Extremism in defense of liberty was no vice, he famously told the nominating convention, and moderation was no virtue. And it doomed him and his party. When Barry Goldwater went down to ignominious defeat in , most Republicans felt doomed among them the then-year-old Wanniski. Economists from Ludwig von Mises to Friedrich Hayek to Milton Friedman had preached that government could only make a mess of things economic, and the world of finance should be left to the Big Boys – the Masters of the Universe, as they sometimes called themselves – who ruled Wall Street and international finance. Hoover enthusiastically followed the advice of his Treasury Secretary, multimillionaire Andrew Mellon, who said in Purge the rottenness out of the system. High costs of living and high living will come down This, Republican strategists since knew, was no way to win elections. Which was why the most successful Republican of the 20th century up to that time, Dwight D. Eisenhower, had been quite happy with a top income tax rate on millionaires of 91 percent. As he wrote to his brother Edgar Eisenhower in a personal letter on November 8, The political processes of our country are such that if a rule of reason is not applied in this effort, we will lose everything--even to a possible and drastic change in the Constitution. There is a tiny splinter group, of course, that believes you can do these things. Among them are H. Hunt [you possibly know his background], a few other Texas oil millionaires, and an occasional politician or business man from other areas. Their number is negligible and they are stupid. If Nixon and Ford believed in economic conservatism, they were afraid to practice it for fear of dooming their party to another forty years in the electoral wilderness. By , Jude Wanniski had had enough. The Democrats got to play Santa Claus when they passed out Social Security and Unemployment checks – both programs of the New Deal – as well as when their "big government" projects like roads, bridges, and highways were built giving a healthy union paycheck to construction workers. And every time Republicans railed against these programs, they lost elections. Everybody understood at the time that economies are driven by demand. People with good jobs have money in their pockets, and want to use it to buy things. Wanniski decided to turn the classical world of economics – which had operated on this simple demand-driven equation for seven thousand years – on its head. The more things there were, the faster the economy would grow. At the same time, Arthur Laffer was taking that equation a step further. Not only was supply-side a rational concept, Laffer suggested, but as taxes went down, revenue to the government would go up! Neither concept made any sense – and time has proven both to be colossal idiocies – but together they offered the Republican Party a way out of the wilderness. Ronald Reagan was the first national Republican politician to suggest that he could cut taxes on rich people and businesses, that those tax cuts would cause them to take their surplus money and build factories or import large quantities of cheap stuff from low-labor countries, and that the more stuff there was supplying the economy the faster it would grow. George Herbert Walker Bush – like most Republicans of the time – was horrified. But Wanniski had been doing his homework on how to sell supply-side economics. In , he rolled out to the hard-right insiders in the Republican Party his "Two Santa Clauses" theory, which would enable the Republicans to take power in America for the next thirty years. Democrats, he said, had been able to be "Santa Clauses" by giving people things from the largesse of the federal government. Republicans could do that, too – spending could actually increase. For working people it would only be a small token – a few hundred dollars a year on average – but would be heavily marketed. And for the rich it would amount to hundreds of billions of dollars in tax cuts. The rich, in turn, would use that money to import or build more stuff to market, thus increasing supply and stimulating the economy. And that growth in the economy would mean that the people still paying taxes would pay more because they were earning more. There was no way, Wanniski said, that the Democrats could ever win again. Either one would lose them elections. When Reagan rolled out Supply Side Economics in the early 80s, dramatically cutting taxes while exploding mostly military spending, there was a moment when it seemed to Wanniski and Laffer that all was lost. The budget deficit exploded and the country fell into a deep

