A1C A form of hemoglobin used to test blood sugars over a period of time. ABCs of Behavior An easy method for remembering the order of behavioral components: Why is there something rather than nothing? Might the world be an illusion or dream? What exists beyond the human senses? What happens after death? Does divine or supernatural agency exist? Is the future already decided? What is right and wrong? Is the world good or bad? Are humans good or evil? Warriors of Poseidon The Journey to the East Ethics also known as moral philosophy is the branch of philosophy which addresses questions of morality. That will teach you to keep your mouth shut. While numerous philosophers have written on this topic throughout history, environmental ethics only developed into a specific philosophical discipline in the s. An abortion that occurs spontaneously is also known as a miscarriage. When deliberate steps are taken to end a pregnancy, it is called an induced abortion, or less frequently as an "induced miscarriage". What place should non-human animals have in an acceptable moral system? These animals exist on the borderline of our moral concepts; the result is that we sometimes find ourselves according them a strong moral status, while at other times denying them any kind of moral status at all. It seems as though what we imagine to be the best of all possibilities is actually the worst of all destinies. This email address is being protected from spambots.
