

Chapter 1 : Gay for Pay: Straight Men Having Gay Sex for Money | HuffPost

Young agents want change. They want more diversity in the agency sales ranks. They want better paths to grow in their careers. They want other agents to adhere to professional standards and ethics.

Straight Men Having Gay Sex for Money A new reality show about straight men who have sex with other men for money, titled *Broke Straight Boys*, is coming to television later this year. But the fact is that many men -- gay, straight and bisexual -- can be sexual with the same sex or the opposite sex if money is involved. Most people, however, think that if a man engages in sex with another man for any reason, he cannot be straight. Straight men who have sex with men are punished by the prejudices and stigma attached to the act, with people judging them to be gay when they are not. Anything seen as non-masculine in a man and gay sex is seen as non-masculine in our culture is deemed "effeminate" or "gay" and is punishable under patriarchal standards. Straight men even direct this homophobia at themselves for engaging in sexual behavior with other men, and the results can be brutal. Gay men are often the most critical of these men, believing that they are closeted gay guys who need to come out. Some women will even avoid men who have even the slightest curiosity about gay sex, even if they never do it. The case of "Josh" a composite of many clients I have had illustrates a deeper understanding of men who can be "gay for pay. While he was able to have intercourse with them, he was no longer able to enjoy them giving him oral sex. He was receiving oral sex from men for money. As an older teenager, Josh realized that both men and women were attracted to him. His working out gave him a tight, muscular, carefully sculpted build. Josh politely said that he was not gay. The man insisted that nothing sexual need come from it; he just wanted to see Josh pose. Enticed by the money, Josh ultimately agreed. While he posed, the man watched and complimented him on his good looks. Over time this man offered Josh more money if Josh would let him masturbate while watching Josh. Ultimately he asked if he could see Josh naked and, later, if he could perform fellatio on Josh, with no reciprocation. For months Josh refused, until the man started buying him gifts and giving him even more money. Josh made it clear that he was not interested in reciprocating in any way and wanted no romantic or emotional ties, that he was doing this just to earn some money. Josh was able to talk dirty to this man and tell him how he wanted to be serviced. In time the man sent other male friends to Josh; they offered money in return for him letting them sexually worship him. What Josh loved was that these men pursued him and honored the body he had created. Beyond appreciating the money he received, he felt desired. It is important to note that Josh was not attracted to any of these men sexually or romantically in any way -- and no other man either, for that matter. He was attracted to women sexually and often said that if he could find a woman to "service him" the way the men who paid him did, he would be less inclined to have men do it. We also learned that, for Josh, directing women and guiding them verbally and otherwise was his way of being in control of receiving oral sex. He was aroused by being in charge and a bit dominant during oral sex. Knowing this helped Josh recognize the importance of telling women his sexual interest in taking some control during oral sex. In fact, Josh was straight from the start. It is not necessarily the straight men who have sex with men who have a problem but everyone who judges them.

And how young women, specifically, can honor God in their relationships. Dobson had with author and speaker Kay Coles James. They will explain the concept of being one with a person forever in marriage and why remaining pure for your spouse is so important. She is the current President of the Heritage Foundation, which actively promotes conservative public policies and traditional American values. Kay served President George H. In the early s, she served President George W. Bush as Director of the U. Office of Personnel Management, overseeing 1. All of her jobs have dealt heavily with the family. A passion that Dr. Dobson also avidly shares. Kay is so accomplished in so many ways. And then, of course, you would put high on a list of credentials being a wife to Charles and a mother to three. I would put it as the highest on the list. Not so, not so. I tell you, being a wife and a mom is the highest, highest calling I have. I just am privileged to be married to one of the most incredible men and in the times that we live in, Jim- Dr. Truly, I took the time to call him from the airport this morning just to let him know how much I love him and how much I appreciate his being willing to let our lives be so open and to be so vulnerable so that we could share what God had taught us. I was surprised that your daughter Bizzy allowed you to be quite that open because she got married not long ago. And our kids have known that from the very beginning. Well, this book has a wonderful title and great content. You are trying to tell people what you wish that somebody had told you. Well, there is an entity in the Black community called sister-girlfriend. I wanted to write the book from that perspective. Now let me get it straight. You got to say it with sort of an ethnic- Dr. Sister-girl- Kay Coles James: Work on it a little while. And the essence of it is telling it straight. And also to get your eyes wide open about the possibilities. I was surprised at the high divorce rate. People where both parties loved God are struggling with these difficult issues. So they encouraged me over and over again to answer and address some of those very specific issues. And then when my daughter came home with a young man and we could see it coming. We knew an engagement was about to happen. I began to go through, "Oh my word, does she know this? Has she thought about that? And this book is really both for those engaged and not yet married and those that are newly married. Absolutely, because there are some things that you should think about ahead of time but as I thought through some of the things that I wish I had known. Some of those things came up in the early years of marriage, year one through And you wish someone had sat down and told you these things. Years later someone that I admired and respected told me about how she used to have to scrimp and save for grocery money. Did you make some mistakes at that time? Oh, made some huge mistakes. Financial mistakes, credit cards, oh I wish I had known about credit cards. I wish I had known about compound interest when I first got married. But the list goes on and we try to Charles and I as we thought through these things for this book, tried to make it as comprehensive as we could. Finances is a big one though. You know, I made a lot of mistakes too, Shirley and I both did. And the reason is because I grew up in a college town and I saw these young students trying to live on love and having nothing and having orange crates for furniture. And then I was very Especially, we bought a television set, 25 dollars a month. We paid for that and I thought I was in debt up to my ears. Well, in our family as I was growing up, we started out, as you know, very poor. The thought that somebody would actually give you a credit card was incredible. So I thought if they gave it to you, you should use it. And as often as you could. Let me tell you the mistake I did make. I made a serious

mistake. I was an only child and I was the delight of both my mother and father. I had a very, very happy childhood and I was the centerpiece for them. There were times when Shirley felt kind of like a third wheel or something. Like she was maybe grafted on or added on or something. And I could have done a whole lot more to help her with the mother-in-law situation because Shirley and my mother loved each other, but there was this underlying tension there that went on for several years and never did break out into the open. It would have been better if it did. It was just there. Just was sort of angry and bitter about the special relationship that exists between mothers and sons and how we as wives need to navigate those waters and deal with those issues. I can tell you. Well you need to talk to him. But I wish that somebody could have talked to me because I easily could have greased the skids there. I could have made Shirley more comfortable. Well, I think just as women, if we just even understand the phenomena and now, and now I am one. I am the mother of sons that want to fluff the pillows. You begin this book with dating relationships and the engagement. And talked about Mr. And I think I really feel the need to say that because in the context of talking about the dating relationship it came as an absolute surprise to me, in the environment in which we live, that I would have to make a strong case for chastity to Christian women. And just in going around and talking about this book I was interviewed by a young, perky, absolutely darling, sweet, Christian woman. And as we talked about that and I raised that issue, I noticed she got a little teary eyed. Are you sleeping with that young man? And so, I really did feel a need to go back in and make the case for chastity to Christian, young women. But we have to say it, we have to say it. And most of the sexually transmitted diseases affect her more than him including infertility problems and all kinds of things. Well, I make the case, as strongly as I know how, because I found a need to do that and I was surprised. One of the things we said to Bizzy, my daughter, is that it was important for her to, number one, the person who knows her best, cares about her the most, loves her, and wants nothing but the best and the highest for her is her dad. So that was number one. Realize that there are many women who are not in a relationship with their father where they have that kind of trust. But for them I say seek out those individuals who know and love you best.
