shang Tsung to appease the Outworld emperor, Shao Kahn. Sonya was able to send a signal to Jax from Outworld and, during the events of Mortal Kombat II , he traveled there to find her. It is known that before being captured, Sonya and Kano were forced to put their differences aside and work together to survive in Outworld. She was later freed by Jax who arrested Kano, but as soon as they had passed through the portal to Earth, Kano escaped and fled back to Outworld. She encountered Kano on top of a skyscraper near his fortress and after a fight hurled him off the roof to his apparent death. The Black Dragon kept crossing her path, however, and its last known member Jarek had fled to Edenia while Sonya was chasing him. After returning to Earthrealm Jax and Sonya found Cyrax malfunctioning in a desert. The two brought the cyborg back to the OIA headquarters where they were able to restore the humanity of Cyrax, who then joined the agency. To earn the right to pass into Outworld, each warrior had to defeat a representation of his or her adversary; to her surprise, it was a stranger with an image of a red dragon on his back. With his ability to raise the dead at will, he resurrected Sonya and her fallen comrades, who then served as his slaves until their souls were freed by Liu Kang and Ermac. In her absence, the Tekunin had grown large enough to disrupt Earth civilization and had violated law by engaging in illegal interdimensional alliances with unknown parties. She tracks the signal of a homing beacon placed on Taven escaped thanks to her intervention and eventually confronts him in Arktika to get information out of him, but is beaten. In the story mode, Sonya is investigating the dimensional imbalance. After defeating Catwoman , Baraka , Captain Marvel and Green Lantern , Sonya and Jax return to their base to use their own teleportation machine to try to get to the other dimension, freeing the captive Sub-Zero along the way. When she finds Jax at the hands of Green Lantern, Sonya once again challenged him but is defeated and imprisoned, but then both of them manage to escape together. When both sides finally decide to meet for one last battle, Sonya once again fights Catwoman. In the end, she is knocked unconscious while Raiden and Superman proceed to fight Dark Kahn. In the storyline of Mortal Kombat , an alternate-timeline retelling of the first three games, Sonya teams up with Jax in his mission to bring down the Black Dragon, succeeding in seizing many of their weapons caches. However, after their key informant, Kano, was discovered to actually be a high-powered member of the organization, Sonya and Jax focus solely on his capture following the deaths of many of their comrades in subsequent ambushes. Raiden then enables Sonya to free a wounded Jax, but Shang Tsung destroys their extraction transport and presents Kano to Sonya as a challenge; she emerges victorious yet is forbidden to take him prisoner. Over the 25 years that follow, Johnny and Sonya marry and have a daughter, Cassie Cage , but the two later divorce, allegedly due to Sonya frequently putting work before her family. However, after Cassie defeats Shinnok and saves Earthrealm, she, Sonya and Johnny become a family again. But, player demographic was primarily a hardcore male audience and so the look and design of our female characters pandered to them back then just as they do today. The eventual reboot reinstated the character in her traditional soldier role The action-adventure spin-off game Mortal Kombat: For the abortive project with a working title of Mortal Kombat 8 which was cancelled in favor of Mortal Kombat vs. Her signature Fatality is the "Kiss of Death", [37] an idea of Pesina, [24] a finishing move that makes the defeated opponent burn alive into a charred skeleton. For her initial appearance in the original Mortal Kombat game, SNES Force described her as having "the best jumping skills of any character" her air punch and flying kick work well against most

