The Revolution was effected before the War commenced. The Revolution was in the minds and hearts of the people; a change in their religious sentiments, of their duties and obligations. This radical change in the principles, opinions, sentiments, and affections of the people was the real American Revolution. But the cultural transformation that Adams described had started even earlier than the Harvard grad remembered. Livingston edited and mostly wrote a weekly magazine, The Independent Reflector, that from November to November infused throughout British America the Lockean ideas of government by consent and the right of the people to depose a tyrannical king. Though Livingston remained an active polemicist for the next quarter-century, and though he served in the Continental Congress and the Constitutional Convention and as governor of New Jersey for 14 years, no mark he made on the fate of the continent proved as indelible as the one he imprinted in those 12 momentous months in the mid-eighteenth century. He devoured Locke, along with other classics of mid-seventeenth-century English republicanism that he later cherished in his own large library. Constitution, judged long afterward. In his apprenticeship, Livingston marinated in a radical legal and journalistic tradition that he was soon to carry on. When the first issue of The Independent Reflector appeared on November 30, , politics, not taste, was its keynote. From exposing the peculiar Deformity of publick Vice, and Corruption: Magazine sales soared, and, in a city and province whose squalid eighteenth-century politics often turned on the business and personal feuds of the Livingston and De Lancey clans, William Livingston also liked shaming the De Lanceyite villains in this case. Their plan opened an old wound: Can it, therefore, be supposed, that all shall contribute for the Uses, the ignominious Uses of a few? But much college teaching is bound to be indoctrination, forming as well as informing, with powerful consequences. And he was deadly serious in his fear of tyranny, for he thought that High-Church Anglicans resented the Glorious Revolution of "with its strictly limited monarchy, its Bill of Rights, and its Act of Toleration of Protestant dissenters" and believed instead in the divine right of kings. Only six years before the Reflector began, the Stuart pretender, Bonnie Prince Charlie, had tried to restore divine right before being routed on Culloden Moor, and he still had partisans among the Tories. The college opened as an Episcopal institution in July , with seven students meeting in the Trinity Church vestry. Untangled, it runs like this. Before there was any government, nature made men free and equal and endowed them with rights. Had Man been wise from his Creation, he. From such Whig radicalism, they thought, it was one short step to republicanism, and they condemned the Reflector as subversively antimonarchist. A disinterested Love for their Country, is succeeded by an intemperate Ardor; which naturally swells into a political Enthusiasm; and from that, easy is the Transition to perfect Frenzy. But in , Livingston began to lead the colonists in formulating the second great intellectual and moral justification for rebellion—that crown officials were trampling not only the Lockean social contract but also the most fundamental, time-honored protections of the British constitution. The death of James De Lancey in July provided the chance to name a new chief justice, and the death of George II three months later required colonial judges to get their commissions renewed, so Colden could change their terms. At a frighteningly fast pace, Colden and the London ministry began undermining this bastion of liberty in , and Livingston led the opposition. The assault started in April, with the Sugar Act, which let nonjury Admiralty Courts try smugglers and tax evaders. After a jury found a New Yorker named Cunningham guilty of stabbing a fellow townsman named Forsey, Forsey, who recovered, successfully sued his assailant for damages. Cunningham appealed the civil suit to the lieutenant governor in his capacity as appellate judge, asking him not just to look for legal errors but also to review the facts themselves. In November, Colden agreed and demanded the trial transcript. In April, news of the odious Stamp Act reached America. But by ,

when the London government repealed the Stamp Act and reversed its Cunningham order, reaffirming that appeals courts could consider legal errors only, Livingston was a chastened man. Ever more threatening demonstrations against the Stamp Act in New York broke out on November 1, 1765, into full-scale urban rioting. A drunken mob hanged Colden in effigy, burned his treasured coach, and gleefully destroyed the richly furnished house of British major Thomas James. Some 40 loyal tenants fought them off. By 1766, he craved peace and quiet. He began building a house there in 1766, retired from his law practice, and moved into Liberty Hall in 1767, just as he was turning 50. Less than two weeks before the Declaration of Independence, his constituents recalled him, naming delegates raring to break with England. His next book is *The Founders at Home*.

