Chapter 1 : Verb tenses | Oxford Dictionaries

The simple present tense is one of several forms of present tense in English. It is used to describe habits, unchanging situations, general truths, and fixed arrangements. The simple present tense is simple to form.

The Simple Present of English Verbs Conjugated verbs in English express a combination of verb tense , verb aspect , verb voice , and verb mood. Tense, which imperfectly corresponds to time, is the grammaticalized expression of time. Aspect, which corresponds to duration of an action or state, is the grammaticalized expression of temporal structure. Mood is one way to express modality, which is the expression of possibility, probability, necessity, and contingency. Voice is the expression of relationships between predicate and nominal functions such as subject and object. The simple present typically refers to verbs in the present tense, simple aspect , indicative mood, and active voice. The simple present can be defined as a verb form that expresses a discrete action or event in the present or near future. For example, the sentence The toddler needs a nap contains the verb phrase needs, which is an example of the simple present. The use of the simple present in this example indicates that the toddler is in the state of needing a nap at the present moment. Formation of the Simple Present Unlike the majority of verb forms in English, the simple present is formed with a single word rather than a phrase of two or more words. Verbs in the simple present are formed either as identical to the base form, which is the infinitive without the p-word to, or by adding an -s suffix to the end of the base form. The verb phrase patterns for the simple present are as follows: Notice that the verb phrase pattern for the simple present is identical in all persons and numbers except for the third person singular, the spelling and pronunciation for which are available at Third Person Singular Simple Present Verbs. Also note that the anomalous verbs to be, to have, to do, and to go are irregular in the simple present: Discrete actions or states in the present Describe habits and routines State general facts and truths Express thoughts and feelings Describe events in the near future For example: The puppy wants a treat. The little girl whines every morning. Fish swim in water. We go to Chicago tomorrow. The following visual illustrates the uses of the simple present of English verbs: The simple present expresses discrete actions in the present or near future. Summary The simple present is defined as a verb form that expresses a discrete action or event in the present or near future. The simple present is formed with a single word rather than a phrase of two or more words. References Hopper, Paul J. A short course in grammar. Descriptive syntax and the English verb.
