Power Rangers Lost Galaxy: Revisited Power Rangers in Space: Revisited often abbreviated as "PRIS" or referred to as " Revisited" was the sixth season of Power Rangers: The show was a turning point in the history of the Power Rangers: Revisited franchise, as the season brought about the end of six years worth of storylines and was the ending of the practice of having the Power Rangers be a continuous serial-style show with a regular cast that carried over from one season to the next. As the villains enjoy a banquet, an unwelcome guest crashes the party -- a Red Power Ranger. Dark Specter sends his chosen disciple Astronema to pursue and destroy him. As he retreats to the spaceship, the Red Ranger Andros finds the former Aero Rangers examining the ship. As an act of gratitude, Andros gives them all-new Astro Morphers, allowing them to transform into Space Rangers like him. However, they are frequently forced to postpone the search in order to protect Angel Grove from Astronema, her loyal general and adopted father Ecliptor , and the seemingly-immortal bounty hunter Darkonda. When Andros is able to confront Astronema at one point, he learns to his surprise that she is actually Karone , his sister that had disappeared many years ago when they were children. Darkonda had kidnapped her so that Dark Specter and Ecliptor could raise her in the ways of evil. Though Andros is able to convince Karone to forsake her evil upbringing and return with him to the Astro Megaship, she is recaptured by Darkonda and placed under intense cybernetic brainwashing alongside Ecliptor. With no trace of her former life left in her, Astronema resumes her evil plans by sending down an adversary unlike any other -- the Psycho Rangers , five insane cyborgs programmed to imitate and terminate the Power Rangers. Through many long and arduous battles, the Power Rangers are able to slowly weaken and eventually defeat the Psycho Rangers. As the series comes to a close, Dark Specter rallies his forces and launches a full-scale invasion on the galaxy. The Power Rangers and all their allies from across the galaxy try their hardest to fend off the overwhelming forces but are unable to hold up against the onslaught. However, Dark Specter is assassinated by Darkonda in a suicide attack and Astronema quickly takes advantage of the unexpected diversion by declaring herself to be the new undisputed Queen of Evil. Zordon demands that his energy tube be shattered in order to save the galaxy, but Andros refuses to kill him and Alpha and the first team of Power Rangers plead for their "father" not to leave them. However, Astronema and Ecliptor arrive to keep him from doing anything. When Astronema is accidentally killed during the conflict, Ecliptor breaks out of his brainwashing and attacks Andros in rage. Andros is forced to do what must be done and destroys Zordon.

## Chapter 5 : Space Revisited – The Fly Room

*Tuning Out Blackness fills a glaring omission in U.S. and Latin American television studies by looking at the history of Puerto Rican television. In exploring the political and cultural dynamics that have shaped racial representations in Puerto Rico's commercial media from the late s to the s, Yeidy M. Rivero advances critical discussions about race, ethnicity, and the media.*

## Chapter 7 : La Habana Elegante - Ecos y murmullos

*At the very time that some in the United States have timidly embraced multiracialism as a fitting ideal for North*

*Americans, Latin American critics have begun to argue that multiracialism, like racial democracy, functions as an ideology that masks enduring racial injustice and thus blocks substantial political, social, and economic reform.*
