Superman must battle Darkseid through various levels, saving and protecting innocent people along the way. Man of Steel Produced by: As Superman you must protect Metropolis from Parademons, protect a space station from asteroids, and battle through various other challenging levels of gameplay. Nintendo Entertainment System Produced by: Nintendo of America Inc. Video Arcade Produced by: A horizontal video game that may be played by one or two players interactively. The two players, one controlling a blue Superman character and one controlling a red Superman character, team up to save the world by battling against the evil alien super-powers. Each player uses a joystick to move his Superman character while walking or in flight. Two buttons aside each joystick are used to throw punches, kick, or emit heat vision, a high-intensity laser which destroys all in its path. By pressing the punch button and holding it momentarily, Superman can throw a blast punch. As Superman picks up various colored crystals, he is awarded with additional energy and weapons, including a Super Blast Punch and Mass Terminator. The Mass Terminator destroys all enemies presently on the screen. Items such as cars, gasoline cans, etc. This is done by crouching down and then standing up. The game begins with Clark Kent running through an empty alley and switching to Superman. There are five rounds:
