

Chapter 1 : Detailed Review Summary of The Ghatti's Tale - Finders-Seekers 1 by Gayle Greeno

*The Ghattis Tale, Book 1: Finders-Seekers [Gayle Greeno] on calendrierdelascience.com *FREE* shipping on qualifying offers. Their technological resources destroyed, a colonizing expedition from Earth has been stranded on the world of Methuen for over two hundred years.*

As it turns out, I like it even better than I remember liking it when I first read it all those years ago. The writing is good. I felt compelled to continue on. Sometimes t I read this book first a couple years after its original publication. Sometimes the author gets a little too wordy, but for the most part, I felt like there was a good balance of description. And it takes off like a shot! Lots of books have slow starts, but this one gets down to business right away. This book is somewhere in between fantasy and science fiction, but leans more to the side of science fiction. In that regard, though, there are some things that stand out as For example, the people of this world have been there for years or so. What confuses me a bit about that is that there seems to be a rather vast population to this world. There are a few other cultural things that seem to me like they evolved too quickly in the span of around years, also. I can give the benefit of the doubt that things like horses and squirrels may have been aboard their ships when they arrived at the planet, and thus were released and procreated as they pleased in the new environment, but there are other issues that make me stop and sigh. For me, this sort of thing can be a distraction I found that I liked all the ghatti the catlike creatures. Some of the human characters, not so much. And there are times at which she does not act her age. You get a little bored of teenagers and younger twenty-somethings, you know? A sort of "who done it" murder mystery. Each book in the series is a few hundred pages too long, being bloated with endless prattle between unmemorable characters loftily exchanging endless paragraphs riddled with meaningless jargon pertaining to a poorly-rendered fantasy world one would rather not inhabit, from which the reader is expected to extract the somewhat gruesome and equally uninteresting plot. I t This series has a great premise that is totally botched by the tedious, uninteresting writing style and un compelling characters. Going to have to track down the rest of the series now to find out how things on Methuen the world in the book progressed. It also made me miss my huge cat, Murf who I think might just have been a Ghatt in hiding.

Chapter 2 : FictFact - Ghatti's Tale series by Gayle Greeno

The Ghatti's Tale: Finders Seekers is a masterful blend of action, adventure, mystery and romance. The characters are believable with personality's and intricate back story's. The setting is both fantasy and Sci-fi, being set on another planet but with a medieval atmosphere.
