Derryberry is a 9-year-old blind boy who also has Cerebral Palsy sitting in a restaurant where his custodial grandmother works. She can not afford to pay anyone to watch H. In walks, Jim Bradford, an older man who says, "Hi. Thus starts a long term relationship in which both H. Mostly a feel good story. HK, nine years old, would sit there for hours while his grandmother worked at the restaurant cash register. Bradford stopped to talk to the boy and became the victim of the biggest thief in town. HK Derryberry had committed the perfect crime: Bradford and Hardin do a good job of writing the story in a way that captivated me. I felt like I was right there in the story. For me, the best parts of the book were when HK gave inspirational talks to others. He would explain that he had a number of disabilities. HK concluded that he knew he had quite a few physical capabilities. I chose to concentrate on those rather than my limitations. What an inspiration for us all! HK concentrated on his abilities, never giving up on himself. Yes, HK had a friend who helped him meet sports stars and go on adventures. But that is an important message for the rest of us. We are to never give up on those with disabilities. This book is clear. Together we can conquer adversity. My comments are an independent and honest review. Seeing the boy seated all alone and obviously with multiple disabilities Mr. Bradford asked about him. Learning his story he struck up an acquaintance with the boy and his grandmother who worked at the restaurant. Altruistic sympathy and simple human kindness enabled Jim Bradford to aid in the care and keeping of young HK providing stimulating company and cheering him on to achievements. In the course of events, it was discovered that although handicapped, HK had a remarkable talent. I found learning about HSAM to be particularly fascinating. As time passed, HK was able to graduate high school and he and Mr. Bradford have had the opportunity to engage in motivational speaking opportunities. This little book provides a good opportunity to read about an amazing young man and his amazing sponsor and supporter. I encourage teens and adults to read. I received a complimentary copy from Handlebar Publicity Group to facilitate a review of my opinions. I was not compensated. To view it, click here. Turns out blind people can find their way around by touch!! Obviously there is a lot of love there too, and the friendship between Bradford and HK is a beautiful one. But the underlying assumption is that this poor, poor boy needs saving because he has a disability. The implication seems to be that we need to take away their disability, and make them more like the rest of us, rather than celebrating people just the way they are. I got really uncomfortable every time Bradford told the reader that he got embarrassed by HK asking strangers too many questions, and had to step in and "fix" the situation. It left me feeling like HK had been exploited for the sake of a bunch of non-disabled people in need of a feel-good tear-jerker. On one hand I finished thinking the world would be a better place with more people like the subjects of this memoir. At the end you find out the proceeds of the book go to a good cause which at least partially answered my question of why this book was written.