recession " the worst since the Great Depression " and Republicans nationwide held their collective breath. But David Stockman came up with a great new theory about what was going on " they were "starving the beast" of government by running up such huge deficits that Democrats would never, ever in the future be able to talk again about national health care or improving Social Security " and this so pleased Alan Greenspan, the Fed Chairman, that he opened the spigots of the Fed, dropping interest rates and buying government bonds, producing a nice, healthy goose to the economy. Reagan, Greenspan, Wanniski, and Laffer took the federal budget deficit from under a trillion dollars in to almost three trillion by , and back then a dollar could buy far more than it buys today. Surely this would both starve the beast and force the Democrats to make the politically suicidal move of becoming deficit hawks. Bill Clinton, who had run on an FDR-like platform of a "new covenant" with the American people that would strengthen the institutions of the New Deal, strengthen labor, and institute a national health care system, found himself in a box. A few weeks before his inauguration, Alan Greenspan and Robert Rubin sat him down and told him the facts of life: Clinton took their advice to heart, raised taxes, balanced the budget, and cut numerous programs, declaring an "end to welfare as we know it" and, in his second inaugural address, an "end to the era of big government. Looking at the wreckage of the Democratic Party all around Clinton by , Wanniski wrote a gloating memo that said, in part: If the Democrats are going to play Santa Claus by promoting more spending, the Republicans can never beat them by promoting less spending. They have to promise tax cuts In supply-side economics they found a philosophy that gave them a free pass out of the debate over the proper role of government. Just cut taxes and grow the economy: Bush embraced the Two Santa Claus Theory with gusto, ramming through huge tax cuts " particularly a cut to a maximum 15 percent income tax rate on people like himself who made their principle income from sitting around the pool waiting for their dividend or capital gains checks to arrive in the mail " and blowing out federal spending. Bush even out-spent Reagan, which nobody had ever thought would again be possible. And it all seemed to be going so well, just as it did in the early s when a series of three consecutive Republican presidents cut income taxes on the uber-rich from over 70 percent to under 30 percent. In , pretty much everybody realized that instead of building factories with all that extra money, the rich had been pouring it into the stock market, inflating a bubble that " like an inexorable law of nature " would have to burst. These many trillions in new entrepreneurial wealth are a true warrant of the worth of his impact. Unbound by zero-sum economics, Jude forged the golden gift of a profound and passionate argument that the establishments of the mold must finally give way to the powers of the mind. He audaciously defied all the Buffeteers of the trade gap, the moldy figs of the Phillips Curve, the chic traders in money and principle, even the stultifying pillows of the Nobel Prize. And now Boehner, McCain, Brooks, and the whole crowd are again clamoring to be recognized as the ones who will out-Santa Claus the Democrats. Instead, he merely looked incredulous; it was enough. Hopefully, though, reality will continue to sink in with the American people and the massive fraud perpetrated by Wanniski, Reagan, Laffer, Graham, Bush s , and all their "conservative" enablers will be seen for what it was and is. And the Obama administration can get about the business of repairing the damage and recovering the stolen assets of these cheap hustlers. This is the world we live in. This is the world we cover. Here is what is widely known about Santa Claus: Santa Claus Saint Nicholas lives with his wife at or near the North Pole where there is always snow although other Arctic or Subarctic locations are sometimes specified, like Iceland or Lapland. Every Christmas Eve, he packs his sleigh and flies around the world delivering gifts to children. The gifts are made by a group of elves who also live at the North Pole. He keeps a list of which children are "naughty" and which are "nice," only delivering gifts to the "nice" ones by climbing down chimneys and leaving the presents under a Christmas tree or in stockings. In some stories, he has children: Claus as having two children, Bertha and Fritz. Later, it is King Cole who, on the request of Mother Goose, allows Santa to continue to give toys away indefinitely rather than sell them for a living by granting him a free toy business with free lodging on the condition that he move to the North Country. No mention is made of elves. He is, nevertheless, portrayed as distinguishing a nice child from a naughty one, giving gifts to the nice one, and driving a sleigh pulled by a team of six white horses. In the tale, he springs from one tree to another and has the power to make a young woman who was abandoned by her family in the cold forest become colder and colder. When her family then leave her stepsister in the same spot expecting similar gifts, Ded Moroz literally freezes the rude stepsister to death. Nicholas was famous for his generous gifts to the poor, in particular presenting the three impoverished daughters of a pious Christian with dowries so that they would not have to become prostitutes. In continental Europe more precisely the Netherlands, Belgium, Austria, the Czech Republic and Germany he is usually portrayed as a bearded bishop in canonical robes. The remains of Saint Nicholas are in Italy. In , the Italian city of Bari mounted an expedition to locate the tomb of the Saint. The reliquary of St. Nicholas was conquered by Italian sailors and his relics were taken to Bari [8] [9] where they are kept to this day. A basilica was constructed the same year to store the loot and the area became a pilgrimage site for