Steven L. Kent is the author of the Rogue Clone series of Military Science Fiction novels as well as The Ultimate History of Video Games. Born in California and raised in Hawaii, Kent served as a missionary for the LDS Church between the years of and

Imperial forces have imposed martial law on countless planets, ruling through fear and intimidation. But secretly, a Rebel Alliance is forming. On the city planet of Coruscant, the mercenary Rianna Saren wages her own battle against the Imperials. Rianna had an arrogant streak due to her painful past as a slave. Rianna lost a lekku after Zarien Kheev, the Zabrak slaver who owned her, got angry at her for trying to escape and had her lekku cut off. Rianna eventually had a prosthetic replacement fitted. Rianna started off her mercenary career on Coruscant, but she often had to flee from Imperial scout groups. She eventually was contacted by Kyle Katarn, who asked her to steal an Imperial shipment of Mirkanite from a Black Sun warehouse. She decided to do it, for a price. She infiltrated the innermost area of the warehouse, killed many Black Sun guards, but was captured and accidentally activated Zeeo. Zeeo freed her from her cell and they attained possession of the Imperial shipment and brought it to the Rebellion. Leia Organa was very grateful and asked Rianna if she would go to Alderaan. Rianna agreed and successfully shut down an Imperial drug chain. On Alderaan she confronted and killed Slak Sagar, then took his heavy blaster. While on Alderaan she learned from Princess Leia that shipments of the drug were on Mustafar where it was being used to increase the slave production of Mirkanite. Rianna set out to stop production at the factory. She infiltrated the factory and found some Wookiee slaves. The leader of the group said where the drill was in the factory. She deactivated the drill shaft and set off explosives to destroy the entire facility. He was in another part of the town and when she found him in an arena he let a rancor loose. Rianna Saren and Zeeo killed the rancor. Kheev then captured her and took her to Despayre, where she found out about the Death Star. Upon arrival on the Death Star she headed to the Communication center and told the Rebels about the battlestation. She then stole an Imperial ship and headed to Danuta, where the plans of the Death Star were being held by Kheev. Rianna fought her way to Kheev and killed him in his personal battle armor, though not before Kheev was able to take a pot shot at Rianna. Zeeo sacrificially took the shot and was seriously damaged. Rianna holding Zeeo, walked to her transport ready to continue her mercenary work. Gameplay Edit Throughout the game, players are confronted by enemies, whom they must fight cooperatively, controlling both Rianna and her droid Zeeo to accomplish their missions. Players are able to set up holographic disguises to fool Imperial Royal Guards, and command gun turrets. Rianna as the main character is not a Jedi, so there are no Force powers or lightsabers. A multiplayer mode allows players to combat each other using droids from the same class as Zeeo.

The Alliance military largely consisted of improvised, repurposed, or stolen civilian ships; they lacked the means or resources to build and crew thousands of capital ships. The biggest and most powerful warship they had available were several MC80 star cruisers supplied to the Alliance by Mon Calamari , but the Alliance Fleet kept these in reserve and never risked deploying them, even when strategically-critical bases in Atollon , Yavin , and Hoth came under siege. The Alliance fleet is geared towards space superiority , wolfpack operations , hit-and-run tactics , secret missions, subterfuge , and general elements of a stateless military grand strategy. They used gunships and corvettes to screen Imperial starfighters. Their warships carried a complement of expensive endurance-capable starfighters that traveled alongside the fleet. These were equipped with life support systems , deflector shields, and FTL-drives. The Alliance Starfleet almost never placed their ships at risk; they avoided attrition and conventional engagements with the Imperials at all costs. Instead of engaging the Imperials in open firefights, the Rebel Alliance largely embraced flexible non-committal attack tactics utilizing mainly fast attack CR90 corvettes supplied to the Alliance by Alderaan. To minimize losses, the Alliance military leadership heavily favored carrier battle groups supporting starfighter strike crafts for fast-attack style of warfare. Alliance Starfighter Corps[edit] The Alliance finds its strength almost entirely in the starfighter arena, offering some of the most effective and versatile small strike craft within Star Wars canon. The introduction of the A-wing , B-wing and X-wing , along with the former Imperial officers who piloted them, only improved upon that advantage. It was Arvel Cynryd who crashed his A-wing into the bridge of the Executor , thereby disabling the ship. Rogue Squadron , commanded by Wedge Antilles , was a starfighter squadron in the Star Wars franchise. In the film Rogue One , Rebel fighters on a suicide mission to steal the plans for the Death Star which causes the Battle of Scarif self-identify as "Rogue One", a possible precursor to Rogue Squadron. After successfully downloading the Death Star plans, Alderaanian soldiers aboard a Mon Calamari flagship barely manage to escape Imperial forces with the stolen data plans. All members of the Alderaanian Consular Security onboard are either killed or taken prisoner and Princess Leia Organa is held hostage for a time by Darth Vader. In the Star Wars comics, the Rebellion wins numerous victories against the Empire after the destruction of the Death Star, destroying its major weapons factory on Cymoon 1, breaking an Imperial blockade around the Rebel world of Tureen VII by stealing the Star Destroyer Harbinger and recruiting the Mon Calamari trading fleet to be refitted as an assault fleet. Such firepower would finally allow the Alliance to attack the Empire on a larger scale. Half the Rebel ships were destroyed in the battle before Leia found a way around the sabotage and allowed the remaining ships to escape. However, Generals Jan Dodonna and Davits Draven, as well as several other high-ranking Rebel officers, were killed during the battle and the remaining Rebel ships were separated in their flight. Mon Mothma instructed all Rebel cells to regroup in time while striking out at the Empire when and how they could. Not until the Battle of Endor would the whole force of the Rebellion be once again united in a single place. This, combined with the Imperial power vacuum and political infighting, encouraged thousands of inhabited planets to either declare independence from the Empire, or defect to the Alliance. In addition, the declining popularity of the Empire pushed many long time Imperials to the Rebel cause, including those of Inferno Squadron , who after Operation Cinder, which saw the destruction of countless Imperial worlds, opened the eyes of many to the atrocities of the Empire. Even the most dedicated Imperials such as Inferno Squadron commander Iden Versio were moved to defect after the witnessing the destruction of her homeworld Vardos. The Alliance Fleet, now finding itself with no shortage of recruits and resources, shifted military doctrine ; the guerrilla warfare aspect of the grand strategy was de-emphasized, and conventional forces took over the primary prosecution of the war. Thus, the Galactic Civil War officially ended: The Resistance, an army backed up by the New Republic and successor of the Alliance, is formed to stand against the First Order

