Throughout its history the hotel has been closely associated with the rich and famous. During the s it became known as a haunt of numerous writers and artists such as poet Cecil Day-Lewis , novelist Somerset Maugham , and the painter Sir Alfred Munnings. It held prestigious literary gatherings, notably the "Foyles Literary Luncheons", an event the hotel still hosts today. Queen Elizabeth II attended the Dorchester when she was a princess on the day prior to the announcement of her engagement to the Prince Philip, Duke of Edinburgh on 10 July The hotel has since become particularly popular with film actors, models and rock stars, and Elizabeth Taylor and Richard Burton frequently stayed at the hotel throughout the s and s. In the s, theatrical designer Oliver Messel made a number of notable changes to the interior of the hotel, incorporating aspects of theatrical design into the hotel interior. He designed the lavish apartments on the 7th and 8th floors; the Oliver Messel Suite is named after him, designed in the Georgian country house style. Today The Dorchester has five restaurants: Afternoon tea, a tradition which has taken place at the hotel since its opening in , is served every day of the week at five in the afternoon in The Promenade and the Spatisserie. A well-lit plane tree stands at the edge of the hotel in the front garden, and was named one of the "Great Trees of London" by the London Tree Forum and Countryside Commission in Joseph Damer acquired it in the 18th century and a large building was constructed in In the early 19th century it became the Hertford House after it was purchased by Francis Seymour-Conway, the 3rd Marquess of Hertford , and alterations were made to it, inspired by the Villa Farnese of Rome. The background to the development of the Dorchester Hotel is complicated. Sir Owen Williams was commissioned to design the new hotel, using reinforced concrete to allow the creation of large internal spaces without support pillars, but he abandoned the project in February and was replaced with William Curtis Green. There were prestigious literary gatherings, including "Foyles Literary Luncheons", an event the hotel still hosts. In the post-war period, the Dorchester became one of the most popular hotels in London for actors and entertainers, and the banqueting rooms and suites became known for their press conferences and parties. The attack was the immediate cause for the Lebanon War. In , the hotel closed for two years for a major refurbishment. In June the brother of the Sultan of Brunei, Prince Jefri Bolkiah , was sued by his former business partners in a case that was settled out of court. It is eight storeys high aside from the ground floor, with the central bay containing three windows on each floor. Christopher Matthew has stated that he thinks of the Dorchester as a "rather American hotel", not only because of the strong association with American actors such as Elizabeth Taylor, but because the sweeping s facade reminded him of many of those which appeared in American film musicals. He incorporated aspects of theatrical design into the hotel interior, and designed the lavish apartments on the 7th and 8th floors. The current dark green staff uniform of The Dorchester was designed in and is also attributed to Ford. All rooms in the hotel either provide views of Hyde Park or of its landscaped terraces. The Dorchester has five restaurants: Virlogeux, head chef during the Second World War, had to succumb to rationing and a national maximum-price restriction of five shillings for a three-course meal. When refurbished along with other parts of the hotel in , the redesign purposefully retained its s influence. It is surrounded by a thin white curtain which allows diners at the table to view out into the restaurant but prevents other diners from viewing in. The ceilings are ornate, featuring gold leaves and brass chandeliers, and the room also features deep red riveted leather chairs and deep red curtains, with a Middle Eastern-looking exotic carpet. The tables are set with elegant silver cutlery and crockery, with Corinthian columns made of marble, glittering chandeliers , French tapestries and potted plants in the background. Hollywood actor Charlton Heston , a frequent guest at the hotel, once commented on the aspect of service at the hotel: The service includes a first course consisting of finger sandwiches with sliced cucumber , cream cheese , and smoked salmon , all served in silver trays, a second course consisting of scones with clotted cream and jam, followed by a pastry tray with a selection of freshly-made patisseries. The restaurant is luxuriously designed, with an art deco lounge bar reminiscent of s Shanghai. As of , the Dorchester had

different wines in stock. A plane tree, with its monumental root system, stands at the edge of the hotel in the well-tended front garden. The branches of the tree are fitted with numerous bulbs which makes the night scene of the hotel evocative. The hotel has continued to be associated with actors, rock stars and people in entertainment. Numerous film actors and people have auditioned, been interviewed or have stayed at the Dorchester over the years, and it is strongly associated with cinema, particularly American film. From the s onwards the Dorchester was a common rendezvous for film producers, actors and casting agents. John was found drunk at the hotel; writer and co-producer Eric Ambler promptly sent him back to John Davis in a taxi with a board around his neck with the words "Return to John Davis with compliments". Cup Finals over the years, and in Leicester City players checked in before playing Tottenham Hotspur.