the devout. These were collected by Venetian sailors during the First Crusade and taken to Venice , where a church to St. This tradition was confirmed in two important scientific investigations of the relics in Bari and Venice , which revealed that the relics in the two Italian cities belong to the same skeleton. Saint Nicholas was later claimed as a patron saint of many diverse groups, from archers , sailors, and children to pawnbrokers. This date was earlier than the original day of gifts for the children, which moved in the course of the Reformation and its opposition to the veneration of saints in many countries on the 24th and 25 December. So Saint Nicholas changed to Santa Claus. The custom of gifting to children at Christmas has been propagated by Martin Luther as an alternative to the previous very popular gift custom on St. Nicholas, to focus the interest of the children to Christ instead of the veneration of saints. Martin Luther first suggested the Christkind as the bringer of gifts. But Nicholas remained popular as gifts bearer for the people. Father Christmas Father Christmas dates back as far as 16th century in England during the reign of Henry VIII , when he was pictured as a large man in green or scarlet robes lined with fur. Schmutzli carries a twig broom to spank the naughty children. History Origins Pre-modern representations of the gift-giver from Church history and folklore, notably St Nicholas known in Dutch as Sinterklaas , merged with the English character Father Christmas to create the character known to Americans and the rest of the English-speaking world as "Santa Claus" a phonetic derivation of "Sinterklaas". In the English and later British colonies of North America, and later in the United States, British and Dutch versions of the gift-giver merged further. This has usually been a very busy day with me, preparing for Christmas not only for my own tables, but for gifts for my servants. No confectionary, cakes, or pies can I have. We are all sad; no loud, jovial laugh from our boys is heard. How disappointed she will be in the morning, though I have explained to her why he cannot come. Why must the innocent suffer with the guilty? This entry from Mrs. Army mop-up companies and stragglers during those intervening weeks continued to "forage", loot, burn, and liberate slaves, hence, the concern of Mrs. Burge and her household. It contained Old Santeclaus with Much Delight , an anonymous poem describing Santeclaus on a reindeer sleigh, bringing presents to children. Nick is described as being "chubby and plump, a right jolly old elf" with "a little round belly", that "shook when he laughed like a bowlful of jelly", in spite of which the "miniature sleigh" and "tiny reindeer" still indicate that he is physically diminutive. The reindeer were also named: Santa was dressed in an American flag , and had a puppet with the name " Jeff " written on it, reflecting its Civil War context. In , the poet Katharine Lee Bates popularized Mrs. The editorial, which included the famous reply " Yes, Virginia, there is a Santa Claus ", has become an indelible part of popular Christmas lore in the United States and Canada. When Ak, Master Woodsman of the World, exposes him to the misery and poverty of children in the outside world, Santa strives to find a way to bring joy into the lives of all children, and eventually invents toys as a principal means. He is wearing a mask with a beard attached. The image of Santa Claus as a benevolent character became reinforced with its association with charity and philanthropy, particularly by organizations such as the Salvation Army. Volunteers dressed as Santa Claus typically became part of fundraising drives to aid needy families at Christmas time. In , Charles W. Howard , who played Santa Claus in department stores and parades, established the Charles W. Howard Santa School, the oldest continuously-run such school in the world. Eventually, the idea emerged that he had numerous elves responsible for making the toys, but the toys

were still handmade by each individual elf working in the traditional manner. The popular song by George Melachrino , "Mrs. Claus in the popular imagination. Other modern additions to the "story" of Santa include Rudolph the Red-Nosed Reindeer , the 9th and lead reindeer immortalized in a Gene Autry song, written by a Montgomery Ward copywriter. Unbeknownst to many, Santa actually has to use many sleighs and fake Santa drivers to get the job done Christmas Eve, and the transportation management system TMS optimally builds thousands of consolidated sacks that maximize cube utilization and minimize total air miles. Claus were running a sweatshop over there In the Kyrgyz capital, Bishkek , a Santa Claus Festival was held on 30 December , with government officials attending. The events are seen as moves to boost tourism in Kyrgyzstan. In pre-Christian Norse tradition, Odin would often enter through chimneys and fire holes on the solstice. In the tale of Saint Nicholas, the saint tossed coins through a window, and, in a later version of the tale, down a chimney when he finds the window locked. Nicholas" where the author described him as an elf. In the United States and Canada, children traditionally leave Santa a glass of milk and a plate of cookies ; in Britain and Australia, he is sometimes given sherry