, a new military power formed by remnants from the Old Empire. Star Wars expanded universe According to Star Wars: In addition, the RPG tells that although throughout the galaxy many sectors are already fighting against Imperial interests, resistance is relatively quiet until the incident on the planet Ghorman, which takes place 18 years before the Battle of Yavin. With implied permission from the Emperor, Tarkin lands the ship anyway, injuring and killing many, an incident that history would record as the Ghorman Massacre. The RPG tells that part of the strategy of the Rebel Alliance is the Doctrine of Space Denial, wherein the Rebellion would attack Imperial shipping frigates in hit and run raids, both to disrupt Imperial supplies and operations, and also to loot desperately needed materials. These Rebel starfighters were equipped with hyperdrive capability along prearranged routes which would allow this kind of harassment and escape before the Empire may react. Palpatine clandestinely bids for the creation of another opposing force, intent on starting yet another war in order to consolidate his power with the fledgling Empire, just as he had done earlier with the Confederacy of Independent Systems. Vader quickly realizes that this is obviously a ploy by Palpatine in order to lure any significant rebels into a trap; however, it is unclear whether Vader or the Emperor had intended for the Rebellion to survive. However, the proceedings are ambushed by Vader under orders from the Emperor, whom had actually secretly orchestrated the Treaty himself in order to gather all the Rebel leaders together and eliminate them. Starkiller, now aligned with the Rebellion after two betrayals by his former master, manages to save the principal founders from the Empire, though at the cost of his own life. Regrouping on Kashyyyk, the Senators formally proclaim an open Declaration of Rebellion, which states the grievances of the Empire against the Alliance to Restore the Republic and concludes with an open threat to depose the Emperor. The Galactic Civil War consequently ensues, during which the Rebellion confronts the Empire many times throughout the galaxy. Empire at War depicts various allies contributing secretly to the Alliance, slowly making the united Rebel Force more powerful. The most notable equipment contributions include the defection of the Incom Corporation staff and all relevant material involved in the development of an advanced spacefighter, the X-wing. Formal declaration of rebellion in Star Wars: We, the beings of the Rebel Alliance, do this day send forth this Declaration to His Majesty, the Emperor, and to all sentient beings in the Galaxy, to make clear to all the Purposes and Goals of this Rebellion. We firmly acknowledge the importance and necessity of the institution of Galactic Government. We accept that all must subjugate themselves to that Government, giving up certain rights and freedoms, in return for peace, prosperity and happiness for all. We believe that the Galactic Government derives its power and right to rule from the consent of the governed. We believe that, should the rights of free beings be willfully and malignantly usurped, it is the unalienable right of said beings to alter or abolish said Government. We believe that the Galactic Empire has willfully and malignantly usurped the rights of the free beings of the Galaxy and therefore, it is our unalienable right to abolish it from the Galaxy. We do not take this course lightly. Governments long established should not be changed for light and transient causes, but when a Government displays a history of usurpation, abuse and moral atrocity, displaying a clear design to subjugate totally and absolutely beings born free under the auspices of nature, it is our rightâ€”our dutyâ€”to depose of that Government. The history of the present Galactic Empire is of repeated injuries upon its members, with the direct objective of establishing you, Emperor Palpatine, as absolute tyrant over the Galaxy: You have disbanded the Senate, the voice of the people; You have instituted a policy of blatant racism, enslavement and genocide against the nonhuman peoples of the Galaxy; You have overthrown the chosen leaders of planets, replacing them with Moff and Governors of your choice; You have raised taxes without representation or the consent of those taxed; You have murdered and imprisoned millions without benefit of trial; You have unlawfully taken land and property; You have expanded the military far beyond what is necessary and prudent, for the sole purpose of suppressing your subjects. We, the Rebel Alliance, do therefore in the nameâ€”and by the authorityâ€”of the free beings of the Galaxy, solemnly publish and declare our intentions: To fight and oppose you and your forces, by any and all means at our disposal; To refuse any Imperial law contrary to the rights of free beings; To bring about your destruction and the destruction of the Galactic Empire; To make forever free all beings in the galaxy. To these ends, we pledge our property, our honor, and our lives.