opponents. Her force wave is excellent for long range battles giving her a good all round performance, though she is fairly weak. Shang Tsung had conspired with Kano beforehand in arranging for him to fight Sonya at the tournament in anticipation of her defeat, which fails as Sonya defeats and kills Kano. Sonya was described in this scene as wearing "an Army -issue T-shirt" and "tightly-laced combat boots. Many international versions of the DVDs, especially Thai, and lobby cards depict Sonya fighting an unmasked monk. Neither script versions or novels indicate this even happened, and the fight scene was unused in the movie. The Journey Begins , wherein she was voiced by Jennifer Hale. For the sequel, Mortal Kombat: Annihilation , Sandra Hess replaced Wilson as Sonya. She is devastated by the death of Johnny Cage, who was killed by Kahn after saving her life. Sonya then grudgingly joins Raiden in locating Jax, whom she rescues from, and helps him fight off, an extermination squad led by Cyrax. They ultimately reunite with Liu Kang and Kitana and succeed in stopping Kahn from bringing the Earth to ruin. Sonya has two fight scenes in the film, first defeating Mileena in a mud pit after splitting up from Jax, then squaring off against Ermac at the climax, during which Noob Saibot spawns from his chest and they assault her with repeated attacks until Jax intervenes to defeat Noob Saibot, enabling Sonya to regain the upper hand and emerge victorious against Ermac. Sonya was one of the lead characters in the animated TV series Mortal Kombat: She was given a signature catchphrase "Kombat time! Her vendetta against Kano was explained and was explored further in two separate episodes, in which Kano was shown to have killed her partner, Wexler, who was named after Threshold writer and producer Joshua Wexler. Legacy , in which Sonya again works with Jax to bust the Black Dragon, but her obsession with Kano leads to her capture, forcing Jax and Stryker to conduct a raid on the warehouse where the Dragons are carrying out their operations. While Sonya manages to free herself during the fracas, Jax later suffers massive damage to his arms after protecting her from an explosion. Ryan was slated to return for the second season but was forced to turn it down due to her ongoing work on Body of Proof. The issue featured an additional short story titled "Every Dog Has Its Day", which explored the relationship between Sonya and Cage after she is cast in his latest movie. Both the journey and her mission go south after the unexpected intervention of Raiden, Shang Tsung, and Goro, resulting in the loss of her cover and her being abducted by Shang Tsung, but she escapes captivity after foiling a ritual sacrifice presided over by Baraka, then inconclusively fights Kano near the conclusion before he evades arrest. World Tour that year. Brazilian magazine SuperGamePower featured her in the article about the " muses " of video games, stating that "more realistic than the Chun-Li and Cammy , Sonya has reigned" between and the introduction of Lara Croft in Well, except for the part where she can sometimes rip your head off. The Special Forces crew has expanded greatly over the last two decades, but it was Sonya that started it all. But the movies gave her a chance to shine.

As we strolled to the main dining area, the true beauty of the place became evident. Adorably quaint cottages, an office, a gift shop and a panaderia bakery where bread, cakes and pastries are freshly baked and on sale. The main dining area is a huge green house with flowing white canopies that really set to mood for romantic late night dinners. The food on my last trip here was over-priced and disappointing. Sonya offers a fixed all-you-can-eat organic menu. It starts with freshly harvested arugula and lettuce handpicked from her garden, topped with mango, broad beans, eggs, cucumber, jackfruit, edible flowers, and other fruits that are in season. Pasta is also served with two choices of sauce; sundried tomatoes, and chicken cream with mangoes. Feel free to mix the two up and surprise yourself. Then, top it off with as much salmon belly, shiitake mushrooms, ratatouille, black olives, capers, and grated parmesan cheese as you want. For dessert, enjoy glazed sweet potatoes, banana rolls with sesame and jackfruit, and homemade chocolate cake. The sweet potato was hard to chew, the banana rolls or turon were unexceptional, and the chocolate cake did not satisfy me at all. Or maybe I just had high expectations for the chocolate cake because of its description. But overall, the set menu was worth its price because of the unlimited servings and fresh, organic ingredients. After lunch, we decided to have a casual stroll around the garden. I love the charm of this place. It is so easy to leave the outside world behind once you walk through the gates. In the Garden Love smelling these flowers Next! The Cottages One of the things I found adorable was that each cottage has a unique personality that is part European and Sonya. Think romantic, think rustic and enjoy being detached from modern life for a day. As part of the rustic experience, rooms do not include many modern facilities like televisions, air-conditioning, and telephones. There is a full-time spa facility in the garden where guests are treated to a full pampering experience. Country Store Sonya has a Country Store that allows guests to purchase some of her offerings to take home or give as gifts, including the Secret Salad Dressing. Freshly baked bread, signature pastries, and salad greens are also available at the Panaderia next door. Check-in Check-out Guests can check-in between 2 p. Chapter 3 : Sonya's Garden | Bed and Breakfast Tagaytay

Sonya's Special Secret: A Lift-The-Flap Book (Fisher Price Mini Flaps, Little People Mini Flaps) Board book - March 1,