or beer, and mince pies instead. In Denmark, Norway and Sweden, it is common for children to leave him rice porridge with cinnamon sugar instead. In Ireland it is popular to give him Guinness or milk, along with Christmas pudding or mince pies. They get sweets in a bag if they were good, and a golden colored birch switch if not. On Christmas Eve "Little Jesus" comes and gives gifts for everyone. Children following the Dutch custom for sinterklaas will "put out their shoe" leave hay and a carrot for his horse in a shoe before going to bed, sometimes weeks before the sinterklaas avond. The next morning they will find the hay and carrot replaced by a gift; often, this is a marzipan figurine. Naughty children were once told that they would be left a roe a bundle of sticks instead of sweets, but this practice has been discontinued. Tags on gifts for children are sometimes signed by their parents "From Santa Claus" before the gifts are laid beneath the tree. A classic American image of Santa Claus. Ho, ho, ho Ho ho ho is the way that many languages write out how Santa Claus laughs. The laughter of Santa Claus has long been an important attribute by which the character is identified, but it also does not appear in many non- English -speaking countries. The traditional Christmas poem A Visit from St. Nicholas relates that Santa has: Some stories and legends include a village, inhabited by his helpers, surrounding his home and shop. In Denmark, he is said to live in Greenland near Uummanaq. In Sweden, the town of Mora has a theme park named Tomteland. These letters normally contain a wishlist of toys and assertions of good behavior. Some social scientists have found that boys and girls write different types of letters. Girls generally write longer but more polite lists and express the nature of Christmas more in their letters than in letters written by boys. Girls also more often request gifts for other people. These letters may be answered by postal workers or outside volunteers. Written and sent with the help of a parent or teacher, children learn about the structure of a letter, salutations, and the use of an address and postcode.

But welcome or not welcome, I am come In this version, the restored Father Christmas is looking better: The character Scabbard remarks, "Men are grown so During the following century they became probably the most widespread of all calendar customs. The oldest extant speech [36] [37] is from Truro, Cornwall in the late s: Old Father Christmas appear[s] but once a year, He looks like an old man of fourscore year [80]. His physical appearance at this time became more variable, and he was by no means always portrayed as the old and bearded figure imagined by 17th century writers. The notion had a profound influence on the way that popular customs were seen, and most of the 19th century writers who bemoaned the state of contemporary Christmases were, at least to some extent, yearning for the mythical Merry England version. Santa Claus is "no other than the Pelz Nickel of Germany He arrives in Germany about a fortnight before Christmas, but as may be supposed from all the visits he has to pay there, and the length of his voyage, he does not arrive in America, until this eve. What will Santa Claus bring us? Nicholas was published in England in December in Notes and Queries. The Stocking of the title tells of how in England, "a great many years ago", it saw Father Christmas enter with his traditional refrain "Oh! His dress "was a long brown robe which fell down about his feet, and on it were sewed little spots of white cloth to represent snow". He wore a great furry white coat and cap, and a long white beard and hair spoke to his hoar antiquity. Behind his bower he had a large selection of fancy articles which formed the gifts he distributed to holders of prize tickets from time to time during the day Father Christmas bore in his hand a small Christmas tree laden with bright little gifts and bon-bons, and altogether he looked like the familiar Santa Claus or Father Christmas of the picture book. The young guests "tremblingly await the decision of the improvised Father Christmas, with his flowing grey beard, long robe, and slender staff". He must have a white head and a long white beard, of course. Wig and beard can be cheaply hired from a theatrical costumier, or may be improvised from tow in case of need. He should wear a greatcoat down to his heels, liberally sprinkled with flour as though he had just come from that land of ice where Father Christmas is supposed to reside. From the s it had been accepted readily enough that presents were left for children by unseen hands overnight on Christmas Eve, but the receptacle was a matter of debate, [78] as was the nature of the visitor. Before Santa Claus and the stocking became ubiquitous, one English tradition had been for fairies to visit on Christmas Eve to leave gifts in shoes set out in front of the fireplace. In a short fantasy piece, the editor of the Cheltenham Chronicle in dreamt of being seized by the collar by Father Christmas, "rising up like a Geni of the Arabian Nights This is of course well known, and the master of the house does in reality place a Christmas gift secretly in each stocking; but the giggling girls in the morning, when bringing down their presents, affect to say that Santiclaus
