To further confuse the genealogist, the first Mary Towles born 1 November married Stokeley Towles died in and in his will he named his wife, Jane, and her step-father, Spencer Bobo, as executors. Newman stated that John and Mary Sparks also had a daughter named That she was Elizabeth Sparks, however, seems doubtful since the daughter of Jasper Haynes, who was also named Elizabeth, is known to have married William Sparks. Although there are instances of such marriages taking place, they are extremely rare; it seems more probable that Mr. Newman made an error. Possibly John and Mary Sparks did not even have a daughter named Elizabeth, but if they did it is unlikely that she married Jasper Haynes. John and Mary Sparks, was born somewhere in Virginia ca. It is believed that he came to Orange County in In this deed Thomas Sparks is described as being of Orange County. Thomas Sparks was unmarried when he settled in Orange County, Va. Her birth is recorded in the Parish Register of Christ Church as follows p. Newman states that on 6 October , Claude Vallott deposed that he was 35 years old. His family, except his sons Oliver and Henry, either accompanied him or soon joined him. Towles died in His will was dated January 15th and was proved in court on December 15th. No doubt Thomas was able to put the slave to good use while his son was growing up. The earliest record of Thomas Sparks in Orange County, apart from the land records, is a court order dated 28 May which reads: Counties were divided into precincts and within each precinct there was a constable to enforce the law and maintain order. The office was without a fixed term. The fact that Thomas Sparks was appointed to this office means that the court considered him to be a trustworthy and respected member of the community. In all probability Thomas Sparks was not a wealthy man when he began farming his acres in Orange County. Apparently he did not own any slaves and he probably had to clear his land with his own hands before planting his first crop of tobacco and cotton. By , however, he was able to buy more land. Brown and Richard Thomas. He figures in Virginia history for in he accompanied Dr. He was also the god-father of Pres. His will was proved in Culpeper County on 20 October On 21 October Thomas Sparks made what was perhaps his largest investment during his lifetime--for 70 pounds he purchased a tract containing acres. The tract is described in the deed as follows: Forty Eight Poles So. Sixty poles to two Gums on the Sd. The earliest tax list for Culpeper County called "Rental for Culpeper" which has been found is dated Thomas Sparks is listed as owning acres. The first detailed tax list which has been found is that of on which Thomas Sparks was taxed on only acres. This reduction in acres can probably be accounted for by the fact that, as his will dated indicates, he had given farms to two of his sons Humphrey and John on which they apparently paid the tax. Thomas Sparks paid a net tax of 3 shillings, 6 pence on his hundred acres. The property tax list of shows that Thennas Sparks owned two horses and eleven cattle. He also owned one slave named Caroline. His son-in-law Russell Vawter, who had married his daughter Mary, was living with Thomas Sparks in according to this tax list. On 10 December Thomas Sparks made his will. He was probably about seventy years old. The will recorded copy reads as follows: Land when Required the sd. Humphrey Sparks is to have the Land whereon the sd. John Sparks lives Back again and the sd.
