## Chapter 1 : CIVILOPEDIA Online: Currency

*animal electricity that themselves excite shocking, long -distance con- nections. 3 My intent, however, is to develop three decidedly material moments that will, i-irst, break up or distort the fantasy of charismatic.*

**Etymology[ edit ]** The word ringgit is an obsolete term for "jagged" in Malay and was originally used to refer to the serrated edges of silver Spanish dollars which circulated widely in the area during the 16th and 17th century Portuguese colonial era. In modern usage ringgit is used almost solely for the currency. Due to the common heritage of the three modern currencies, the Singapore dollar and the Brunei dollar are also called ringgit in Malay currencies such as the US and Australian dollars are translated as dolar , although nowadays the Singapore dollar is more commonly called dolar in Malay. To differentiate between the three currencies, the Malaysian currency is referred to as Ringgit Malaysia, hence the official abbreviation and currency symbol RM. The Malay names ringgit and sen were officially adopted as the sole official names in August Previously they had been known officially as dollars and cents in English and ringgit and sen in Malay, and in some parts of the country this usage continues. **History[ edit ]** Early history **â€”** [ edit ] On 12 June , the Malaysian dollar, issued by the new central bank, Bank Negara Malaysia , replaced the Malaya and British Borneo dollar at par. As the Malaysian dollar replaced the Malaya and British Borneo dollar at par and Malaysia was a participating member of the sterling area , the new dollar was originally valued at 8. In November , five months after the introduction of the Malaysian dollar, the pound was devalued by The new currency was not affected but earlier notes of the Malaya and British Borneo dollar were still pegged at 8. Despite the emergence of new currencies in Malaysia, Singapore and Brunei , the Interchangeability Agreement which the three countries adhered to as original members of the currency union meant the Malaysian dollar was exchangeable at par with the Singapore dollar and Brunei dollar. This ended on 8 May , when the Malaysian government withdrew from the agreement. **East Asian financial crisis and US dollar currency peg **â€”**** [ edit ] Between and , the ringgit was trading as a free float currency at around 2. In addition, the ringgit was designated non-tradeable outside of Malaysia in to stem the flow of money out of the country. Despite these measures, some 7. As of 4 September , the ringgit has yet to regain its value circa against the Singapore dollar 2. This has resulted in the value of the ringgit rising closer to its perceived market value, although Bank Negara has intervened in financial markets to maintain stability in the trading level of the ringgit, a task made easier by the fact that the ringgit was pegged and has remained non-tradeable outside Malaysia since **Post-US dollar currency peg performance **â€”****present [ edit ] Following the end of the currency peg, the ringgit appreciated to as high as 3. The ringgit had also enjoyed a period of appreciation against the Hong Kong dollar from 0. The initial stability of the ringgit in the lates had led to considerations to reintroduce the currency to foreign trading after over a decade of being non-internationalised. In a CNBC interview in September , Najib Tun Razak , the then Prime Minister and Finance Minister of Malaysia, was quoted in stating that the government was planning the reentry of the ringgit into off-shore trading if the move will help the economy, with the condition that rules and regulations were put in place to prevent abuses. As a result, the US dollar appreciated significantly to close at 3. The ringgit spiked at 3. The ringgit would experience more acute plunges in the value since mid following the escalation of the 1Malaysia Development Berhad scandal that raised allegations of political channeling of billions of ringgit to off-shore accounts, and uncertainty from the **â€”**16 Chinese stock market turbulence and the effects of the United States presidential election results. In response to the sharp drop of the ringgit in November , Bank Negara Malaysia began a series of tougher crackdowns on under-the-counter non-deliverable forward trading of the ringgit in order to curb currency speculation. After appreciating as high as 3. **Historical exchange rates[ edit ]** Single currency units in ringgit, averaged over the year Country.
