Five people spend the night in an abandoned house, the Amityville haunted house, and soon find themselves terrorized by assorted ghosts, venomous insects and ghostly apparitions.

In Amityville, a priest is murdered in his own confessional. Afterwards, the church is abandoned and its relics stored in the basement of the old house nearby that was used as a rectory. Suddenly, Debbie insists upon a different route from the one planned and the two find themselves outside a huge, long-empty house. As Marvin excitedly calculates the re-sale value once the house is restored, Debbie whispers softly that she knows the place. Marvin convinces newlyweds Frank Kim Coates and Abigail Cassandra Gava and restaurateur Bill Anthony Dean Rubes to co-invest in the purchase and renovation of the property with himself and Debbie. As Bill and Abigail cross-question Marvin as to how he managed to secure the place at such a low price, Debbie notices a silent, motionless young man standing near the house with his dog. A moment later, the youth has simply disappeared. The five friends take up residence in their investment, but their first night is spoiled by a series of accidents: Debbie is on her way to the bathroom when she hears a cat, which she follows to the basement. There, she is convinced that she hears voices coming from behind a wall. During the night, Debbie dreams that the wall of the basement has been replaced by a door, behind which is a confessional. This odd scene is interrupted when, outside the house, Frank barely escapes being savaged by a dog. The others reach the scene as the dog forces its way into the house. As they cower, Debbie suddenly holds up the crucifix. The dog backs away and a moment later, it has vanished. Working in the basement, Bill and Marvin find a nailed-up door that has been hidden behind shelving. As he approaches the confessional, something seems to stir within it. Taking up a lance, Bill tries to open the confessional door. At that instant, a gale-force wind rips through the house, hurling open windows and slamming doors, and trapping Bill in the basement. Comments: Consensus of opinion seems to be that The Amityville Curse is the weakest of all the Amityville sequels, but I find myself prepared to cut it just a tiny bit of slack. Edited belatedly to add: I have now seen the rest of the sequels. Or perhaps I should say, whether it declares itself to be fact or fiction. The main problem with The Amityville Curse. Okay, okay. One of the main problems with The Amityville Curse is the unmistakable sense that its story has been twisted into being something it was never meant to be, in order to justify its inclusion in the franchise. In truth, this could, and should, have been a halfway decent horror movie. The right elements are here: Indeed, the events that precipitate the drama, supernatural and otherwise, in The Amityville Curse are about as transgressive as anyone could desire: Unfortunately, none of this has much to do with the supposedly haunted house down the street, which is not only not where the murder was committed, but had not even been occupied long by the priest before his killer tracked him down. On the other hand, I suppose all this might go some way to explaining the extremely half-hearted nature of the phenomena that we witness: It is also easier to believe than usual that these particular people might actually be friends, particularly in terms of the lightly touched-in background that implies that Debbie, Abigail and Bill have been close since college, and that Frank and Marvin have married into the situation. But the focus is upon Debbie and Marvin, whose co-enabling relationship is easily as disturbing as any of the supernatural goings-on within the house. Debbie spends longer and longer under the influence of sleeping pills, a state that results in more and more dreams, which in turn, ironically, drive her further and further from Marvin. The alacrity with which Marvin dispenses painkillers and sleeping pills to all and sundry is just one of his many sterling qualities. Another piece of credible characterisation: It is indicative of how little the supernatural aspect of this story has to do with anything, that what ought to be the heart and soul of any Amityville film here feels like tacked-on time-wasting. See, now, I would be pleased if that happened. Elsewhere, cribbing but inverting the situation in The Amityville Horror, the clocks in the house stick stubbornly at 9. The only group experience comes when Bill interferes with the confessional stored in the basement, and this consists of nothing worse than windows blowing open and doors blowing shut. These events may leave the viewer entirely unmoved, but they disturb the characters sufficiently that getting out of the house for a while seems like a good idea; and at long last The Amityville Curse gets going. An exasperated Marvin explains to his friends that there are no such things as

ghosts, or poltergeists, or tarantulas! Meanwhile! death is about to return to the rectory! We have already met Mrs Moriarty in her original role of church secretary. If the screenwriters managed to underwrite almost everything in this film, when it came to Mrs Moriarty they made up for their previous restraint by going completely over the top. Then, the next morning, while all but Debbie are out, and she is still trying to shake off the effects of her latest handful of sleeping pills, Mrs Moriarty wanders in again with a gift of flowers! and ends up sprawled at the bottom of the basement stairs, her neck broken! Amityville: To those that accuse The Amityville Curse of being without any virtues, I say " behold! A film that kills off its Odious Comic Relief! And only two-thirds through its running-time, too! If one aspect of The Amityville Curse sums the film up more than any other, it is the death of Mrs Moriarty, which is due not to any supernatural agency, but to a good old-fashioned human shove. In this they were, to put it mildly, mistaken. Waking in full possession of the facts " and hence finally catching up to the impatient viewer " Debbie heads down to the confessional, where the killer is waiting. In any case, at the moment when Debbie steps into the basement of the rectory, The Amityville Curse stops being a haunted house story. It even stops being a murder mystery. It becomes, instead, a slasher film. And, by the way, how many slasher films boast a Final Girl who is a mature, married woman?

The Amityville Curse is a American-Canadian supernatural horror film directed by Tom Berry, it stars Kim Coates, Cassandra Gava and Jan RubeÅj. It is loosely based on the novel of the same name by Hans Holzer.

They move in with a group of friends to renovate it, but soon face hauntings and premonitions. They discover that the supernatural happenings are connected to the murder of a neighbourhood priest many years before and come to realise that the murderer is one of their group. The original The Amityville Horror began as a claim by the Lutz family that they had spent twenty-eight days in a real-life haunted house. The book managed to capture world attention and was made into a film The Amityville Horror , before being exposed as a hoax. This news of the hoax failed to deter a series of sequels from turning the Amityville series into yet another horror franchise â€” although appropriately by the time that this was made, the series has long passed making any pretensions as to any of it having actually happened. Unlike other franchises such as the Howling or Witchcraft films, Amityville is not a title that has been copyrighted â€” rather difficult to do considering that Amityville is a real town â€” so all the Amityville titles subsequent to the third film have been made by different companies hoping for a slice of the action. It is certainly the dreariest of all the Amityville titles. The film has potentially more plot than any of the other Amityville films â€” there being a good idea of combining the haunting with a whodunnit. However, the film looks cheap â€” the photography is drab. The effects shabbily unconvincing â€” cheap facial appliances and would-be spooky effects like a face seemingly pushing through a wall in the cellar that looks just like a face pushing against rubber. As a haunted house film, it is completely lacking in atmosphere. The revelation of the identity of the killer is obvious from the outset. The other Amityville films are: The Possession , Amityville 3-D , Amityville: The Evil Escapes , Amityville A New Generation , Amityville: No Escape , Amityville Terror , Amityville: Vanishing Point , Amityville Exorcism , Amityville: The Awakening and The Amityville Murders The Amityville Horror was a remake of the original. The Final Testament , which tried to examine what happened in the house, while the parapsychological investigation into the house is also featured in The Conjuring 2 Full film available online here:

The film was loosely based around Hans Holzer's book The Amityville Curse. It has an (obviously) different house than the original Amityville (Ocean Avenue) and isn't really connected to the other films in the franchise (there is a brief reference to the DeFeo murders and to the town's supernatural history).

The Amityville Curse started out kind of slow. It was a lot more psychology than story, but about halfway through it got better. I thought that maybe Hanz Holzer had forgotten that he was writing a fictional story, but he pulled it off in the end.