I remember we stayed in Tagaytay and visited Caleruega before going here. Caleruega of course is a famous place for retreats and its Transfiguration Chapel is a well sought wedding venue for the elite. But this amazing piece of heavenly place in Alfonso Cavite is bigger than reception and dining. The crunchy broad beans mixed with her Garden Salad are also sold by the bottle here. But we were here for the Panderia and profile pictures around the garden a few years back. This was the perfect time for us to try it as my wife and I were both exhausted by our climb in Mount Maculot that weekend. Services at the SPA are a fusion of European and Asian traditions merged with some modern techniques. Shiatsu relaxes the muscles, Swedish strokes improves blood circulation Thai massage. We were here on Lunar New year, January 23 at around 2pm. The massage area is quite packed with guests so we had to wait for around 30 minutes. We were lead to a couples room on the ground floor Capiz shell doors and wood on concrete white floors made a good appeal on me So that maybe a third wheel could be accomodated? The room is very big I guess so they decided to fill it with a 3rd bed so as to fill the void. There is a hot and cold shower inside so you can clean yourself before the massage. Therapists could be male or female depending on your choice. If you are into really hard massage, I suggest you request for a male therapist unless you are the sadistic type who wants to burden your masseur with the required heavy strokes. There are only a few male therapists though so it would be better to mention your request once you make the reservation. We had no choice so my wife and I both went for female masseurs. She had a female therapist while I had male. Should it be allowed, my wife said she would prefer a male therapist too since her muscles are also tight. The combination of the three strokes is indeed relaxing. I heard they are stuffed with rice grains inside, they put it inside the microwave to heat and are placed on certain pressure points on your body. They could get really hot so be sure to communicate with your therapist if the heat too much for you to handle. But its really relaxing. Pang alis daw ng lamig sa katawan: On our way out of the massage area, we ran accross some customers have food spa in this love lovely section. Sorrounded by garden, this peaceful place is a perfect place for self pampering. My stargazing session was interrupted when the front desk receptionist called my attention and introduced me to the Mrs. Will be featuring it on my next post.

Every nook and corner in your secret garden is an invitation to go on meditation. Mona Bourseaux Through the years, Sonya's Bed and Breakfast is a place I keep coming back to again and again.

Can I not leave this place of solitude! this abode where my heart is at rest? I waited for it during the night. Those were one of the few times I am not asleep nor dreaming. In fact, I am fully alive basking under the sun.. I hear her whisper whenever my soul gets weary. It haunts me, and calls for me to come back like a lover far away. So near, yet seems surreal and distant. Will you take me again, my love? Leave your worries behind. All it takes is a yes. Everything else is free. My friends Nalyn and Jeric took me to buy Spanish bread in their Panaderia bakery. I was able to glance at the garden and went inside their souvenir store but never really had a chance to get a tour inside. Taking the route from Calamba cuts our trip in half. We rented a van to drive us there and paid P2, We chose to hire a vehicle but you can take a bus or self-drive going to Buck Estate, a few kilometers from the famous Sky Ranch if you took Tagaytay road. Going to our room, we were surprised that the three-bedroom Fennel Cottage was assigned for the two of us. It was too spacious! Maybe they may have mistaken it as our honeymoon. Each cottage has a distinct personality. We took a video of Fennel Cottage as your reference. Take a look at the fresh herbs and vegetables from their mini-greenhouse farm. There is a nearby lake or river where they usually take guests for a morning trip, too. In some occasions, they have art-of-doing-nothing classes with no extra charge. You can learn to cook with herbs, arrange flowers, create a wreath, or do some yoga. She lives in the same area. She can ask Sonya to meet you and have the book signed for you. Chapter 5 : THE SPA at SONYA's GARDEN and their Signature Massage - pusang kalye

Thank you Sonya's Garden for accomodating us on our special day! Indeed, it was an exquisite venue!!Thank you to all the staffs who really helped and assisted us during the event!

