Excerpt from The Anatomy of Melancholy, Vol. 2 Parrhasius, a painter of Athens, amongst those Glyn thian captives Philip of Macedon brought home to sell, bought one very old man and when he had him at Athens, put him to extreme torture and torment, the better by his example to express the pains and passions of his Prometheus, whom he was then about to paint.

Mon Jul 28, 4: All audio files can be found on our catalog page: Volume 3 is open for claims: The Anatomy of Melancholy is a book by Robert Burton, first published in 1621. On its surface, the book is a medical textbook in which Burton applies his large and varied learning in the scholastic manner to the subject of melancholia which includes what is now termed clinical depression. Though presented as a medical text, The Anatomy of Melancholy is as much a sui generis work of literature as it is a scientific or philosophical text, and Burton addresses far more than his stated subject. In fact, the Anatomy uses melancholy as the lens through which all human emotion and thought may be scrutinized, and virtually the entire contents of a 17th-century library are marshalled into service of this goal. Burton is forthright about his intentions in writing the Anatomy "I write of melancholy by being busy to avoid melancholy," he concedes. This acknowledged desire to distract and amuse himself motivated Burton to produce a wide-ranging document, containing digressions and commentary. Please read our Newbie Guide to Recording! Is there a deadline? Target completion date of this project: November 26th " but try to send your recordings as soon as you can. Where do I find the text? Please claim sections the numbers in the first column below! Important information, please read this: The Anatomy of Melancholy is a 17th century book. Even though we will be using an edition from the 19th century, that modernized the spelling and whatnot, it keeps many peculiarities and quirks of a 17th century book - among which is the heavy amount of Latin quotations. Even though Burton usually translates or paraphrases the Latin right after the quotation itself, I would recommend that all readers take a look at the section they intend to record BEFORE claiming, and make sure they are comfortable with the amount of Latin in the text, that appears in the middle of the flow, and will have to be read constantly in the middle of sentences. I am more than glad to help with anything needed, including pronunciation tips or translations of small parts. Just post or PM me. Also, we are NOT reading footnotes. Thank you for helping with this long but so important project! Level of prooflistening requested:
