Chapter 2 : Anchor Yale Bible Dictionary (6 vols.) - Logos Bible Software

The Anchor volumes are far more like the single volume 'HarperCollins Bible Dictionary' which is also a misnamed encyclopedia. Whether you purchase the Anchor or the HarperCollins may depend (aside from financial resources) on whether you plan to use the book 'on the road', as in a Sunday Bible Study class.

Top Protestant, Catholic and Jewish scholars have all brought their skills to bear on the Old and New Testaments, as well as the Apocrypha. The founders of this project, William F. In Accordance, this means the ability to search the words of the Bible translation with the Translation field, without interference from the rest of the content. As well as the Translation and a thorough Introduction, many of the volumes of the AYBC have not one but two sets of verse-level comments. One is Textual Notes, which focuses more on text-critical and linguistic details of the text. The other is Notes, which is more general commentary on the verse at hand. Most volumes also feature a broader Comments section that examines the passage as a whole instead of at the verse-level. Several Bible books are covered over the course of multiple volumes. This speaks to the depth of the scholarship represented in the AYBC. Accordance takes all of the valuable information in the AYBC and makes it even more accessible and useful in your Bible study. For even more information, see this recent review in Themelios. Old Testament This commentary set covers the entire Hebrew Bible Old Testament and Apocrypha with the exception of Deuteronomy plus additional parallel volumes covering Joshua , Judges , and Ruth.