The term has no definite legal connotation, but is used in law to refer to United Kingdom citizenship and matters to do with nationality. History of the British Isles Background Main articles: History of England , History of Wales , History of Scotland , History of Ireland , and History of the formation of the United Kingdom The stones of Stonehenge , in Wiltshire , were erected between and BC Settlement by anatomically modern humans of what was to become the United Kingdom occurred in waves beginning by about 30, years ago. Following the Declaration of Arbroath , Scotland maintained its independence, albeit in near-constant conflict with England. The English monarchs, through inheritance of substantial territories in France and claims to the French crown, were also heavily involved in conflicts in France, most notably the Hundred Years War , while the Kings of Scots were in an alliance with the French during this period. Settled in , the town is the oldest continuously-inhabited English town in the New World. Although the monarchy was restored , the Interregnum ensured along with the Glorious Revolution of and the subsequent Bill of Rights , and the Claim of Right Act that, unlike much of the rest of Europe, royal absolutism would not prevail, and a professed Catholic could never accede to the throne. The British constitution would develop on the basis of constitutional monarchy and the parliamentary system. During this period, particularly in England, the development of naval power and the interest in voyages of discovery led to the acquisition and settlement of overseas colonies , particularly in North America. History of the United Kingdom The Treaty of Union led to a single united kingdom encompassing all Great Britain On 1 May , the united Kingdom of Great Britain came into being, the result of Acts of Union being passed by the parliaments of England and Scotland to ratify the Treaty of Union and so unite the two kingdoms. The Jacobites were finally defeated at the Battle of Culloden in , after which the Scottish Highlanders were brutally suppressed. British imperial ambition turned towards Asia, particularly to India. British ships transported an estimated two million slaves from Africa to the West Indies. Parliament banned the trade in , banned slavery in the British Empire in , and Britain took a leading role in the movement to abolish slavery worldwide through the blockade of Africa and pressing other nations to end their trade with a series of treaties. Gradually political power shifted away from the old Tory and Whig landowning classes towards the new industrialists. An alliance of merchants and industrialists with the Whigs would lead to a new party, the Liberals , with an ideology of free trade and laissez-faire. In Parliament passed the Great Reform Act , which began the transfer of political power from the aristocracy to the middle classes. In the countryside, enclosure of the land was driving small farmers out. Towns and cities began to swell with a new urban working class. Few ordinary workers had the vote, and they created their own organisations in the form of trade unions. Alongside the formal control it exerted over its own colonies, British dominance of much of world trade meant that it effectively controlled the economies of many regions , such as Asia and Latin America. During the century, the population increased at a dramatic rate, accompanied by rapid urbanisation, causing significant social and economic stresses. Canada, Australia, and New Zealand became self-governing dominions. After the war, Britain received the League of Nations mandate over a number of former German and Ottoman colonies. Anglo-Irish Treaty The rise of Irish nationalism , and disputes within Ireland over the terms of Irish Home Rule , led eventually to the partition of the island in Northern Ireland remained part of the United Kingdom. Britain had still not recovered from the effects of the war when the Great Depression “ occurred. This led to considerable unemployment and hardship in the old industrial areas, as well as political and social unrest in the s, with rising membership in communist and socialist parties. A coalition government was formed in Winston Churchill became prime minister and head of a coalition government in Despite the defeat of its European allies in the first year of the war, Britain and its Empire continued the fight alone against Germany. Urban areas suffered heavy bombing during the Blitz. There were also eventual hard-fought victories in the Battle of the Atlantic , the North Africa campaign and the Burma campaign. British forces played an important role in the Normandy landings of , achieved with its United

States ally. Since the Second World War Main articles: Independence was granted to India and Pakistan in Many became members of the Commonwealth of Nations.
