

Shop quality learning materials and fun educational products for infants & toddlers through 6th grade. Trusted by teachers & parents for over 60 years, Lakeshore Learning offers innovative school supplies, classroom furniture, teaching resources, arts & crafts, children's games and more.

Variety in Teaching Materials Teaching materials are the resources a teacher uses to deliver instruction. Each teacher requires a range of tools to draw upon in order to assist and support student learning. These materials play a large role in making knowledge accessible to a learner and can encourage a student to engage with knowledge in different ways. Text books and journal articles are an important feature of any university course. It is important that students with visual impairments or other print disabilities such as dyslexia have access to electronic versions of reading material. It is possible to make reading material easily available to all students by placing important chapters or journal articles on blackboard. Flexibility in teaching materials and the use of multimedia make it possible to reach out to all learning styles. Multimedia via Blackboard or a course web site can provide the syllabus, assignments, discussion groups, projects, class notes, video material and the power points for the lectures. Links to other websites that can provide additional representations of a topic being discussed or as scaffolds or supports for student learning can also be provided via Blackboard. The Internet also provides opportunities to employ many different entry points to learning. Teachers can draw from written data, graphical, audio and video. Podcasts can also be used It is important that electronic text is always provided either in Word format or as accessible text based PDF documents. Electronic reading materials can instantly be accessed by students with print disabilities and can be converted to large print or Braille via the services of the Disability Support Service assistive technology lab in the Boole library. Electronic material can also be accessed via portable devices such as iPads, other computer based tablets, Android smartphones or iPhones. It is essential for students with print disabilities to receive reading material in an accessible format prior to class if a text is to be discussed in the classroom. Providing reading material prior to class encourages informed discussion in the classroom for all students. What students in UCC have to say about study materials: It can be very visual when we are using maps so it is very helpful to have a map up on Blackboard so you can see what he was talking about rather than trying to memorize it or do a quick scribble. However, it is up to each individual teacher as to when he or she puts the information up and in real terms this can vary a lot. You can be talking a couple of hours, a couple of days, a couple of weeks or never at all. You have maximum retention there. It saves so much time to be able to do this. Internet discussion is helpful for people with confidence issues.

Chapter 2 : Teacher Created Materials - Created by Teachers For Teachers

Teacher Created Resources is the leading publisher of educational materials, classroom decorations & teacher supplies for preschool, elementary & middle schools.

The materials, provided free to elementary school teachers, consist of several highly interactive and informative educational components designed to encourage children to eat 5 servings of fruits and vegetables a day. Developed for children ages 5 to 9, the program includes: The script contains lots of opportunities for singing and dancing, and its flexible casting provides speaking and non-speaking roles, as well as behind-the-scene jobs, for any number of students. Even your shyest students will want to participate! Included in the packet are the script, detailed stage directions and diagrams, directions for creating costumes and sets, an audiotape of the songs, as well as printed versions of the song lyrics. Suggestions for generating publicity, a sample press release, and templates for creating your own playbill are also provided. The materials include additional language arts, science, health, and physical education activities that will help you round out your nutrition unit. The script and other print components can be downloaded at the Dole Web site, but you must order the audiotape by mail or fax. Students can create salads that are high in vitamins and low in fat at The Salad Factory, find out about the history of a variety of fruits and vegetables at Adventure Theater, study the food pyramid at H. The colorful animations, interesting text, and lively music make the shops on Banana Boulevard a fun place to shop for nutritional information. Fun with Fruits and Vegetables Kids Cookbook. Children will love trying out these healthful recipes that are fun to make and eat! Teachers may order up to 25 cookbooks for their students. Students can record their daily fruit and vegetable intake using this magnetized chart and removable fruit and vegetable stickers. Just have them place one sticker on the chart for each fruit and vegetable serving they eat each day! An interactive version of the colorful chart can be found on the 5 A Day Adventures CD-ROM program, and elementary school teachers may order up to 25 individual chart and sticker sets. The Dole newsletter, published twice a year, in February and September, includes nutritional information, a calendar of nutrition-related events, suggestions for holiday activities, announcements of contests and special programs, and news about how classrooms throughout the country are incorporating the 5 A Day program into their curriculum. Or you can fax it to Include your name, school address, and school phone number. Developed for students in grades K-6, the materials are most appropriate for students through grade 3. The Best Friends Video. The first half of this low-key video concentrates on the ways in which dogs help people. Dogs of many different breeds are shown herding sheep, participating in water rescues, locating illegal drugs, and providing companionship for senior citizens. In addition, dog owners who are deaf, blind, and disabled talk about their specially trained pets and demonstrate how the dogs make their lives easier. Students learn how dogs should be fed, walked, and cared for; what commands they should be taught; and how they can be kept safe. Finally, a veterinarian discusses health care for pets. The guide also contains a number of cross-curricular activities. Lesson plans for younger students include counting and graphing, ordering, creating posters, and storytelling. Activities for older students include measuring, graphing, multiplying and dividing, research and reporting, and creating illustrated diaries. A reproducible worksheet accompanies each activity. Additional free AKC publications include: The Canine Ambassador directory. A reference book of local volunteers who give presentations on responsible dog ownership indicate state when ordering. Includes articles, games, contests, and giveaways order PKCN, limit Purebred Dogs Coloring Book.