The Independent Reflector, a polemical essay-journal, here republished for the first time since its appearance in , is a pungently written commentary on the culture of pre-Revolutionary America.

Composed of faculty members, the staff of the then Dialectic Star began writing a monthly campus bulletin intended to inform students of campus and area events. Years later, the Dialectic Star became the Dialectic Reflector. During the school year, the student body officially took over control of the then-named College Reflector, and it became a weekly publication. It was finally changed to its current name in . The Reflector has printed every year since except during the school year. During World War II , so few students were available on-campus to contribute, the English department assumed responsibility and published a weekly bulletin in its place, called The Maroon and White. The Reflector is published every Tuesday and Friday. The Reflector had campus news, athletics pages and sections devoted to agriculture and industry. Controversy Advertisements God is Dead An incident in prompted the university to assign an adviser to oversee the production of the newspaper. The editor at the time, Grady Thurman, decided to print an article which presented the infamous God is dead argument in its publication. Though the article was not written by the editor at the time, it prompted the Mississippi College Board to assign an adviser, Henry Meyer, to the newspaper staff. Meyer, a retired local journalist and former professor, helped the ever-changing staff for more than 25 years. Today the building that houses offices for The Reflector and the Reveille bear his name. On August 16, , when the group applied for an advertisement to be published in an upcoming issue, the application was refused by then-editor Bill Goude-lock. The suit was decided in favor of the defendants at the district level and was affirmed by the United States Court of Appeals [2] , giving The Reflector precedence for its continued discretion toward issues dealing with freedom of the press. We offer counseling, legal aid and a library of homosexual literature. Since The Reflector offered free classifieds to campus and local organizations as a service yet denied the GMA equal access, The Reflector made its regard of homosexuality unmistakable, especially in light of the innocent nature of the proposed ad, which simply offered services and moral support to a socially targeted group of people. Awards The Reflector has been awarded many collegiate press awards, most notably for its layout and reporting. The publication staff also took the General Excellence award at the Mississippi Press Association college newspaper convention. The Reflector was awarded best newspaper in the South in at the Southeastern Journalism Conference.

The John Harvard Library text reproduces that of the first book edition , modernizing spelling and capitalization. Paul Sorrentino introduces Red Badge to a new generation of readers for a fuller appreciation of the novel and its effects. The Common Law Holmes, Oliver Wendell Much more than an historical examination of liability, criminal law, torts, bail, possession and ownership, and contracts, The Common Law articulates the ideas and judicial theory of one of the greatest justices of the Supreme Court. The John Harvard Library presents a text that is, with occasional corrections of typographical errors, identical to that found in the first and all subsequent printings by Little, Brown. In his Introduction, Michael J. Colacurcio argues that it is also a serious historical novel. Denis Donoghue instructs the reader in a fresh appreciation of the novel. In his introduction, Robert S. Bradstreet, Anne Hensley, Jeannine Anne Bradstreet was one of our earliest feminists and the first true poet in the American colonies. Ben Mazer has painstakingly re-edited the poems in this selection from manuscripts at the Houghton Library. Included in this generous selection are several important poems omitted in The Complete Poems of Frederick Goddard Tuckerman. Yellin, Jean Fagan This enlarged edition of the most significant and celebrated slave narrative completes the Jacobs family saga, surely one of the most memorable in all of American history. The American Party Battle: Election Campaign Pamphlets, , Volume 1: The 19th century was the heyday of furious contention between American political parties, and Silbey has recaptured the drama and substance of those battles in a sampling of party pamphlets. The nature of political controversy, as well as the substance of politics, is embedded in these party documents which both united and divided Americans. Election Campaign Pamphlets, , Volume 2: The nineteenth century was the heyday of furious contention between American political parties, and Joel Silbey has recaptured the drama and substance of those battles in a representative sampling of party pamphlets. The pamphlets demonstrate how, for this fifty-year period, political parties were surrogates for American demands and values. Bailyn, Bernard Garrett, Jane N. This is the first volume of a four-volume set that will reprint in their entirety the texts of 72 pamphlets relating to the Anglo-American controversy that were published in America in the years 1763-1833. They have been selected from the corpus of the pamphlet literature on the basis of their importance in the growth of American political and social ideas, their role in the debate with England over constitutional rights, and their literary merit.
