She was the second of four children in a creative and slightly eccentric household. The National Academy of Design, located near the new home, offered free instruction to anyone who could qualify. This prompted her father to enroll in evening classes and Florence, at 15 years old, joined him for the beginning of her formal art training. Early career[ edit ] In June the family was placed in financial difficulty by the sudden death of Thomas Upton. Her older sister Ethelwyn found work, while her younger siblings Alice and Desmond remained in school. Florence, at age 16, obtained work as a professional illustrator. Numerous publications existed at this time, mainly as vehicles for advertising and light fiction of varying merit. Some of the same authors whose stories appeared in the magazines went on to employ Florence to illustrate their novels or books of short stories. With an established reputation from her published work in New York, Florence had no difficulty in finding employment with London publishers. When the rest of the family returned to the United States she opted to stay in England and began experimenting with ideas to supplement her income so that she could afford further art training. However, without a central character on which to hang the tale, progress came to a standstill. Her aunt, Kate Hudson, found an old toy in her attic that had belonged to the Upton children, left behind from an earlier visit. This toy, which she named Golliwogg, provided inspiration, and the first story was completed in The American Society in London also commissioned a series of drawings and cartoons to decorate the souvenir programme of their November Thanksgiving Banquet. Returning to London in to take up permanent residence, she moved to 21 Great College Street in The last of the books was published in Upton continued to study and paint, concentrating mainly on portraits. She exhibited at the Royal Academy and other prominent venues and rapidly established a reputation as an accomplished society portraitist. Additionally, she received hundreds of commissions from the families of young soldiers. For health reasons Florence was found unfit to serve in any physical capacity during the First World War. She is buried in Hampstead Cemetery. For many years her vandalised grave was unidentifiable, with the headstone toppled face-down in the grass. The stone has now been set upright, courtesy of a Heritage Lottery Fund grant, and awaits restoration. It is difficult nowadays to appreciate the enormous impact that the Golliwogg had at the height of its popularity. Recognising a large and profitable market, many toy companies took advantage of the popularity of the books and manufactured the doll, while other writers and illustrators took equal advantage, many changing the nature of the series. Other authors took a similar tack.