Chapter 3 : Teaching Materials | University College Cork

Really Good Stuff - the home of fun and creative classroom teacher supplies.

How did we teach without the Internet? Our favorite sites simplify lesson planning, keep the classroom running smoothly, and engage students. Grades PreK–K, 1–2, 3–5, 6–8, 9–12

From 1. Best for Young Readers: Scholastic Kids At Scholastic Kids, students can post book reviews, get reading recommendations, play games based on the latest series, watch "Meet the Author" videos, and more. **Best for Finding Books:** Best for Craft Projects: Best Way to Start the Day: You can also find writing samples to practice scoring and see how other teachers scored the same piece. **Need to teach shapes to preschoolers, for example?** Try the Attribute Blocks, which challenge students to sort virtual objects. **Working on functions with middle schoolers?** Drop numbers into the function machine to identify the pattern. **Google Earth Zoom over the Sahara desert.** Fly past the streets where your students live. Take a tour of the Eiffel Tower. You can do it all with Google Earth, the tool that makes the world feel a little bit smaller with its map-generating capabilities. **National Science Teachers Association** The National Science Teachers Association site is a goldmine for classroom teachers who may not feel as comfortable teaching geology and astronomy as they do reading and arithmetic. **Best for Current Events:** Scholastic News For topics too current for textbooks, Scholastic News classroom magazines offer engaging nonfiction reading online, drawn from the latest headlines. **Best for Middle School:** From fan fiction to poetry to novels-in-progress, all types of writing are encouraged and shared. Be aware that not all content is school appropriate. **Best for Virtual Trips:** Smithsonian Education The Smithsonian offers thousands of resources for educators, including lesson plans, virtual tours of their latest exhibits, and the opportunity to connect with experts in the field. In one lesson, "Final Farewells," students can see a school yearbook from the Civil War era up close, and discuss how the political climate may have affected the content. **Glogster** Glogster bills itself as a tool for making interactive posters, or glogs, containing pictures, text, video, links, and animation. A glog on To Kill a Mockingbird might contain a link to the Scottsboro trial, a clip from the Gregory Peck movie, and a drawing of the tree where Boo Radley leaves gifts for Scout. **Best for the Interactive Whiteboard:** Plus, the customizable Whack-A-Mole game is a must-have for test prep and review. **Best for Interactive Whiteboard Help:** Find help the next time your toolbox goes missing, or if you want to punch up a lesson with cool graphics. **Best for Online Classroom Workspaces:** It works across browsers, tablets, and phones, and can be used for day-to-day classroom management, tracking formative assessments in real-time, and connecting with students and parents in and out of the classroom. **Best for Video Clips:** TeacherTube TeacherTube is the best source for instructional videos in a safe environment. **Burk Perimeter Rap** and the "Mr. PowToon" **Moviemaking** has never been easier than it is at PowToon. **Common Core State Standards Initiative** This site not only offers an overview of the Common Core State Standards, but provides a thoughtful framework for how the standards were determined and what we can reasonably expect students at given grade levels to achieve. **Best for Tough Topics:** Teaching Tolerance Along with an excellent blog that tackles some of the more difficult aspects of education, Teaching Tolerance offers activities and teaching kits on topics ranging from the civil rights movement to the separation of church and state. **Best Professional Development On the Go:** Annenberg Learner Many of the PD series from the Annenberg Foundation are available on demand here, with videos on teaching measurement, writing workshop, and more. **Best for Your Career:** National Education Association In the hustle and bustle of the classroom, it can be easy to lose track of the outside forces affecting education. The National Education Association explains how to take action regarding the issues you care about most – including merit pay, the No Child Left Behind Act, and funding for education. All you have to do is "like" us. Ask your colleagues to share their favorite websites, too. Group them by subject area and bookmark them on your personal computer and in the school computer labs. Your colleagues may have some real time-savers to share!
