I do find it interesting to gain this perspective on the religious life with a nun who [through Frazer] communicates why she finds the cloister so attractive. That and not having it rammed down my throat! If only so you can celebrate the deadee! And, in spite of my unholy joy at the start, her talents are very much required to prevent a very sad injustice amongst the many others. Then there are the deaths that keep occurring. This story was notable for two things: Yup, not much has changed down through the centuries. The Champyons are busy pushing at everyone and being nasty. The political machinations and considerations between Lovell and Suffolk are very confusing. Naturally Frevisse comes along as companion. But, someone has killed the former crowner, Montfort. Nobody is gonna miss this guy. As the new escheator, Mister Montfort was investigating claims against Stephen Lengley that would prevent his inheriting a manor which Rose Bower brought to her marriage to his father, Sir Henry Lengley. A simple enough investigation that becomes complicated by a corrupt government official and lying witnesses. Dame Frevisse is one of the nuns at St. Domina Elisabeth is still in charge of St. The gossipy Lady Agnes Lengley enjoys a privileged relationship with the nunnery in Goring. Emme and Letice are her ladies-in-waiting. Stephen Lengley is her, um, flexible grandson; Nichola is his new, beloved wife. Allison Haselden is a timid woman. Domina Matilda runs the St. Sister Joan is the infirmarian. Sister Maud is the sacristan. Sister Mariota Coleshill made a deathbed statement. Part of the problems with deciding about the manor is the polite struggle between the Marquis of Suffolk and Lord Lovell, both of whom are attempting to increase their political strength. The Cover The cover is a vertical split with a colorful graphic on the left of an enclosed garden overlooked by buildings with a dead man lying on the grass and, on the right, a solid colonial blue to showcase the text. As always, the late Ms. Frazer knew how to tell a great story. Her characters were always fleshed out and her pacing was flawless. My only complaint--an ongoing one with her works--is that she was prone to run-on sentences. I already read her entire Joliffe series. Luckily, I have several other favorite authors to fill in the gaps. Sister Frevisse, a nun, has come to the town of Goring in the company of her prioress who is there to visit her dying sister, also a religious. While there, Frevisse is asked to assist in investigating the murder of an official come to determine the legitimacy of an heir to a large estate. It is a pleasure to see Frevisse and her cohorts piece together all of the information they need to find the murderer This mystery takes place in Medieval England and features a host of interesting characters. It is a pleasure to see Frevisse and her cohorts piece together all of the information they need to find the murderer. Unfortunately, they are not able to do so before another killing occurs. In addition to the unfolding murder investigations we also observe the life of the convent, the habits of the people and some of the legal apparatus of the time. I found this book to worth every minute of my time.