To celebrate our 6th month wedding bliss, we headed to Tagaytay to getaway from the urban jungle that is Manila. Our car is of no use, so we opted to travel by public transport. The air-conditioned bus is quite impressive, still new, I can tell from the smell and the plastic covered seats. Our itinerary for the day includes a breakfast at Bag of Beans. A great jump start to our lazy holiday. We waited for a jeepney bound to Alfonso and went down to Bgy. Beyond the highway arc, tricycles are waiting for passengers to transport inside the small town. We settled with the first one to take us to this hidden paradise. Sunflowers bound the area as we came nearer. The scent of flowers and freshly baked bread greeted us. A secret no more, and a haven for many. The cottages are relaxing without the distraction of a city life, traces of television or an ipod dock. Perfect for a cozy evening and a night of cuddling. We were ushered to our room. The beds are inviting, soft and grand. Screened windows paneled through every wall, making the room breezy. The furniture are vintage and has a feel of country elegance to it. The room is spacious for only the two of us. It can fit a family of four comfortably. The restroom is rustic and zen like, using pebbles as alternative to tiles. It makes me a little uncomfortable though with so much screened window and only thin curtains that left a little privacy to the room. It rained in the afternoon, the sweet smell blanket the property. We checked out the souvenir shop and bought some Ilog ni Maria products. They supply it as compliments in every room. We continued our siesta until one of the staff called us for dinner. There were another couple on the restaurant, our table was set on the far end. Nearby is a forest so I was thankful when the staff gave us a citronella mosquito repellent. The dark night were graced by occasional fireflies, we were told it is mating season, but the rain kept them from giving a show. A light drizzle made the evening colder. The sound of beetles and birds was such a nice lullaby. The following day, we had our breakfast, and was surprised by the number of guests present at the restaurant. The english-style ambiance, mismatched old, wooden chairs and elegant dining were so welcoming. After yet another heavenly breakfast, we wander around the vicinity once more for photo ops. We also visited Panaderia to bring home some breads. How often do you get to see celebrities?

Sonya's secret visit to see Andrea at the psychiatric unit comes back to haunt her when hubby Toadie accidentally discovers where she's been.

Amidst the verdant and flower-laden garden, with nothing but thick hibiscus shrubs and romantic hydrangeas as witnesses, the young man knelt on one knee before the lady and asked her if she would be his sweetheart. Dinner had to be served! The table was draped with fine embroidered linen and laden with freshly picked lettuce and arugula, sweet-fleshed mangoes, pineapples, and other fruits in season, and an array of dips and sauces for drizzling over salads and pasta. It was an explosion of flavors and feelings. It seemed like only yesterday! I can still feel my surprise when for the first time my grandfather talked to a suitor of mine. Chapter 7 : Sonya Blade - Wikipedia

Sonya's Garden Tagaytay A Secret Sonya's Garden Tagaytay is definitely on our list of romantic Bed and Breakfasts Many thanks go to the creator and owner, Sonya Garcia, for bringing us this slice of paradise.

Disclosure Policy A Special Moment at Sonyas Garden Many of you correctly inferred in a previous post that me and my beloved took our relationship to a higher level. That special moment in our lives happened in a restaurant that is popular for its romantic ambiance. People mistakenly thought that Sonyas Garden is located in Tagaytay City. The garden can be reached by riding a Nasugbu-bound jeepney at Olivarez, Tagaytay. Tell the driver that you will embark at Buck Estate or Sonyas Garden. Ride a tricycle at a terminal near the signboard to finally reach Sonyas Garden. The reason for this is that Sonya initially intended it as her private getaway. The place was open to family members and friends only. Many people discovered the beauty of this getaway and soon the owner was convinced to open the place to the public. We entered the restaurant to do what we went to do, which is to eat a sumptuous lunch. The other end of the restaurant where the toilets are located. The food is unlimited so guests can ask for more food ala Mang Inasal. Bottomless dalandan juice is included. The first food that was brought to our table is the salad. Green, leafy and freshly picked from the garden. Our salad was accompanied with sliced mangoes, egg, cucumber and pineapple. Our salad was also accompanied by a piece of bread straight from the panaderia. What came next is pasta. This can be mixed either with sun-dried tomato or chicken cream with mango. The toppings are shitake mushrooms, black olives, salmon belly and cheese. My dalandan juice, sun-dried tomato sauce and salmon belly. My sauce of choice is the chicken cream, while my beloved chose the sun-dried tomato sauce. I tasted both the sauces and I like the pasta with sun-dried tomato sauce better. Pasta with chicken cream sauce on my plate. The last course is dessert. They served a slice of home-made chocolate cake, turon banana roll with sesame seeds and langka jackfruit and glazed camote sweet potato. The turon and glazed camote were fine but my favorite is the chocolate cake. They also served tarragon tea, which the waitress said is good for digestion. I guess it took us more than an hour eating and talking about a lot of things. The ambiance of the place, the good food, and courteous staff made us more relaxed and allowed us to focus on our food, and of course, on the special moment that unfolded for both of us.
