Nov 09, Colette Lamberth rated it really liked it I thought this started a bit slow but when it got going it really had a lot thrown into it. There was a particular scene that had me shouting aloud at the Kindle and will stay in my head for a while yet. Part of the plot really tested my credulity, but it is fiction after all. I do like this series and I plan to read the rest of it. Nov 27, helen rated it it was amazing What a read This book is amazing. A brilliant story line. Action right through the book. If you want excitement ,brilliant story a little humour read this book. Jun 05, BARBARA D HILL rated it really liked it A little slow to start and the number of different characters made it quite difficult to keep track of the plot,however once the storyline developed then the pace quickened and made for a good read On the downside I was really disappointed with the number of grammatical mistakes and missing words in the text,far more than is really acceptable today. The worst was the use of a wrong surname in the the cl A little slow to start and the number of different characters made it quite difficult to keep track of the plot,however once the storyline developed then the pace quickened and made for a good read The worst was the use of a wrong surname in the the closing scene. Conrad needs to have a serious word with his script editors because this shows a lack of professionalism. Overall I would thoroughly recommend this episode and the series to date. Some expansion of previous characters with the addition of new prevented me from not continuing and I will also add nor my faith of purchasing further books by Mr Jones But it all played out well and kept the story going to another bigger build up. I love this author as he keeps you involved and you end up feeling like you are part of the MIT. May 12, Miss Joanne Cash rated it it was amazing Gruesome but gripping Totally gripping from start to finish. A must for Conrad Jones fans. Thoroughly enjoyable and easily a book that can be read in just a few sittings. Short chapters make a quick pick up possible also. Oct 28, Marie rated it it was amazing Brilliantly gripping This series has kept me on edge and turning pages, I think they are fantastically written and easy to follow Sep 09, Mariana Silva rated it really liked it This review has been hidden because it contains spoilers. Many twists and turns and although there was always a niggling idea of the unsub I was still slightly suprised at the end. Excellent character building this series is definitely getting better book by book. Book 6 is already downloaded
